

Additional Information

My Commitment to Our City

Background and Experience

I have deep roots in our city, having grown up here and operated businesses locally. My commitment to our community is further demonstrated by my 40 years of service as a local leader, during which I have served as a director and chairman on several boards. These roles have enabled me to connect with the community, advocate on their behalf, and help shape our future. My dedication to our city is the driving force behind my efforts to help create a better environment for living, working, and social connections.

Priorities for a Stronger Community

I am passionate about enhancing safety, supporting local enterprises, and fostering strong community bonds. Safety should be a priority for everyone, especially women and children. To achieve this, I believe we need increased visible policing and more evening patrols throughout our neighbourhoods.

Listening to the Community

Local communities understand their own needs best. Every neighbourhood deserves authentic consultation, meaningful engagement, and fair treatment. It is important that all ratepayers and small business owners feel heard and supported in council decisions.

Independent Representation and Accountability

I do not participate in divisive politics. As an independent voice, my goal is to faithfully represent our community. We need genuine accountability and a council that puts voters first. My commitment is to ensure that the council listens, acts, and restores trust, while creating opportunities and bringing people together.

A Call to Action

I ask for your support and vote to help deliver a council that truly listens to residents, acts on their concerns, and works to restore trust. Together, we can create opportunities and unite our community to make our city and ward truly shine. Vote for me, Trevor Bartley (1) lets work together to make our city and ward a better place to work, live, and visit for all.
