QUESTIONS OF WHICH DUE NOTICE HAS BEEN GIVEN, WITHOUT DISCUSSION

Mrs A Hine submitted the following questions for the Council meeting of 28 June 1995:

Q1 TP191-06/95.

A question to the Mayor about some large trees marked for removal. Will these trees be affected at this time or later down the track?

A1 As there are absolutely no trees on this entire precinct, none can be removed.

Q2 TP202-06/95

Is this an extra car park being approved? As there is already a large car park one side of the road and the large palms planted on the verge. Come and go for resale I'm told. Is this free use of public open space? As beautiful as it looks.

A2 There are certainly a considerable number of palms, some of which appear to be just on the road reserve and there are others which are on private property.

The City Engineer will look at the matter from the aspect of public safety in terms of large trees on or adjacent to the road reserve and the City Planner advises that the resale of palms on the road reserve cannot be condoned and he will attend to this matter.

- Q3 Why was Policy Meeting closed to public and press?
Meetings were supposed to be open I thought.
- A3 The current practice of Council is that Council and Committee meetings (other than the Policy Committee) are open to the public and agendas are available at the Council Libraries prior to the meetings for inspection by members of the community and/or other interested parties.
- The Policy Committee, as the name implies, considers in the main matters of policy which can take some time to come to a conclusion and for a recommendation to be formed to enable presentation to Council; also the Committee considers some administrative and personnel matters. I think it fair to report the majority view of the members of the Policy Committee and the Councillor observers present at the meeting on Wednesday 21 June 1995 was that this committee should meet behind closed doors because of the nature of the matters discussed.
- It should also be noted that with the exception of the small number of items considered by the Policy Committee, all business of the City is administered in a completely open format.
- Q4 Why are no agendas in library until Wednesday of Council meeting?
- A4 The printing of Council agendas cannot be finalised until during late afternoon on the Friday prior to the Council meeting on the following Wednesday. Binding etc is therefore initially limited to only sufficient copies for delivery to Councillors on Friday evening. The balance of the copies printed are finalised for distribution by about midday or a little later on the Monday. Distribution is then undertaken to the libraries.
- Q5 P20-06/95. Request for Transcript? Why was my letter not discussed in open Council like a one other persons letter? Mine was not openly discussed by all Councillors.
- A5 At the meeting of Council on 19 April 1995, your request for a transcript of an item discussed at the General Purposes Committee on 1 March 1995 was submitted for consideration of Council - Item C170-04/95 refers.

To the extent that a motion was moved, seconded and carried that your request together with the question of

taping committee meetings be referred for consideration of the Policy Committee, the context of your letter was discussed in open Council.

Q6 How much was that advice worth?

A6 This question is not understood.

Q As an extra Query? Please can Mr Coffey please let me know what are rulings on pet shops in shopping centres? Do they have permits or special permissions or what? They should be restricted (my opinion).

A There are no special requirements for pet shops within shopping centres as they are categorised as a shop. They are required to obtain a licence from the City's Health Department for the handling of pet food.

TP185-06/95

**BERKLEY ROAD LOCAL STRUCTURE PLAN AREA - PAYMENT
OF COMPENSATION - TURNER CORPORATION (WA) PTY LTD
- [740-94650, 740-96206]**

CITY PLANNER'S REPORT

The Berkley Road Local Structure Plan (formerly proposed Town Planning Scheme No 22) rationalises the drainage sumps, road system and open space requirements for the residential development of the area. All subdividing landowners in the area pay a development headworks levy to the City and those funds are used to compensate those owners who actually provide the drainage, regional road and open space sites. The owner of Lots 75 to 81 (inclusive) Berkley Road, Turner Corporation (WA) Pty Ltd, is entitled to compensation for the Hepburn Avenue Regional Road Reserve it has provided.

The City Planner provides background information to the subject matter and outlines details of the funding arrangements which has calculated that only 27% of total land acquisition/construction requirement for Hepburn Avenue is attributable to the Berkley Road Scheme with the balance of 73% being the responsibility of the area to the north.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council authorises a credit equal to \$270,352 as compensation to Turner Corporation (WA) Pty Ltd for the Hepburn Avenue land requirements out of Lots 75 to 81 (inclusive) Berkley Road, Marangaroo.

TP189-06/95 PROPOSED RESTAURANT VILLAGE AND SERVICE STATION
ON LOT 66 (397) WANNEROO ROAD, WANNEROO -
[30/5095]

CITY PLANNER'S REPORT

Chappell and Lambert on behalf of N H & S Trandos have applied for a service station, reception centre and restaurants on Lot 66 (397) Wanneroo Road, Woodvale.

Previously Council initiated Amendment No 542 to rezone the lot from "Rural" to "Special Zone (Restricted Use) Service Station, Restaurants/Fast Foods". The amendment was discontinued by Council on 9 February 1994.

The City Planner provides background details to the subject site and an assessment of the proposal. He advises that 60% of the site is required for the road interchange and is zoned Regional Reserve - Other Major Highways. Council has no powers of determination and can only make a recommendation to the WA Planning Commission.

He gives reasons why he considers the application should not be supported.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council:

- 1 refuses the application submitted by Chappell & Lambert for a Service Station, Restaurant/Fastfood Reception Centre Village on Lot 66 (397) Wanneroo Rod, Woodvale as:

 - (b) access is limited and insufficient to service the proposed land uses;
 - (c) the proposal represents an overdevelopment of the balance of the site;

2 accordingly advises the Western Australian Planning Commission that the development application for Lot 66 (397) Wanneroo Road, Woodvale has been refused under Town Planning Scheme No 1.

