

## Info @ Action Sheds

---

**Subject:** Planning Application Lodgement - 43 TASMAN RD, BELDON WA 6027

Hi

Please find attached planning application and supporting documents for proposed shed at 43 TASMAN RD, BELDON WA 6027.

The proposed shed will be used for secure storage of bikes, gardening equipment and general household items. The 2.6m wall height is required for the install of shelving to maximise storage space for a growing family.

The reduced secondary street setback is requested as the property owner has advised that space is a bit limited in the area that they wish to build. They also feel it would look more visually pleasing being able to have it right in the corner of the property.

Just let me know if you require any further information to process the application.

Thank you.

*Kind Regards*

*Cassi Griffiths*
