PETITIONS AND DEPUTATIONS

DEPUTATION - "YOUTH SPEAK OUT" FORUM

The Youth Services Co-ordinator, Lucy Bennett, David Applebee and John Stewart from Commonwealth Employment Services addressed the Committee to present the outcomes of the "Youth Speak Out" Forum.

The Youth Services Co-ordinator provided background information to the initiative called "Youth Speak Out" which involved approximately 100 young people attending a number of workshops at various locations in the City of Wanneroo. This was followed by a Youth Forum, held at Quinns Rocks when over 70 young people participated and discussed their concerns and ideas about education, employment and training within the municipality.

David Applebee addressed the subject of transport and the difficulties for young people particularly in Yanchep and Quinns Rocks attending training programmes, interviews or pursuing leisure activities when there was no public transport in and out of these areas during the day.

Lucy Bennett discussed the school system and stated she would like to see more work experience opportunities while students were still at school to enable them to find out the type of work they may wish to do and to establish contacts with employers. She would also like to see compulsory life support skills taught in schools. Students now required a high standard of education to be eligible for TAFE. More work needed to be done in providing training courses for those students without high academic ability.

John Stewart suggested methods of increasing local business by the introduction of citizen cards for trade discounts, free advertising and publishing of a local business directory.

He highlighted shortfalls in facilities for young people in the City of Wanneroo including youth accommodation and places where young people could meet and socialise rather than the Recreation Centres where organised team sports and fees were too high for the young unemployed.

Following a conference to be held in June at the City of Wanneroo, information would be collated into a report which would then be sent to local business associations, State and Federal Government service providers, the Ministry for Education, and local community newspapers.

Following questions from Councillors, the Mayor thanked the Deputation for addressing the Committee.

H40503 LICENCE & REGISTRATION - EATING HOUSES - [930-18]

ACTING CITY ENVIRONMENTAL HEALTH MANAGER'S REPORT H40503

In August 1992, Council resolved to reaffirm its earlier commitment to set the amount of \$300 for the Licence and Registration of Eating Houses (Item G40804 refers).

The impact of this increase prompted numerous requests to pay the licence fee by instalment, and it was agreed that a minimum payment of \$50 per month would be acceptable.

The Acting City Environmental Health Manager advises that a number of proprietors paid an initial payment and have since let their payments lapse.

H40509 HEALTHY CITIES PROJECT - [241-5-2]

ACTING CITY ENVIRONMENTAL HEALTH MANAGER'S REPORT H40509

Council is advised that under the Health Department budgetary allocation for special projects a casual appointment of a Health Promotions Officer has been made to the Health Department to identify the status quo of Healthy Cities at national and state levels, to examine the possibilities of implementing

Healthy Cities Projects in Wanneroo, and to identify the processes involved.

The City Environmental Health Manager reports on the status quo of the Healthy Cities following the completion of the three year pilot project which has seen commonwealth funding withdrawn but continued interest and support for Local Government initiatives by the Health Department of Western Australia, although the prospects of state funding is difficult to predict.

He outlines the objectives of Healthy Cities Wanneroo and suggests methods to increase community awareness on social and environmental health issues.

H40510 LIBRARY BOARD 1993/94 DEVELOPMENT PROGRAM - [240-10]

CITY LIBRARIAN'S REPORT H40510

The Library and Information Service of Western Australia (LISWA) has requested a submission from Council to the Library Board for additional bookstock to be supplied in the 1993/94 Development Programme.

The City Librarian reports on the reduction of the Development Programme to a one year process.

The Development Programme comprises three categories - Development, Additional Stock and Heavy Usage.

The City Librarian suggests that Council request additional books for the Woodvale and Yanchep/Two Rocks Libraries under the Additional Stock Programme.

Although Joondalup Library has not been scheduled to commence in 1993/94, stock selection will be a three year process and it is hoped the Library will open in 1996. As Joondalup Library is expected to be the largest public library in Western Australia it would seem appropriate for Council to request 20,000 volumes in the 1993/94 Development Programme.

MOVED Cr Wood, **SECONDED** Cr MacLean that Council submits an application to the Library Board 1993/94 Development Programme:

- 1 requesting 2471 volumes for the Woodvale Library and 2240 volumes for the Yanchep/Two Rocks Library under the Additional Stock Programme;
- 2 requesting 20,000 volumes as the first of three annual allocations for the Joondalup Library;
- 3 expressing concern on the reduction of the Development Programme to a one year process and the expansion of the Heavy Usage Programme.

H40511 JOONDALUP LIBRARY - [240-10]

CITY LIBRARIAN'S REPORT H40511

In October 1992 Council resolved to write to the local Members of Parliament expressing concern on the current state budget for public library stock and probable long term implications for establishing the Joondalup Library. A brief on the new Woodvale Library to emphasise stock problems facing new libraries was also provided.

Local members have corresponded with the Minister for the Arts, Peter Foss, on Council's behalf and forwarded his responses.

The Minister has acknowledged the special needs of the Joondalup Library but made no commitment to the project.

The City Librarian gives reasons why it is considered appropriate to correspond further with Members of Parliament to highlight the importance of Joondalup Library receiving funding under the LISWA 1993/94 budget.

MOVED Cr Wood, **SECONDED** Cr MacLean that Council corresponds with local Members of Parliament:

- 1 expressing appreciation for their interest in the Joondalup Library Project on Council's behalf;
- 2 highlighting the importance of the Joondalup Library receiving funding in the LISWA 1993/94 budget;
- 3 seeking information on the Government's endeavours to reduce the cost of imported books.

H40517 SPONSORSHIP SCHEME FOR YOUTH SERVICE AGENCIES - [485-2]

CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT

At the March meeting of the Youth Advisory Committee, it was recommended that Council considers including the sum of \$3,000 in 1993/94 draft Budget for subsidising representatives of the Youth Advisory Committee to attend appropriate conferences which the Committee deems necessary.