R Jackson, on behalf of Goldrange Pty Ltd, has applied for a resort development comprising a restaurant, function room, chapel, forty two self contained chalet units and a caretaker's residence on Lot 3 (1397) Corner Wanneroo Road and Burns Beach Road, Wanneroo.

The City Planner provides details of commercial development proposals in the vicinity and has consulted with various Government agencies concerning this application.

He gives reasons why he considers the application should be refused.

RECOMMENDATION

That Council refuses the application for a resort development on Lot 3 (1397) Burns Beach and Wanneroo Roads on behalf of Goldrange Pty Ltd on the grounds that it is an excessive and intensive proposal which conflicts with Council's strategy for the development of land bounded by the Yellagonga Regional Park, Wanneroo.

It is therefore requested that this matter be withdrawn.

CITY PLANNER'S REPORT

Feilman Planning Consultants, in conjunction with Chapman Glendinning and Associates, have made an application for the rezoning of various lots within Landsdale on behalf of 22 individual landowners.

The consultants have requested that Council support the rezoning of the land to Residential Development R20 and also initiate the lifting of the MRS zoning from Urban Deferred to Urban to accommodate the Council's zoning. In support of this proposal, the consultants have submitted a draft local structure plan for the area bounded by the Landsdale Industrial area and the proposed alignments of Hepburn Avenue, Mirrabooka Avenue and Skeit Road.

The planning cell this draft structure plan forms part of is banded by Wanneroo Road, Hepburn Avenue alignment, Mirrabooka Avenue alignment and Gngara/Furniss Roads to the north.

Council has engaged BSD Consultants to undertake the East Wanneroo Consultancy to, inter alia, refine and update local structure plans within East Wanneroo.

The City Planner outlines a number of issues which have yet to be resolved prior to finalisation of rezoning, but advises that this application to rezone various lots to accommodate residential development is generally consistent with the development intention and MRS zoning for this area.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council:

1 in accordance with the provisions of Section 7 of the Town Planning and Development Act (1928) as amended:

(a) supports the rezoning of:

Alternatively, Council will require that this buffer be provided as a 50 metre wide landscape strip which will not comprise part of the area's 10% POS contribution;

TP204-06/95 DIVIDING FENCE CLAIM: COUNCIL PROPERTY LOT 1254
EDINBURGH AVENUE, KINROSS - [3492/1254/21]

A landowner whose property adjoins Council's Community Purpose Site at Lot 1254 Edinburgh Avenue, Kinross has requested Council to contribute to the cost of a dividing fence.

CITY PLANNER'S REPORT

A J & E J Drage are seeking a front setback relaxation for a residence on Lot 115 (8) Agonis Place, Timberlands, Wanneroo.

The City Planner provides background details to the subject site and an assessment of the proposal. He gives reasons why the proposal should not be supported.

ADDITIONAL INFORMATION

The City Planner advised the applicant has supplied additional information he wishes considered, namely that:

- 1 there are few vacant blocks left and each case should be taken on its merits;
- 2 a precedent has already been set in Timberlands Estate at 2 Jacaranda Place, 4 Tamarisk Avenue, one residence in Marginata Place and another in Agonis Place;
- 3 the re-growth trees which would be felled to enable construction of the house at the required setback are approximately 20 years old and 30 feet (9 metres) tall.

With regard to the first point, the number of vacant lots does not influence Council's consideration of this matter and each application is presently considered on its merits.

With regard to the second point, one of the cited properties has a residence at 7.5m from the street but did not receive planning approval for this; rather the Building Licence was issued without referral to the Planning Department. The other lots comply with the required 15m setback.

Lot 115 supports a mix of trees including banksia and tuart, some of which would be 9m tall. The applicant seems to believe that council considers re-growth trees are not worth protecting. This is not the case. The issue in this case is that there are fewer but larger seed trees will need to be removed if the house is located at 15m from the street. The situation remains that fewer trees would be removed with more sensitive design and orientation of a residence on this lot.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council refuses the application for a front setback relaxation for a dwelling on Lot 115 (8) Agonis Place, Wanneroo submitted by A J & E J Drage

on the grounds that there are adequate opportunities to locate the dwelling elsewhere on the lot, or to construct a dwelling of an alternative design, and/or orientation and/or size to achieve the required setback.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council does not support the application submitted by F LeFaucheur on behalf of P Horabin for the subdivision of Lot 46 (12) Ardtalla Court, Duncraig, for the following reasons:

- 1 the application proposes an undesirable lot configuration;
- 2 it is considered that the proposed 497m² lot is not capable of being developed in accordance with the City of Wanneroo's normal design requirements for this area nor to a standard commensurate with other development in the area.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council does not support the application submitted by I and J Edwards for the subdivision of Lot 9 (27) Stoney Road, Gngangara for the following reasons:

- 1 the proposal is inconsistent with Council's Rural Subdivision Policy which specifies a minimum lot size of 4 hectares in this area and requires a naturally occurring flood secure area to each lot yielded;
- 2 the proposal represents fragmentation of the rural area in this locality and would diminish its rural integrity;
- 3 support for this proposal will establish an undesirable precedent for further subdivision in the locality.

