

Additional Information

I am a local father who is proud of our community and wants to contribute to its continued improvement.

As a Police Officer with over 12 years service, predominantly in the Joondalup district, I know how to serve my community, and the issues it faces.

I have served in Joondalup Police Station, Wanneroo Police Station, Clarkson Police Station, Warwick Police Station and Mirrabooka Police Station, amongst others, first as general duties Police Officer, and now as a Detective, so I know this ward well.

Something I've learned is that crime is a symptom of deeper issues, and the response needs to be holistic. This means well-run services, events for families and activities for children. As Councillor, my focus would be on improving safety for the North-Central Ward.

Having undertaken university studies in crime reduction and prevention, paired with my practical experience, I am well positioned to contribute to the safety of the North-Central ward.

For years I've put action to my beliefs. In Joondalup I helped run a volunteer boxing program for at-risk youth on the condition of 100% school attendance and keeping out of trouble. The program was a success and turned lives around, giving the kids a better future, and reducing youth crime.

The North-Central Ward needs an accountable, trustworthy and principled set of hands to represent its residents. Allow me to represent you, and that's what you'll get.