The City Recreation and Cultural Services Manager gives reasons why he does not support such a scheme for this Committee.

H40519 1993 RECREATION MANAGEMENT AWARDS - [260-0, 680-1]

CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT
H40519

The Institute of Recreation, in conjunction with the Ministry of Sport and Recreation, holds Recreation Management Awards every three years, the next being held this year. These Management Awards aim to recognise excellence in the management of facilities and programmes throughout Western Australia.

The categories of the Awards are:

- 1 Major Recreation Complex (including commercial)
- 2 Community Recreation Facility (Metropolitan)
- 3 Community Recreation Facility (Country)
- 4 Aquatic Facility
- 5 Recreation Programme

The Recreation Department is intending to submit applications for various recreation facilities and programmes.

The Institute of Recreation has approached the City of Wanneroo to host the Award presentations to be held in September.

The City Recreation and Cultural Services Manager considers that this would be an ideal opportunity for Council to play an active role in the marketing and exposure of its recreation facilities and suggests that the Craigie Leisure Centre would make an ideal venue for the event.

MOVED Cr Wood, **SECONDED** Cr MacLean that Council:

- 1 agrees to host the 1993 Recreation Management Awards at the Craigie Leisure Centre on a date to be determined in September 1993;
- 2 includes in the 1993/94 Draft Budget the sum of \$590 as a contribution towards the cost of hosting the event.

H40520 PETITION FOR PLAYGROUP FACILITIES AND HALL IN THE KINROSS AREA - [260-0]

CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT
H40520

A 149-signature petition was submitted to Council in March seeking the provision of a playgroup facility and hall in the Kinross area (Item H90303 refers).

This followed an on-site meeting held with representatives of the Local Playgroup, Ward Councillors and Building and Recreation Staff at Jack Kikeros Hall, Burns Beach seeking the upgrading of the hall.

The City Recreation and Cultural Services Manager advises that two community purpose sites have been identified within the subdivision of the shopping centres in this locality. At this stage, the five year forward plan does not provide for the development of indoor facilities at Kinross.

MOVED Cr Wood, **SECONDED** Cr MacLean that Council:

- 1 undertakes further investigations to establish the specific recreational requirements of the residents of Kinross;
- 2 provides the necessary funding for an appropriate recreation facility at Kinross in Council's five year forward plan;
- 3 advises the petitioners accordingly.

H40521 USE OF HEATHRIDGE PARK CLUBROOMS BY SPORTING CLUBS - [061-166-4]

CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT
H40521

There have recently been several instances where bookings at the Heathridge Park Clubrooms have been displaced and disrupted due to a poor understanding, by the resident clubs, of Council's Policy relating to Clubrooms on Reserves.

In essence, this Policy states that:

"...clubs that contribute to the cost of a facility shall share usage and ongoing costs with Council in proportion to the contribution of each."

The City Recreation and Cultural Services Manager reports on the financial contributions made by the Clubs and the percentage of time appointed to them. Problems have arisen where legitimate users have been turned away due to the Clubs holding unannounced meetings or functions. He considers it appropriate to remind these Clubs of their commitments and responsibilities in this regard.

ADDITIONAL INFORMATION

It was reported to the Community Services Committee on 10 May 1993 that the contribution to the Heathridge Park Clubrooms was made up as follows:

Ocean Ridge Junior Football Club	\$15,000	
Ocean Ridge Junior Cricket Club....	\$ 5,000	
Ocean Ridge Senior Cricket Club	\$ 5,000	(Item H40521 refers)

These figures were obtained from the report submitted to Council in February 1991, recommending the acceptance of the construction tender (Item F10206 refers). However, prior to actually making their payments, the Ocean Ridge Junior Cricket Club withdrew its contribution. The shortfall was subsequently "made up" by the Junior Football Club, therefore, the actual contributions and respective apportionments over the course of a 12 month period are:

Ocean Ridge Junior Football Club	\$20,000	22.5%	(22.5 hrs/wk)
Ocean Ridge Senior Cricket Club	\$ 5,000	5.5%	(5.5 hrs/wk)

These apportionments are based over a 52 week period, with no allowance made for "off season" use. It would be more appropriate, therefore, to allow 45 hrs/wk (22.5 hrs x 2) for the six "winter" months for the Junior Football Club, and 11 hrs/wk (5.5 hrs x 2) during the six "summer" months for the Senior Cricket Club. This clarification does not change the spirit of Report H40521, but requires the recommendation to refer to two clubs and not three.

MOVED Cr Wood, **SECONDED** Cr MacLean that Council authorises the City Recreation and Cultural Services Manager to emphasize with the three resident clubs the limitations of their tenure at the Heathridge Park Clubrooms as outlined in Report No H40521.

H40523 COMMUNITY GROUPS - COUNCIL SUPPORT - [264-2]

CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT
H40523

Many community and sporting groups within the City of Wanneroo regularly recognise sponsorship of their activities by various business houses. Unfortunately Council's contribution to many community and sporting groups is rarely acknowledged.

The City Recreation and Cultural Services Manager suggests that Council's sponsorship be acknowledged by making it a condition of hire that all groups enjoying subsidised use of Council's facilities recognised Council's support in their promotional and public relations literature. To this end guidelines are submitted for approval.

MOVED Cr Wood, **SECONDED** Cr MacLean that Council:

- 1 amends the Conditions of Hire of Council Facilities to include:

"Community and sporting Groups enjoying free or subsidised use are required to acknowledge Council's support of their activities as per the sponsorship guidelines";
- 2 adopts the Sponsorship Guidelines outlined in Report No H40523;
- 3 implements this condition of hire progressively from the commencement of the 1993/94 Summer Sporting Season.

H40526

Council has received a letter from Mr Ian Dodd and Mr Mike Simonetti requesting permission to obtain a wave ski hire business and coaching clinic from Mullaloo Beach car park.