The City Planner provides background details to the subject matter and outlines the current position.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council advises Messrs Clayton Utz, Solicitors, that:

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council does not support the application submitted by L J Brennan for the subdivision of Lot 10 (44) Greenlees Way, Carabooda for the following reasons:

- 1 the proposal is inconsistent with Council's Rural Subdivision Policy which specifies a minimum lot size of 4 hectares in this area and is located within a Priority Resource Area under both the W A Planning Commission's Basic Raw materials Policy and Council's Rural Subdivision Policy;

An amendment to increase the density coding on Pt Lot M1722 Delamere Avenue, Currumbine submitted on behalf of Beaumaris Land Sales was the subject of a 67-signature petition and two letters of objection after it was initially considered by Council in March 1994. TP219-06/95 AMENDMENT NO 731 TO TOWN PLANNING SCHEME NO 1:
STRUCTURE PLANNING - [790-731, 780-1, 319-7-1]

To enable flexible structure planning two new zones are proposed together with a new part in the Scheme Text. The purpose is to establish procedures which will allow development to proceed according to Agreed Structure Plans. This will remove the need for scheme amendments to control the development in the new zones and will avoid unnecessary delays.

In August 1994, the Alkimos-Eglinton Metropolitan Region Scheme Major Amendment took effect, resulting in substantial Urban and Central City Area zones being put in place over that area.

The City Planner provides details of the Amendment No 731 which introduces structure planning provisions.

CITY PLANNER'S REPORT recommended that Council supports Amendment No 731 to Town Planning Scheme No 1 to introduce structure planning provisions, a "Centre Zone" and an "Urban Development Zone".

MOVED Cr O'Grady, **SECONDED** Cr Wood that consideration of Amendment No 731 to Town Planning Scheme No 1 to introduce structure planning provisions, a "Centre Zone" and an "Urban Development Zone" be deferred and form part of the discussions at the Residential Planning Codes Meeting to be held on Thursday, 15 June 1995.

DELEGATION OF DEVELOPMENT CONTROL POWERS - [780-1, 201-1-1]**CITY PLANNER'S REPORT**

To further reduce the time taken to process development applications it is proposed to exercise Council's power under its Town Planning Scheme to delegate its authority to deal with applications for development approval to the Chairman of the Town Planning Committee, and to the City Planner and the City Building Surveyor to approve minor variations to setback, parking and landscaping requirements.

The City Planner outlines methods of using delegated authority to reduce the processing time for the majority of applications.

MOVED Cr Wood, **SECONDED** Cr Hall that Council:

- 1 pursuant to the powers contained in the State Planning Commission Act and City of Wanneroo Town Planning Scheme No 1, delegates its authority:
 - (a) to the Chairman of the Town Planning Committee and/or the Town Clerk, in conjunction with the City Planner to determine applications for development approval and to comment to the Western Australian Planning Commission on subdivision applications in cases where past experience has shown that the Committee and Council would have adopted the City Planner's recommendation. The applications so determined shall be included on the schedules of the Development Assessment Unit and Subdivision Control Unit reports as the case may be, with a short summary;
 - (b) to the City Planner and the City Building Surveyor to exercise discretion permitted under the Residential Planning Codes relating to residential building setbacks by up to ten (10) percent where the officer concerned considers the reduced setback will not detrimentally affect the development, adjoining properties or the streetscape;
 - (c) to the City Planner to exercise discretion under the provisions of Town Planning Scheme No 1 to reduce building setbacks, car parking and landscaping by up to ten (10) percent where he

considers the reduced criteria will not detrimentally affect the development, adjoining properties or the streetscape;

**TP221-06/95 REQUESTED CLOSURE OF PEDESTRIAN ACCESSWAY
BETWEEN GAYFORD WAY AND DANBURY CRESCENT,
GIRRAWHEEN - [510-1114, 510-1115]**

CITY PLANNER'S REPORT

Council, at its meeting on 13 March 1995 (Item TP97-03/95 refers), resolved to initiate preliminary closure procedures by advertising the proposed closure of the pedestrian accessway between Gayford Way and Danbury Crescent to gauge the opinions of the local residents. At the close of the advertising period, numerous submissions both for and against closure were received from residents and organisations.

The City Planner's report outlined the submissions received and advised that the majority of residents in the vicinity have no objections to the closure of the accessway, and recommended that Council:

- "1 agrees to the closure of the pedestrian accessway between Gayford Way and Danbury Crescent, Girrawheen subject to the benefiting landowners meeting all associated costs in accordance with Council's policy;
- 2 investigate the feasibility of a schoolchildren's crossing being placed across Nelligan Avenue, Girrawheen."

ADDITIONAL INFORMATION

Following the writing of Report TP221-06/95, the City Planner submitted the following additional information:

PETITION

A late petition has been received objecting to the closure of the pedestrian accessway between Gayford Way and Danbury Crescent, Girrawheen. The petition is signed by 68 residents

representing 54 households. The residents who signed this petition also requested that their names be withdrawn from any previous petitions soliciting support for the closure of the accessway that they may have signed.

A new plan is attached (Appendix I refers) showing the current number of households which have objected to the closure and those that have supported the closure. The residents represented by the "object to closure" include those residents who have always objected and those who have signed the current petition withdrawing their names from previous petitions requesting closure. The residents shown as signing both petitions have not signed the latest petition but have previously signed two petitions, one in favour and one against closure.

ASSESSMENT

The residents in Halkin Road and Danbury Crescent would be the most affected by the closure of the accessway. Previously when the recommendation of Report TP221-06/95 was made only five households in Danbury Crescent objected to the closure and the majority of residents either had no objections to the closure or had signed both petitions. It was on this basis alone that the recommendation to agree to the closure of the accessway was made.