Currently, there is no wave ski hire business operating within the City. This hire business would provide local and visiting beach goers the opportunity to enjoy our beaches as well as the challenge of riding a wave ski.

In addition to the hire business, the co-owners would offer tuition and coaching clinics to users.

The City Recreation and Cultural Services Manager provides details of the operation and supports this application subject to certain conditions.

- 1 amends the Register of Delegation of Authority to include "Wave Ski Hire" business at Mullaloo Beach;

H40530 VEHICLE ACCESS - CLAYTONS BEACH, JUST SOUTH OF MINDARIE KEYS, MINDARIE - [765-21]

SECURITY ADMINISTRATOR'S REPORT H40530

In April, Council resolved to defer an application by Mr Eric David Bland and Mr Gregory Phillip John for vehicle access to Claytons Beach, south of Mindarie Keys, Mindarie (Item H40433 refers).

The Security Administrator does not support this application in the light of these circumstances.

H20509 PROPOSED RETAIL NURSERY, LOT 30 (27) LANDSDALE ROAD, LANDSDALE - [30/4160]

CITY PLANNER'S REPORT H20509

In March (Item H20305 refers) Council resolved to defer an application submitted by Mr J B & Mrs P E Tilbrook for a retail nursery on Lot 30 (27) Landsdale Road, Landsdale pending an investigation of overall traffic conditions along Landsdale Road between Skeit Road and Alexander Drive.

The City Planner reports on the background relating to the proposal and advice received from the Department of Planning and Urban Development.

He provides an assessment of the proposal and comments on a submission and petition received opposing the proposal.

COMMITTEE RECOMMENDATION

That consideration of Proposed Retail Nursery, Lot 30 (27) Landsdale Road, Landsdale be deferred pending a further report to May Council meeting.

ADDITIONAL INFORMATION

Further to Report No H20509 and discussions held at the May Town Planning Committee on the above matter, I can now advise that following a meeting with the applicants, consensus was reached as outlined hereunder:

- 1 the applicants have agreed that they will immediately undertake to construct approximately 24 additional car parking bays on Lot 39 Landsdale Road on the existing nursery (this nursery was approved under the old retail nursery definition);

- 2 they will also, upon the issue of Council's approval, construct in limestone base a car park and driveway access to Lot 30 Landsdale Road as a interim measure in an attempt to alleviate any parking congestion within that street;
- 3 they will also accept the issue of a new planning approval for the existing retail nursery on Lot 39 Landsdale Road. This would be in the terms as now proposed by Council for the new nursery definition (as outlined in Amendment No 622, Item H20518) when the new retail nursery on Lot 30 Landsdale Road commences sales to the public (it is anticipated that it may taken some 12 months to establish a new retail nursery on Lot 30).
 Council should formally resolve to grant that new approval now on the basis that it will take effect when the retail nursery on Lot 30 commences sales;
- 4 Council agreeing to the issue of a retail nursery approval to Lot 30 Landsdale Road generally in accordance with the plans received. More detailed plans will be submitted showing accurately the car park and shed location for this development;
- 5 the proposed parking prohibition for Landsdale Road as outlined in Report H10410 be rescinded and replaced with a new parking prohibition during the times specified only along the northern alignment of Landsdale Road from the western boundary of Lot 31 to the eastern boundary of Lot 32 as shown on Attachment No 1.

The applicants will also need to confirm in writing that they accept the negotiated terms as outlined above together with any other development conditions considered necessary.

H20518 AMENDMENT NO 622: NURSERIES - [790-648]

CITY PLANNER'S REPORT H20518

The City Planner reports that Amendment No 622 proposes modifying scheme definitions relating to nurseries and introducing a separate definition for "Landscape Supplies". It was initiated by Council in April 1992 (Item G20408 refers) and is being advertised for comment until 18 May 1993. To date, no objections have been received.

He gives details of the current definition of a retail nursery and discusses the modification of the definition. He advises that legal advice has been sought on the proposed definition. If the definitions are modified, the Council's intent will be clarified without any material changes to the amendment as advertised for public comment.

ADDITIONAL INFORMATION

Although the public comment period for Amendment 622 closed on 18 May 1993, a late objection has been received from Land Planning Consultants on behalf of A & J Stampalia. They object to the intention to prohibit landscaping supplies in the Rural zone and suggest this rather become an "AA" use class. If Council so modifies the amendment to meet the objection, it will have the discretion to consider applications for landscape supplies in the Rural zone on the merits of each case and applicants who are refused, or who disagree with conditions of approval will have the right of appeal.

In 1986, the Council opposed specialised landscape supply establishments in the Rural zone when it initiated Amendment 352. That amendment favoured allowing only the incidental sale of landscape supplies from retail nurseries. Landscape supplies remain appropriate uses in Commercial, Industrial and Mixed Business zones as Amendment 622 intends, and the City Planner does not believe that such commercial enterprises, which do not rely on the agricultural potential of rural land, should be encouraged in the Rural zone.

Cr Nosow declared an interest in this item.

MOVED Cr Marwick, **SECONDED** Cr Freame that Council:

1 modifies Amendment No 622 to Town Planning Scheme No 1 by:

- (a) deleting the definition of "Retail Nursery" and substituting the following term and definition:

"Nursery" means land and/or buildings used for the propagation, nurturing and growing of plants, and where that is the predominant use may include the retail sale of seeds, bulbs, seedlings, shrubs, trees or other nursery stock propagated and grown on the site, and additionally plant containers; fertilizers, soil conditioners, weedicides and pesticides, sold in bags or other containers; and gardening implements, sprinklers and home reticulation equipment;

- (b) in the Zoning Table, substituting for the use class "Retail Nursery" the use class "Nursery";
- (c) inserting a definition of "Landscape Supply" as follows:

"Landscape Supply" means the use of land/or a building for the sale of woodchips, logs, rocks, sand, stone, paving slabs and other items intended for landscaping purposes;

- (d) inserting the use class "Landscape Supply" in the zoning table as a "P" use in the "Commercial, Light and Service Industrial, Whitford Town Centre and Two Rocks Town Centre" zones and as an "AA" use in the "Joondalup City Centre and the Mixed Business" zone, and as an "X" use in all other zones;
- 2 adopts Modified Amendment No 622 to Town Planning Scheme No 1 to amend the definition of "Retail Nursery" and insert a definition for "Landscape Supply" into the Scheme Text;
- 3 authorises the affixation of the Common Seal to the amending documents;
- 4 forwards the modified Amendment to the Hon Minister for Planning seeking final approval for Amendment No 622.

The City Planner reports on the submission received and recommends the objection should not be upheld and that the Minister's final approval to the amendment be sought.

The City Planner reports on a deputation with the Minister for Planning to discuss East Wanneroo, Rural and Special Rural zones with respect to Amendment No 592.

Feilman Planning Consultants advised that the Minister for Planning has indicated that Amendment No 592 might be reconsidered on planning grounds. In the light of this, they requested that Council forwards the documentation for Amendment No 592 to the Minister for Planning requesting reconsideration of the decision to refuse advertising the amendment.

MOVED Cr Dammers, **SECONDED** Cr Wood that Council advises Feilman Planning Consultants that:

CARRIED

**H20526 CLOSE OF ADVERTISING: AMENDMENT NO 528 TO TOWN PLANNING
SCHEME NO 1 - [790-528]**

CITY PLANNER'S REPORT H20526

Amendment No 528 was initiated at Council's February 1990 meeting (Item E20204 refers) and was later modified at Council's February 1991 meeting (Item F20237 refers).

The City Planner advises that the amendment seeks to rezone a portion of Lot 31 where it abuts Hester Avenue in Merriwa to accommodate a service station.

He reports that advertising of the amendment closes on 11 May 1993 and at the time of writing the report, no submissions had been received.

ADDITIONAL INFORMATION

A service station site had been included in the structure planning for this area since December 1989. The City had always made it clear that the applicant should not construe this as a use approval and that such a proposal would require consideration through the formal planning process.

Upon request of the applicant, Council at its February 1990 meeting (Item E20204 refers) resolved to initiate a rezoning to accommodate a service station on a triangular piece of land bounded by Hester Avenue, the old Quinns Road and a proposed local distributor road.

Generally, it is preferred to locate service stations in conjunction with district centres, which are normally located on regional roads, or in conjunction with neighbourhood centres, which are normally located within the suburb. In this case it was considered that the following points constituted sufficient justification to support such a zoning.

3There was no opportunity for the development of a service station along this section of Hester Avenue in conjunction with a commercial centre and there is a case for the provision of a limited number of service stations on major roads to serve regional traffic.

4The site was constrained by Telecom cables running along its northern boundary creating a difficult site to find suitable uses for.

A subdivision application in line with the amendment was approved by the Department of Planning and Urban Development (DPUD) in April 1990 (Appendix No IX).

In November 1990, the applicant submitted a revised subdivisional design changing the size and configuration of the site (Appendix No X) These changes were made possible due to the relocation of the Telecom cables from the old Quinns Road to Hester Avenue. Council considered the changes at its February 1991 (Item F20237 refers) and resolved to modify the amendment to conform with the later subdivisional design. The Department of Planning and Urban Development approved the revised subdivision in August 1991.

It should be noted that upon approval of each subdivisional design the applicant was advised not to construe it as a zoning approval. In both cases the subdivisional design could have allowed the development of grouped housing - a discretionary landuse under the present "Residential Development" zone. To date the site and immediate vicinity remain undeveloped.

As Council has been made aware, advertising of the amendment has now closed and four letters of objection were received. One further objection was received after the May Town Planning Committee meeting. The issues identified in these submissions were outlined in a memorandum to Report H20526.

Although one of the reasons Council originally supported this amendment is now no longer relevant. It is considered that there is still a case for the development of a service station in this location as:

- 1 The site is located close to a future freeway interchange which will result in high volumes of regional traffic along Hester Avenue.
- 2 There is no opportunity along this section of Hester Avenue for the development of a service station in conjunction with a commercial centre.
- 3 Safe access and egress arrangements are to be confirmed through a legal agreement between the City of Wanneroo and the landowner.
- 4 The site has been identified in structure planning for the area since 1989.

The recommendation to finalise Amendment No 528 as outlined in Report No H20526 is therefore considered justified. Should Council decide not to follow this recommendation the approved subdivisional design could quite easily accommodate a residential landuse.

MOVED Cr Dammers, **SECONDED** Cr Wood that Council:

- 1 finally adopts Amendment No 528 to Town Planning Scheme No 1;
- 2 authorises the affixation of the Common Seal to, and the signing of the amending documents and the legal agreement referred to in Report H20526.

**H20527 APPEAL DETERMINATION: PROPOSED TWO GROUPED DWELLINGS,
LOT 7 (9) COMBE PLACE, SORRENTO - [30/2635]**

CITY PLANNER'S REPORT H20527

In September 1992 (Item G20910 refers) Council considered an application submitted by Mr A Ong for the development of two grouped dwellings on Lot 7 (9) Combe Place, Sorrento. Council had previously refused a similar application which it had advertised under its policy at that time.

The residents of Combe Place had an expectation that only single homes would be approved and numerous objections were received. Council subsequently refused Mr Ong's application on the bases of the previous objections.

The City Planner reports that the applicant appealed to the Hon Minister for Planning. The Minister considered that there is a case for the development to proceed and decided to uphold the appeal.

MOVED Cr Dammers, **SECONDED** Cr Wood that CITY PLANNER'S REPORT H20527 be received.

H20528 **REQUESTED CLOSURE OF PORTION OF CLYO WAY, KALLAROO - [510-1161]**

CITY PLANNER'S REPORT H20528

In March, Council resolved to initiate preliminary closure procedures under the provisions of the Local Government Act in respect of the unconstructed portion of Clyo Way, Kallaroo.