The majority of affected residents in Danbury Crescent and Halkin Road now object to the accessway being closed. This together with the objections received from the Western Australian Planning Commission, the Girrawheen Primary School and the P & C Association is considered sufficient grounds for the recommendation of Report TP221-06/95 to be amended as follows.

RECOMMENDATION

That Council does not agree to the closure of the pedestrian accessway between Gayford Way and Danbury Crescent, Girrawheen.

MOVED Cr O'Grady, **SECONDED** Cr Wood that consideration of the closure of the pedestrian accessway between Gayford Way and Danbury Crescent, Girrawheen be deferred for one month pending receipt of a report from Engineering Department addressing the following:

- 1 height of fences;
- 2 provision of street lighting to increase security;
- 3 and any other matters considered relevant.

TP222-06/95 PROPOSED CLOSURE OF MILITARY ROAD, YANCHEP -
[510-0]

CITY PLANNER'S REPORT

The Shire of Gingin has requested the Department of Land Administration to close Military Road between Wanneroo Road and Boronia Road, Gingin.

A portion of the road reserve actually falls within the City of Wanneroo's boundary and a resolution from Council is required to enable the road to be closed.

The City Planner reports on the application and considers there is no planning or engineering reason why a portion of Military Road should not be closed.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council advertises the proposed closure of the portion of Military Road, Yanchep between Wanneroo Road and the City of Wanneroo and Shire of Gingin boundary for a period of 35 days in accordance with Section 288A of the Local Government Act.

- FUNDING CONTRIBUTION - [727-8-2]

CITY PLANNER'S REPORT

Council has been asked to partly fund the proposed Neerabup National Park east-west road crossing study along with the Ministry for Planning and the Main Roads Department. The City Planner recommends that the City should contribute \$15,000 towards the study and seeks Council's authorisation to use funds set aside in the 1994/95 Town Planning Professional Retainer/Consultancy Fees.

The City Planner provides background details to the subject matter and gives reasons why he considers it appropriate for Council to be involved and contribute towards this study.

MOVED Cr Cooper, **SECONDED** Cr Wight that Council authorises in accordance with Section 547 (12) of the Local Government Act:

- 1 a contribution of \$15,000 from the City towards the Neerabup National Park east-west road crossing study;

TP224-06/95 SNAKE SWAMP MANAGEMENT PLAN - [750-1]

CITY PLANNER'S REPORT

The Draft Environmental Management Programme and Landscaping Concept Plan Snake Swamp and Surrounding Rural Land (Draft Snake Swamp Management Plan) has been released for public comment. The City Planner provides detailed comment on the draft plan to enable Council to develop its response to the plan.

Council has previously considered the matter of Quenda (Southern Brown Bandicoot) at Snake Swamp, an important issue in terms of the draft management plan, and this matter is further addressed here. A number of other issues arising from the draft plan are also addressed.

In summary, the draft management plan for Snake Swamp raises concern at two levels - firstly, because of uncertainty about the Swamp's significance as a Quenda habitat; and secondly because a number of design and management issues relating to the modified wetland and surrounding open space are considered to require further attention.

Further independent investigation of the Swamp's significance as a Quenda habitat should occur before the Draft Management Plan is progressed any further and an adequate understanding of prevailing and future groundwater and surface water hydrological issues will need to be fully addressed to the Water Authority's satisfaction.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council:

- 1 notes City of Wanneroo Report No TP224-06/95;

- 2 provides written comments, both to the proponent and the Department of Environmental Protection, on the Draft Environmental Management Programme and Landscaping Concept Plan Snake Swamp and Surrounding Rural Area, based on City of Wanneroo Report No TP224-06/95.

TP225-06/95 FINAL REPORT OF THE REVIEW OF COASTAL MANAGEMENT
IN WESTERN AUSTRALIA - [303-8]

CITY PLANNER'S REPORT

Hon Bruce Donaldson MLC, Chairman, W A Coastal Management Review Committee has forwarded the Final Report of the Review of Coastal Management in Western Australia prepared for the Minister for Planning, indicating that the Minister now invites submissions on the report. The submissions should be received by the Ministry for Planning by Friday 30 June 1995.

The City Planner outlines details of the subject matter and advises that the Final Report of the W A Coastal Management Review Committee adequately addresses all the matters contained

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council advises the Ministry for Planning that Council notes that the final Report of the Review of Coastal Management in Western Australia adequately addresses all the matters contained in its submission of 2 August 1994 forwarded to the Western Australian Coastal Management Review Committee and that Council, in general, supports the Final Report's recommendations subject to reconsideration of Recommendations 1 and 22 for the following reasons:

- 1 The definition of the Coastal Zone refers to the Holocene dune system. Several parts of this City's coastline have no Holocene dune and it would seem odd for coastal land right next to the shoreline to not be included in the Coastal Zone. It is recommended that the definition be reconsidered in light of this matter. Further, it is noted that the City's Town Planning Scheme and the Metropolitan Region Scheme show "Parks and Recreation Reserves" along the City's coast and therefore it is also recommended to consider inclusion of these reserves in the definition of the Coastal Zone.

2 Recommendation 22 makes reference to "user-pays approach" to coastal management. While in principle this approach may be right, it is envisaged that there could be some inherent problems in implementing it and therefore it is recommended that Recommendation 22 clearly defines the "user-pays approach".