The City Planner reports that the proposed closure was advertised in the Wanneroo Times and a letter was sent to 34 of the residents in the vicinity. At the close of advertising, four written objections were received.

He advises that the objectors requested that Clyo Way remain open to allow pedestrian access to the bus service along Dampier Avenue. However, closure would not inconvenience the residents in the vicinity and the amalgamation of the land into the adjoining St Ives Development would alleviate the existing eyesore.

MOVED Cr Dammers, **SECONDED** Cr Wood that, in accordance with Section 288A of the Local Government Act, Council authorises the closure of the unconstructed portion of Clyo Way, Kallaroo and supports the amalgamation of the subject land into Location 9699.

CITY PLANNER'S REPORT H20529

In October 1991 (Item F21019 refers) Council resolved not to proceed with the closure of pedestrian accessway between Ensign Way and Nautical Grove, Beldon.

The City Planner reports that a 4-signature petition has been received requesting Council to reconsider its objection on the basis of recent anti-social, bordering on criminal, behaviour by juveniles in the accessway.

Unfortunately, due to the existence of SECWA's services and padmount site, closure of the accessway cannot proceed.

MOVED Cr Dammers, **SECONDED** Cr Wood that Council reiterates its previous Resolution F21019 not to proceed with the closure of the pedestrian accessway between Ensign Way and Nautical Grove, Beldon.

**H20530 REQUESTED CLOSURE OF PEDESTRIAN ACCESSWAY BETWEEN

[510-520]**

CITY PLANNER'S REPORT H20530

In July 1992, Council resolved to initiate preliminary closure procedures by advertising in respect of the pedestrian accessway between Frigate Crescent and Trotman Crescent, Yanchep.

The City Planner reports that at the close of advertising, no objections were received. However, the Department of Planning and Urban Development has opposed the closure of the accessway on the grounds that the closure would reduce the accessibility to nearby public open space.

He advises that the subject pedestrian accessway does not form part of an easily recognisable pedestrian/cycle network and it is not considered that residents would be faced with significantly longer journeys if the accessway is closed. Two adjoining landowners have agreed to purchase the land within the accessway.

MOVED Cr Dammers, **SECONDED** Cr Wood that Council agrees to the closure of the pedestrian accessway between Trotman Crescent and Frigate Crescent, Yanchep subject to the benefiting adjoining land owners meeting all costs involved.

LOT 2692 (952) PINJAR ROAD, PINJAR - [250/2692/952,
30/3898]**

The City Planner reports on the storage of buses and unsightly appearance of Lot 2692 (952) Pinjar Road, Pinjar.

He gives details of the background relating to this matter and Council's resolution (Item H20333 refers) on 24 March 1993.

The resolution was considered vague and possibly "ultra vires" and referred to Council's solicitors for their opinion. The response from Council's solicitors was that the resolution may be open to an interpretation which is contrary to Council's intentions.

In April, Council considered the application for a Motor Bus Depot (Item H20417 refers) and Storage of Buses/Unsightly Appearance (Item H20418 refers). Council refused the

application for a Motor Bus Depot and deferred consideration of Item H20418 until May Council meeting.

The City Planner reports on the present situation and details the actions necessary to satisfactorily progress the application.

RECOMMENDATION

That Council:

- 1 advises Mr R Smart the storage of up to nine omnibuses and assorted other equipment on Lot 2692 (952) Pinjar Road, Pinjar is not considered an acceptable activity in the Rural zone generally or in the Lake Pinjar area in particular and the offending items should be removed from the property before 30 June 1993 to the satisfaction of the City Planner or Council will take appropriate legal action against him;

H20532 SCHEDULE OF MEETING DATES - [702-3]

In February and July 1992, Council gave consideration to the conduct of two open Council meetings each month, served by only the Policy and Resources and the other Standing Committees to meet as and when required (Items G90232 and G50701 refer).

A copy of the Town Clerk's Memorandum to all Councillors dated 16 December 1991 was submitted for consideration in conjunction with Report H80401.

This memorandum provides details of the existing situation, the reasons for change and a proposed format for the Council agenda.

Should Council agree to the new format, advantages will include a speedy resolution of business with all business being conducted in the public arena; cost savings in staff overtime and catering and Councillors would spend less time at meetings.

The Chairman invited members of the Committee and those Councillors attending in an observer capacity to comment on the proposal.

General support was expressed to Council conducting two meetings per month and with the Town Planning Committee meeting as and when required, subject to minor modification to the suggested Agenda format.

The Town Clerk advised that pending discussion at the Technical Services and Finance and Administrative Resources Committees and taking into account the decision of the Community Services

Committee a recommendation including a revised meeting format would be submitted to Council in the Town Clerk's Report.

H10508 PUBLIC ACCESS TO FIREWOOD - COUNCIL LAND - [061-198-4]

TOWN CLERK'S REPORT H10508

In April, Council resolved that a report be submitted to Technical Services Committee on the legal ramifications of

permitting the public to access Council owned land for the purpose of cutting and collecting firewood.

The Town Clerk presents the advice of Council's solicitors, Kott Gunning, which suggests that Council would be ill-advised to allow the public access to its land for the purpose of cutting and collecting firewood.

Kott Gunning does not support the charging of a fee for collection of wood, as this would impose a greater responsibility upon the owner to protect the payer of the fee.

H10511 TRAFFIC CONTROL WANNEROO ROAD/KINGSWAY JUNCTION, LANDSDALE - [510-222]

CITY ENGINEER'S REPORT H10511

In January 1993, representatives from the Main Roads Department and Police Department met with Engineering Staff to discuss the traffic management at the intersection of Wanneroo Road and Kingsway, particularly for Saturdays during the netball season.

The meeting followed advice from the Police Department that it would no longer provide officers for traffic control at this junction. The Main Roads Department had also advised that the installation of temporary traffic lights was not a viable option.

The City Engineer reports on the background history of this intersection and the future planning for the area which will result in Hepburn Avenue being extended east of Wanneroo Road.

This will provide signalised access to the Kingsway Sporting Complex. A timetable for this work has not been established.

In the interim, a plan indicating various access routes to the reserve has been circulated to netball patrons, and the Main Roads Department is monitoring traffic flows to assess possible further traffic improvements.

H10512 PETITION FROM GIBBS ROAD ACTION GROUP - [510-3107]

CITY ENGINEER'S REPORT H10512

In March (Item H10309 refers) Council resolved to:

- 1 list funds in the 1993/94 Budget to commence the land acquisition programme for East West 10;
- 2 form a Study Group comprising representatives of the Gibbs Road Action Group and Council's Engineering Department officers to examine appropriate traffic calming measures for Gibbs Road.

The City Engineer reports on events to date which has resulted in the Gibbs Road Action Group requesting Council to rescind resolution H10309 of 24 March 1993 and forwarding the following recommendation for consideration:

- 1 list funding in the 1993/94 Budget to commence the land acquisition programme for Nowergup Road;
- 2 list funds in the 1993/94 Budget to construct Nowergup Road and list this project as a High Priority in the Road Construction Programme for 1993/94.

The City Engineer advises that construction of East West 10 remains the long term solution to the truck traffic problem in

Gibbs Road, Nowergup. However, substantial land acquisition is required and protracted negotiations will delay this process.

He suggests that construction of Nowergup Road be listed in the Capital Road Works Forward Plan.

RECOMMENDATION

That Council:

- 1 defers implementation of a traffic calming study for Gibbs Road pending negotiations on the land acquisition for East-West 10;

- 2 lists, on a priority ranking, the construction of
East-West 10 in the Capital Works Forward Plan;
- 3 advises the Gibbs Road residents accordingly.

AMENDMENT MOVED Cr Waters, **SECONDED** Cr Davies that Point 1 of the Recommendation be amended to read:

- "1 implements a traffic calming study for Gibbs Road;".

The City Engineer reports that with the recent installation of traffic lights with a pedestrian crossing phase, at the intersection of Whitfords and Gibson Avenues, the need for additional pedestrian crossing facilities is not warranted at this time.

MOVED Cr Freame, **SECONDED** Cr Marwick that Council:

CITY ENGINEER'S REPORT H10514

Residents of Blackmore Avenue and Nelligan Avenue, Girrawheen have petitioned Council to construct a roundabout at the junction of both of these roads (Item H90415 refers).

The Main Roads Department reported that only one minor accident occurred in May 1989 in this area and vehicle turning movements at Nelligan Avenue are comparatively light.

The City Engineer reports that the treatment of this site is considered to have a low to medium priority in Council's Forward Management Plan.

The petition was in response to a questionnaire recently distributed to local residents regarding future planning options associated with Eddystone Avenue.

The City Engineer reports that no timetable has been established for the proposed treatment of Eddystone Avenue and the public consultation programme is anticipated to be for a submission period of six to nine months.

The Principal of the Beaumaris Primary School and President of the P & C Association have sought Council's assistance in

reducing traffic congestion around the school. In particular they have requested extended parking prohibitions in Santiago Parkway and Beaumaris Boulevard, Ocean Reef.

The City Engineer reports that the strategy behind these prohibitions is to create unofficial one way circulating traffic flows. He supports the extension of the parking prohibitions to improve road safety for children.

MOVED Cr Freame, **SECONDED** Cr Marwick that Council:

H10517 EXTRACTIVE INDUSTRIES LICENCE - ACI OPERATIONS PTY LIMITED, LOT 50 ALEXANDER DRIVE, GNANGARA - [30/433]

CITY ENGINEER'S REPORT H10517

ACI Operations Pty Limited has applied for renewal of the Extractive Industry Licence and Development Approval applying to Lot 50 Alexander Drive (formerly Lot 1 Gnangara Road), Gnangara.

The Company has been extracting sand for glass making from this lot for many years and the site has reserves for approximately another five years. The rehabilitation of the site is progressing on schedule.

The site was originally expected to be finished in 1995. Changing market conditions and the increase in glass recycling has significantly extended the life of the quarry.

The City Engineer supports the renewal of this licence subject to conditions relating to water allocation, control of dust, the storage of fuel, restricted operating hours and a contribution towards road maintenance charges being accepted.

MOVED Cr Freame, **SECONDED** Cr Marwick that Council:

- 1 approves the application by ACI Operations Pty Limited to commence development of a sand quarry on Lot 50 Alexander Drive, Gngangara in accordance with the provisions of its Town Planning Scheme, subject to:
- (a) the use of the land for quarrying purposes ceasing by 30 June 1998 unless a further approval is granted by Council;
 - (b) maintaining a water allocation or secure water supply for dust control;
 - (c) all fuel storage on site being in approved underground tanks or in aboveground tanks on a bunded, hardstanding area that will contain any leaks and being constructed in accordance with the Water Authority of Western Australia's specification for temporary, small, elevated, flammable liquid (hydrocarbons) installations in underground water pollution control areas;
 - (d) submission of an annual updated site contour plan and rehabilitation report;
 - (e) the applicant entering into an agreement with the City of Wanneroo, under Section 85 of the Road Traffic Act, to pay the City of Wanneroo a road charge contribution for each cubic metre of sand removed from the site for extraordinary expenses for repairing and maintaining roads under its care in the neighbourhood of the proposed excavation at the rate agreed, such payment to be made quarterly;
 - (f) stabilising all stockpiles and using suitable dust suppression methods in work areas to prevent the generation of dust;
 - (g) hours of quarry operation being restricted to:

Monday to Friday (except Public Holidays)	0700-1700
Saturdays	0800-1700
Public Holidays	Work not permitted
Sundays	Work not permitted;

- (h) there being a clear understanding that the approval does not indemnify the quarry operators from any future action under the Environmental Protection Act 1986;
- (i) standard conditions;

2 approves an Extractive Industry Licence for ACI Operations Pty Limited on Lot 50 Alexander Drive, Gngangara, with the following conditions:

- (a) annual fee \$300;

Heavy rainfall occurred on Saturday 1 May 1993 throughout the City of Wanneroo. Given the rainfall duration and intensity, it seems likely that a 1 in 100 year design storm event was reached.