TP226-06/95 NAMING OF THE BEACH AT MINDARIE - [727-0, 765-21]

CITY PLANNER'S REPORT

The Mindarie Development Group has requested that Council names a section of beach south of the present groynes and breakwaters at Mindarie. The name "Mindarie Beach" has been proposed for a section of beach running approximately 500 metres south from the main groyne.

The City Planner provides background information to the subject matter and an assessment of the proposal. He supports the naming of the beach "Mindarie Beach" to the southern boundary of the locality of Mindarie.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council supports the Mindarie Development Group's request to name the section of beach from the groyne/breakwater at Mindarie to the southern boundary of the locality of Mindarie as "Mindarie Beach" and requests the approval of the Geographic Names Committee of the Department of Land Administration.

TP227-06/95 PROPOSED MEMORIAL - TONY AGNELLO - [727-0]

CITY PLANNER'S REPORT

At its meeting on 8 February 1995, Council resolved (Item C43-02/95 refers) that a report be submitted to the General Purposes Committee on the feasibility of naming a park or some other site as a memorial to the late Tony Agnello, who was a long-time resident and Justice of the Peace in the City of Wanneroo for many years.

The City Planner provides an assessment of the proposal and suggests that the best way of seeking to commemorate Mr Tony Agnello would be to use the name in the dedication and commissioning of a Council building.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council refers the name "Tony Agnello" to the City Building Surveyor for the placement

of a commemorative plaque on future civic facilities on land adjacent to the proposed Landsdale Shopping Centre on the corner of Hepburn Avenue and Wanneroo Road, Landsdale.

Discussion ensued regarding previous correspondence with Mr and Mrs Grubelich.

The Mayor stated he would write to Mr and Mrs Grubelich informing them that Council intended to engage the services of a mediator and stating that a time limit would be enforced on this offer.

The City Planner advised he believed a study of the land would be advisable for long term use and would look at the time frame and costings in this regard.

MOVED Cr O'Grady, **SECONDED** Cr Wood that Council informs Mr and Mrs Grubelich that it is willing to participate in arbitration to determine compensation, if any, due to the increased run-off from the widening of Gngangara Road and the possibility of acquiring the sump site, provided that such arbitration is undertaken within a reasonable period of time.

TS176-06/95 RETAINING WALLS - MINDARIE SUBDIVISION STAGE 2B - [740-94739]

CITY ENGINEER'S REPORT

The developer for Mindarie proposes to construct retaining walls over 2 metres in height in Stage 2B of the subdivision. Council policy seeks to limit the height of retaining walls in new subdivisions due to the loss of amenity to adjacent lots and public spaces.

The City Engineer reports that the topography of the site is steep and retaining walls are required to create reasonably level lots for the buildings. He suggests approval be given, subject to certain conditions.

MOVED Cr Moloney, **SECONDED** Cr Lynn that Council authorises the City Engineer, in consultation with the City Planner and City Building Surveyor, to approve retaining walls over 2 metres in height in the Mindarie Stage 2B subdivision subject to:

The City Recreation and Cultural Services Manager provides details of the fee structure for Craigie Leisure Centre and Aquamotion which are both subsidised by Council. CITY RECREATION & CULTURAL SERVICE MANAGER'S REPORT recommended that Council advises Mr Price and Aqua Attack Swim Club that the fees payable, and concessions available for junior swimmers and adult spectators, are considered equitable and no further reductions or concessions will be made.

MOVED Cr Wight, **SECONDED** Cr Moloney that Council:

- 1 introduces an all day spectator ticket at \$1.00 by date-stamping spectator tickets on day of issue;
- 2 advises Mr Price and Aqua Attack Swim Club accordingly.

The City Recreation and Cultural Services Manager reports on the feasibility of including a competition swimming pool as part of the Arena Complex and states that while there is a need for a 'full time' 50m metre swimming facility within the City of Wanneroo, it would be inappropriate to continue developing the already extensive facilities at Craigie Leisure Centre.

MOVED Cr Wight, **SECONDED** Cr Moloney that Council:

- 1 advises the "50 Metre Swimming Pool for Wanneroo Group" that there will be no further development of major aquatic facilities at Craigie Open Space;

CS104-06/95 WELLNESS DAY - [262-5]

CITY RECREATION & CULTURAL SERVICE MANAGER'S REPORT

Wellness Day has, traditionally, been a participation event aimed at promoting a healthy and active lifestyle through recreation.

Over the past four years Council, through the Recreation and Cultural Services Department, has been involved in Wellness Day.

It is proposed that the focus of the 1995 Wellness Day be on community education and this can be achieved through a special event on Wellness Day at a regional shopping centre, namely Whitford City.

CS105-06/95 PRIVATISATION OF AFTER SCHOOL AND VACATION CARE PROGRAMMES - [262-1]

CITY RECREATION & CULTURAL SERVICE MANAGER'S REPORT

Council has been providing after school and vacation care programmes at various locations within the municipality for many years.

Although it has always been Council's stance that the transportation of children to the care centre after school hours is the parents' responsibility, this objective has sometimes been difficult to achieve. Without an effective transport service, attendances decline and the financial viability of the programme is affected.

The City Recreation and Cultural Services Manager reports on the background history of the YMCA's involvement at the Kingsley After School Care Centre and the feasibility of community based agencies, such as the YMCA sponsoring after school care and vacation care programmes.

He advises that discussions have taken place with the Manager of Greenwood YMCA and the Director of the Padbury Child Care Centre regarding this issue.