A large number of calls were received regarding stormwater flooding of houses, major property, hazardous road flooding and stormwater disposal sumps at or near their capacity.

H10519 STREET BENCHES - CONTRACT RENEWAL - [221-2, 560-2]

CITY ENGINEER'S REPORT H10519

In 1983, Council was approached by Streetside Advertising to allow the location of benches within road reserves depicting advertisements.

In February 1984 Council resolved to allow the installation of advertising benches throughout the City road reserves under certain conditions.

Streetside Advertising was awarded the tender in 1984 and has since secured options for renewal which now expires on 30 June 1993.

The City Engineer advises that specific business name commercial advertising within the City road reserves is contrary to Council's policy. If Council adheres to this policy, all benches depicting advertising would be removed. This would require Council to expend \$20,000 to replace all benches currently located at bus stops. The alternative is to override existing policy and recall tenders for benches for a further 3 year period.

H10520 RESURFACING OF YANCHEP SPORTS CLUB TENNIS COURTS - [323-3]

CITY ENGINEER'S REPORT H10520

The Yanchep Sports Club has requested Council, via the City Recreation and Cultural Services Manager, to fund the resurfacing of its tennis courts at an estimated cost of \$14,000.

The City Engineer reports that an inspection of the courts revealed that they did need resurfacing, however, under a lease agreement between the Council and the Club, this is the Club's responsibility.

As the courts are the only ones in the Yanchep area and are utilised by the local community, it is considered appropriate that Council supports this request.

MOVED Cr Freame, **SECONDED** Cr Marwick that consideration of resurfacing of Yanchep Sports Club Tennis Courts be deferred pending a report being submitted by the City Recreation and Cultural Services Manager to Technical Services Committee on:

- 1 the current financial standing of the Yanchep Sports Club;
- 2 the lease arrangement which exists between Council and Yanchep Sports Club as compared to lease agreements with other Tennis clubs within the City of Wanneroo.

H10522 PRICE FLUCTUATION - SALE OF RECYCLED MATERIALS - [508-4]

CITY ENGINEER'S REPORT H10522

Major changes in the market for some items collected by Council's recycling service require Council to set a policy on items to be collected.

As the area serviced is about to be extended with the delivery of additional collection trucks, it is an appropriate time to review the materials to be collected.

The City Engineer reports that a drop in price of recycled plastics, newspapers and the proposed phasing out of refillable beer bottles by the Swan Brewery, will increase the existing cost of servicing each property by \$1.50.

He suggests that Council reviews its policy and considers how much the community should subsidise recycling. He submits that Council does not collect materials for recycling with a new recycling cost over \$200 per tonne.

MOVED Cr Freame, **SECONDED** Cr Marwick that:

1 Council:

- (a) does not collect any plastic other than PET plastic containers in its kerbside recycling collection programme;
- (b) sets a guideline of not collecting for recycling any material in its kerbside recycling programme with a net recycling cost greater than \$200 per tonne;

In March, Council sought a report on the establishment of a Graffiti Task Force to investigate the incidence and instigate the removal of graffiti vandalism with the City of Wanneroo (Item H10329 refers).

The City Building Surveyor and City Engineer report on the background to the adoption of a policy to remove graffiti within 24 hours of it being reported, and considers that since this policy was implemented, it appears that the incidence of graffiti on Council buildings is declining. However graffiti is widespread on other public amenities.

Other steps taken to reduce the incidence of graffiti have been the introduction of a pilot community arts programme and

requesting the WAMA to support the introduction and legislation by State Government to control the sale of spray can paint.

The State Government has now established a Task Force and Council may wish to maintain its present policy and await the outcome of the State Government Task Force.

An assessment of the time taken by Council's contractors to clean bus shelters reveals that a 2 man task force could not control graffiti removal under the strategic plan objectives set by Council in February 1991.

City Engineer's & City Building Surveyor's Report H10535 recommended that Council:

- 1 at this time does not employ a dedicated task force consisting of two cleaners plus equipment to remove or paint over graffiti vandalism on bus shelters and public owned buildings;
- 2 endorses the appointment of Kleenit for graffiti removal from bus shelters as recommended in Report H10535.

H10538 PETITION - PUBLIC OPEN SPACE - CONNOLLY - [250-3]

CITY PARKS MANAGER'S REPORT H10538

A 90-signature petition from local children has been received requesting that Council gives consideration to developing the area of land at the rear of Congressional Crescent, Connolly on the south side of Shenton Avenue into a play area for local children.

The City Parks Manager reports that the land in question was the subject of a Special Electors Meeting in April when it was resolved that Council rejects the proposal of Amendment No 593 to rezone the land to "Residential".

As the land is not vested in Council's control, it is not possible for Council to expend funds for carrying out improvements to the land or providing play equipment.

MOVED Cr Freame, **SECONDED** Cr Marwick that Council advises the petitioners that it is unable to agree to their request for the following reasons:

- 1 the land in question on the south side of Shenton Avenue and at the rear of Congressional Crescent, Connolly does not, at the present time, come under Council's control;
- 2 Council is unable to expend funds on land that has not been vested in Council;

CARRIED

H30526 RATES - PENALTY - [018-21]

CITY TREASURER'S REPORT H30526

The City Treasurer advises that Section 550A of the Local Government Act authorises a Council to levy a penalty, not exceeding 10%, at 31 January on outstanding rates which were due and payable the previous 31 October.