RECOMMENDATION

That Council:

- 1 supports the transfer of sponsorship of Council's after school and vacation care programmes to other community based agencies;
- 2 authorises the continuation of negotiations with the Greenwood YMCA, Padbury Child Care Centre and other suitable agencies regarding this transfer.

ADDITIONAL INFORMATION

The City Recreation and Cultural Services Manager advised that following discussions with Councillor Hall and the Children's Services Co-ordinator at the Whitford office of the Department for Community Development, he believed a change needs to be made to the recommendation in the abovementioned report.

It would be more appropriate to recommend that the funding body (Department of Human Services and Health) seeks alternative sponsors for these programmes rather than Council.

In view of this, he suggested that the recommendation be altered to read as follows:

MOVED Cr Hall, **SECONDED** Cr Wood that Council:

- 1 supports the transfer of sponsorship of Council's after school and vacation care programmes to other community based agencies;
- 2 advises the Department of Human Services and Health of the issues which have led to this decision, and seeks its support in locating new sponsors for these particular programmes.

The State Government's Urban Transport Committee has recently resolved to support the principle of two additional railway stations in the Clarkson-Butler District. CITY PLANNER'S REPORT

Glare from reflective roofs causes some complaints from time to time. The issue is a very subjective one and the problems are small, and in all cases short-termed, when compared to the popularity of zincalume roofs. Each complaint should be dealt with on its own merits rather than attempting to introduce blanket restrictions or bans.

The City Planner reports on a complaint which was received from a Woodvale resident about glare from a roof in Timberlane Drive.

He states that generally there are a large number of zincalume roofs in residential areas, yet very few legitimate complaints are received.

He suggests that each complaint be tackled on its merits and advises that the new Town Planning Scheme contains provisions to preserve amenity and specifically monitor glare.

P16-06/95 INTERIM COMMUNITY HOMES IN NEWLY DEVELOPING AREAS
- [880-1, 012-0-1]

The Integrated Local Area Planning (ILAP) Co-ordinator has in his research into the needs of communities in the newly developing areas of the City, identified a need for the establishment of interim facilities to accommodate a range of activities in the early stages of the development of new suburbs. The proposal being put forward is a new direction for Council and should be viewed in terms of the short and long term benefits to the community. The cost implications and ongoing expectations by the community of Council should be considered carefully.

The Manager, Welfare Services provides background information to the subject matter and outlines a proposal to lease Homeswest

sales offices at Neerabup and Norfolk for general community use for a period of two years.

Negotiations with Homeswest regarding the Norfolk project have broken down and Homeswest has indicated that it will not now make its Norfolk sales office available.

She suggests the types of programmes which could be accommodated at the centre; proposed management arrangements and the operating budget which will be required.

MANAGER, WELFARE SERVICES' REPORT

Under recent legislation enacted in the State Parliament (Disability Services Act (1993)) all public authorities, which include Local Government, are required to lodge a disability service plan with the Disability Services Commission prior to 1 January 1996. Whilst each plan will vary according to the size, scope and function of organisations, each plan will be required to outline how the public authority will ensure that people with disabilities, their families and carers will have access to services. Organisations will also be required to report to the Commission before 1 September each year on the progress of the implementation of the plan. Organisations will be expected to implement most of their plans within five years.

The purpose of preparing a disability service plan is to ensure that people with disabilities, like other members of the community, can access services provided by local governments in Western Australia.

The Manager, Welfare Services reports on the possible need to expand the Terms of Reference of the Disability Access Advisory Committee to broaden the scope of the disability services plan.

Funds have been listed in the 1995/96 draft Budget for appointment of a consultant to carry out an audit of Council facilities to determine appropriate access for people with disabilities. It is suggested that this function be broadened to encompass community consultation.

MOVED Cr Wood, **SECONDED** Cr Wight that Council:

- 1 amends the Terms of Reference for the Disability Access Advisory Committee as outlined in Attachment 1 to Report P18-06/95;
- 2 lists for consideration in the 1995/96 draft Budget an additional \$10,000 for the appointment of a consultant

to carry out community consultation and develop a Disability Services Plan.

P20-06/95 REQUEST FOR TRANSCRIPT - MRS A HINE - [702-1]

Town Clerk referred to a request from Mrs A Hine for a transcript of discussions which took place at General Purposes Committee on 1 March 1995 and which related to Council seeking a legal advice concerning a letter sent by Mrs A Hine to the Wanneroo Times on 28 February 1995.

He said that when Council authorised the taping of Town Planning and General Purposes Committee meetings it was solely for the purpose of preparation of minutes and to enable validation prior to confirmation. Following this process tapes are to be reused.

It was never intended that the tapes of Committee meetings be available to other than the Minute Secretary. Committee meetings are open to the public and Council considered that this provided ample opportunity for public information and accountability of Council.

MOVED Cr Wood, **SECONDED** Cr Wight that:

- 1 the request from Mrs A Hine be refused;
- 2 Council dispense with the taping of Committee meetings.

P21-06/95 USE OF RECREATION FACILITIES BY JUNIORS AND SENIOR CITIZENS - [260-0, 264-2, 330-5-1]

CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT

Some weeks ago, Council was advised that several junior basketball clubs who had been using facilities at Belridge Senior High School for training purposes had lost a majority of their time slots. It appears that a soccer group has successfully negotiated a contract with the school principal to use the sports hall for indoor soccer competitions.