He reports on statistics revealing that the penalty imposition acts as a definitive incentive to pay rates prior to the 31 January deadline and the impact failure to impose a penalty would have on Council's operations.

He comments that to dispense with the penalty imposition would be a retrograde step and place an unfair rate impost on ratepayers who have in the past "done the right thing".

MOVED Cr Nosow, **SECONDED** Cr Waters that:

- 1 consideration of Council imposing a 10% rates penalty on rates outstanding at 31 January be deferred;
- 2 a report be submitted to Finance and Administrative Resources Committee on the implications of reducing the rates penalty to 7%.

He gives details of the rates position levied on the shops over the water at the Hillarys Boat Harbour which are outside the City of Wanneroo.

It is necessary for Council to amend the rate book by the rates levied on the shops over the water and refund the amount of rates paid on these shops.

The City Treasurer advised that the Minister's approval for Council to encompass the jetty and associated buildings at Hillarys Boat Harbour into the City's Municipal district, will take effect from the date the Governor's Order is published in the Government Gazette. The Governor's Order was published in the Government Gazette on 14 May 1993, therefore the amount of rates levied for 1992/93 should now be \$24,908.87 and the total figure \$121,216.39.

MOVED Cr Marwick, **SECONDED** Cr Dammers that Council:

- 1 in accordance with the provisions of Sections 543(1)(d) and 543(5) of the Local Government Act, amends the rate books for the 1987/88 to 1992/93 years by the rates and non payment penalty levied on the shops over the water at the Hillarys Boat Harbour as follows:

H30532 DONATION - YANCHEP COMMUNITY CENTRE - [890-6]

CITY ENVIRONMENTAL HEALTH MANAGER'S REPORT H30532

The City Environmental Health Manager reports on a request from the Yanchep Community House for a donation of \$15,000 from Council for the purpose of purchasing both indoor and outdoor equipment for their community centre which will shortly be constructed.

He advises that, Council in a previous resolution (Item G30838 refers) resolved that it undertakes to provide \$15,000 in the Draft 1993/94 Budget to assist with the purchase of playgroup equipment for the Community House.

It is being proposed that the above resolution be rescinded and that a further recommendation be made for Council to consider a donation of \$15,000 in the Draft Budget. This would give the group more flexibility in using the funds for a variety of items rather than being restricted to outdoor play equipment.

MOVED Cr Marwick, **SECONDED** Cr Wood that Council:

1 rescinds its Resolution G30838 of August 1992, viz:

H90574 COUNCIL MEETING STRUCTURE - [702-3]

A basic tenet of "local government" is that it be responsive to the constantly changing social, political, economic and physical environment within which it carries out its functions. In this context, it is imperative that an authority the size of the City of Wanneroo operate within a framework that observes due democratic process whilst affording expediency in the conduct of business with and for its community.

Council has seen with the submission of the draft new Local Government Act, the report of the Panel of Inquiry and the earlier 'Organisational Review' by Deloitte Ross Tohmatsu, that a new "open" style of local government will provide the necessary accountability that is the prerequisite for greater autonomy and indeed, greater credibility for local government.

It was with this principle in mind that I proposed, in December 1991, that Council give consideration to the conduct of two open Council meetings each month, served by only the Policy and Resources Committee and the other Standing Committees to meet as and when required. Due to circumstances prevailing at that time, consideration of this matter was deferred.

Detail of the proposed change to Council meeting structure has been submitted to each of the current Standing Committees during the May round of meetings, together with prior reports detailing the proposal in full. The response from the Standing Committees has been supportive of such change, resulting in recommendations that Council adopt the new format as suggested, but that a category be included in the revised agenda to provide for "Members Items for Reports".

In the course of committee deliberations, concern was expressed that a proper evaluation of the proposed format could not be carried out by elected members new to Council, as they had not had the opportunity to operate under the current system. Whilst members elected in the future may similarly be faced with a system new to them, it is suggested that a delay in the introduction of the revised format until 1 September 1993 will overcome the immediate concern.

It has been stated also in the course of committee discussion in respect of this matter, that a commitment by both Council and the administration to conduct a thorough trial of the new format must include an acknowledgement that "teething problems" may be experienced, and that advantage be taken of the close working relationships enjoyed at the City in order to refine the format to the benefit of the Council and its ratepayers. To this end, I concur with the suggestion by the Mayor that a workshop be conducted to work through the proposal and afford members the opportunity to familiarise themselves with the format prior to the conduct of official Council business.

RECOMMENDATION

That:

H90575 WANNEROO GROUNDWATER ADVISORY COMMITTEE - LANDOWNER
REPRESENTATIVE - [322-18-1, 200-0]

The term of appointment of Mr Bill Duffy as landowner representative to the Wanneroo Groundwater Advisory Committee expires on 30 June, 1993.

To permit the selection of a replacement member for a three year period, Council has been invited to nominate a panel, preferably of three names, for consideration by the Water Authority.

The current private membership represents a number of diverse activities undertaken within the Wanneroo Groundwater Area, including market gardening, poultry production and pasture irrigators.

In order to maintain the balance of industry representation on the Committee, Council is asked to nominate a panel of three people who are associated with the pasture irrigation industry.

Although the Water Authority does not have any strict criteria for eligibility for members of the Advisory Committee, apart from an age limit of 70 years, it is highly desirable that members be groundwater users within the Wanneroo Groundwater Area. It is also considered advantageous if the members have a personal commitment to the protection and good management of the groundwater resource, and good local knowledge.

The Water Authority advises that it is the Government's wish to increase the representation of women on such Committees, although Mr Duffy is eligible for a further term.

Cr Marwick nominated Cr Dammers.
Cr Waters nominated Mr Bill Duffy.
Cr Freame nominated Cr Nosow.

MOVED Cr Curtis, **SECONDED** Cr Cooper that Council nominates Crs Dammers and Nosow and Mr Bill Duffy to the Wanneroo Groundwater Advisory Committee.