The City Recreation and Cultural Services Manager reports on efforts that have been made to accommodate these clubs in Council's Recreation Centres. Unfortunately, the only time slots available were either too late in the evening, or did not suit the availability of coaches.

Following discussion, it was requested that a further report be presented to the 1995/96 Budget meeting outlining strategies to achieve a more equitable approach to the use of Council recreational facilities.

The City Recreation and Cultural Services Manager was requested to obtain costings for booking recreation facilities from other local government areas, and the overall subsidy of both indoor and outdoor use by junior groups, and submit a further report in time for consideration within the 1995/96 Budget.

MOVED Cr Wood, **SECONDED** Cr Wight that CITY RECREATION & CULTURAL SERVICES MANAGER'S REPORT P21-06/95 be received.

PERRY'S PADDOCK : ASSESSMENT OF TENDERS FOR CONSULTANCY - [057-4]

Perry's Paddock : Appointment of Consultant to Prepare Development/Management Plan.

At its meeting of 9 November 1994 (Item I21110), Council resolved to engage a consultant to prepare a development/management plan for the Perry's Paddock area, to be funded from the Perry's Paddock Historical Village Reserve Fund.

Public tenders were invited however none were received. A number of firms advised that they would respond on an invited tender basis. Consequently, at its meeting of 19 April 1995 (CS62-04/95), Council resolved to invite six consultancy firms to submit tenders.

Five of the invited firms have now submitted tenders (BSD Consultants declined).

The five tenders have been received from:

1Ecoscape, in association with:

- . Hammond and Green Architects
- . The Scott Smalley Partnership, Consulting Engineers
- . Bamford Consulting Ecologist

Total tender price : \$75,890.

2ERM Mitchell McCotter, in association with:

- . Tamora Pty Ltd (Aboriginal sites)
- . Airey Ryan and Hill (Engineers)
- . Dr Kinnear (Wetland management strategies).
- . Considine and Griffiths Pty Ltd. (Design requirements for historic village; conceptual landscape design).

Total Tender price : \$63,675 (includes 'optional' archaeological survey for Aboriginal sites - cost : \$2,200).

3GHD (Engineers) in association with:

- . Russell Taylor and William Burrell (Town planning and civic design).
- . W G Martinick & Associates (Environmental scientists)
- . Martin Cuthbert Landscapes (Landscape architect).

Total tender price : \$69,820.

4Hames Sharley

Consultancy team:

- . Hames Sharley (Project management, landscape assessment, planning).
- . Halpern Glick Maunsell (Civil engineering, hydrological engineering, ecologists).
- . MacIntyre Dobson & Associates (Aboriginal sites study).
- . Esther Skitmore & Associates (Public consultation).
- . Soil and Rock Engineering (Geotechnical study).

Total tender price : \$69,770 plus cost of preparation of Stage 1 development plan (at 6% of contract price for cost of works).

5Whelans

Consultancy team:

- . Whelans (Project management, planning architecture, environmental analysis, heritage assessment, surveys and mapping).
- . Sinclair Knight Merz (Engineering, hydrological studies).
- . Landscan (Landscape architecture, recreational planning).

Total tender price : \$59,850.

ASSESSMENT OF TENDERS

Only one of the tenders (from Whelans) has included all of the information required by the brief to be submitted. Strictly speaking, Whelans is therefore the only conforming tender and the others are non-conforming tenders. (Only conforming tenders are able to be considered for acceptance).

To gauge whether Whelans' tender warrants Council's consideration for acceptance, all tenders (conforming and non-conforming) have still been assessed.

The tenders have been assessed using selection criteria:

1. Total Fee
2. Rate of Remuneration
3. Hours to be spent on Project
4. Expertise and Qualifications
5. Experience
6. Demonstrated Appreciation of Study
7. Soundness of Methodology
8. Comprehensiveness and Clarity of Submission.

To provide a guide for the assessment, the degrees to which each tender is seen to satisfy each criterion has been quantified.

The assessment has resulted in the following conclusion:

1. Whelans has submitted the only conforming tender.
2. Having regard for the scoring and further detailed comments upon each submission, Whelans' tender also appears to be the most advantageous. The following further points support this conclusion:
 - (a) Whelans achieved the highest score, and that score was appreciably above the next highest score.
 - (b) Whelans' fee is the lowest submitted and is appreciably below the next lowest fee.
 - (c) Whelans' submission is quite clear as to outputs which should be expected from the consultant (eg level of detail of plans) where most of the other submissions are less clear in this respect.
 - (d) Whelans' submission is clearly geared to an outcome which will facilitate construction as the next step, this being an objective of the brief.
 - (e) Whelans have examined Mr Garmson's proposal (for an English Inn/model village) and are clear as to what the brief requires in respect of that proposal.

One area which requires particular attention is the matter of Aboriginal sites investigation. The brief required that such investigation be undertaken and Whelans propose undertaking this investigation by consulting with the Aboriginal Affairs Department, Aboriginal groups and on-site investigation for indications of possible Aboriginal archaeological sites.

Whelans has indicated that it will be able to determine if there are any Aboriginal sites in the study area (including unregistered sites), and if there are any, then a specialist

study may need to be separately commissioned by the City. This approach is considered reasonable and to facilitate the appointment of specialist consultants should the need arise, the recommendation which follows seeks delegation of authority to do this.

It should be noted that the above assessment and the following recommendation have resulted from consultation between, and joint endorsement by, officers of Council's Building, Engineering, Recreation and Cultural Services, Parks and Town Planning Departments.

This matter was considered at the Historical Sites Advisory Committee meeting held on 21 June 1995 where it was resolved that the following recommendation be put to Council.

MOVED Cr Wood, **SECONDED** Cr Ewen-Chappell that Council:

- 1 accepts the tender submitted by Whelans for the preparation of the Development and Management Plan for Perry's Paddock, for the total tender price of \$59,850;
- 2 authorises the Mayor and the Town Clerk, in conjunction with the Chairperson of the Historical Sites Advisory Committee to appoint an appropriate specialist consultant to undertake a detailed survey of Aboriginal archaeological and/or ethnographic sites for all or part of the Perry's Paddock study area, with the cost being met from the Perry's Paddock Historical Village Reserve Fund, should Whelans' site examination or consultation with the Aboriginal Affairs Department or Aboriginal groups indicate that such a detailed survey is warranted.

C316-06/95 DISTRICT STRUCTURE PLAN - FLYNN DRIVE INDUSTRIAL AREA - [730-4]

| | |
|---------------|-------------------------------|
| WARD: | North |
| METRO SCHEME: | Industrial/Private Recreation |
| LOCAL SCHEME: | Rural/Private Recreation |

SUMMARY

The rezoning of this area to Industrial under the Metropolitan Region Scheme has prompted Council to initiate structure planning and ultimately rezoning for industrial purposes.

The Consultant's Brief for a District Structure Plan was finalised at a meeting of the six landowners involved on 29 March 1995. The landowners will fund the study in proportion

to their landholding: City of Wanneroo (32.9%), Cockburn Cement (34.0%), LandCorp (16.3%), Trandos family (8.0%), Borello family (8.1%), Susac family (0.7%). Council has allocated \$30,000 in its 1994/1995 budget for its portion of the study and this is proposed to be re-budgeted for.

Eight firms of Planning Consultants were invited to make submissions and six responses were received by the closing date of 24 May. Additional information was requested from all Consultants detailing archaeological/ethnographic surveys (which will be required for Ministry for Planning and Department of Environmental Protection approval), and acoustic assessments (particularly in relation to the Motor Sports Area).

An assessment by officers of Consultant's proposals was considered by landowners at a meeting on June 21 1995 and is summarised below.

Each Consultant was assessed on four criteria:

1. general experience
2. staffing and liaison
3. proposal contents/study approach
4. costing and timetable.

A copy of the Consultant's fuller submissions (minus staff C.V.s and general company information) will be available in the Councillor's Reading Room. The location of the Study Area is shown on Appendix II.

LANDOWNERS' ASSESSMENT

Following discussions with landowners, the preferred Consultants was Richard Pawluk & Associates (with the nominated subconsultants). It was considered that BSD and Feilmans were too expensive. Gray & Lewis has limited local experience and provided a less than comprehensive brief. Of the final three, GHD were considered to have less extensive ethnographic/archaeological experience, and were the more expensive. The final two - The Planning Group and Richard Pawluk were equally rated. The landowners rated Pawluk/Sinclair Knight Merz slightly above The Planning Group, etc. As officers rated these last two equally, it is recommended that Richard Pawluk & Associates be appointed as the Consultant to undertake the Flynn Drive Structure Plan.

Prior to the commencement of the Study, the landowners will meet with the Consultants to finalise the Brief.

Of the total study sum of \$58,160, Council's share will be \$19,135.

MOVED Cr Wood, **SECONDED** Cr Ewen-Chappell that Council agrees to the appointment of Richard Pawluk and Associates to undertake the District Structure Plan for the Flynn Drive Industrial Area at the submitted total fee of \$58,160, with Council's contribution of \$19,135 being met from Flynn Drive Industrial Area Consultancy Funds to be provided for in the 1995/1996 Budget.

- 4 a footpath would be provided on Lot 1 to connect the verandah to the new pedestrian opening on Lot 137;
- 5 the landscape area on Lot 1 shown on the original approval would be reduced to allow the two carparking areas to be properly integrated;
- 6 the cost of construction of the third crossover to Vanden Way would be shared by the owners of Lot 1 and Lot 137 on an equal basis and all other costs would be borne by landowners concerned;

- 8 Lot 137 would require the full 6 metre crossover and service access and arrangements made for the recovery of costs from the owners of Lot 129 when that lot is developed.

TOWN PLANNING SCHEME NO 7A, PART B - MARANGAROO
COMPENSATION FOR LAND RESUMPTION BARIN AND
WYNADEN SYNDICATE - [780-7A]

The abovenamed Scheme Owners have now accepted the City's offer to settle their compensation claim, thereby bringing to an end this cumbersome matter which commenced in December 1988. The settlement of this claim is the only matter preventing the winding up of Part B (Guided Development) of Town Planning Scheme No 7A and I am anxious that the current momentum should not be lost.

This matter was last considered by Council at its meeting held on 8 December 1993 at Item H21215 when payment of an amount of \$190,000 was authorised in part settlement of the total compensation claim which, with interest accumulation to that date, was estimated at \$263,307 (a copy of that report and resolution forms Appendix III). However the report informed Council that an alternative settlement comprising a transfer of six Scheme replacement lots with a cash adjustment could be justified. The payment of \$190,000 cash was seen as an effective measure in arresting interest penalties against the Scheme, which were at that time accumulating at an annual rate of 14.00%.

A cheque for \$190,000 was forwarded to the owners' solicitors on 24 December 1993 and any entitlement to further interest on that amount was thereby extinguished. The cheque was subsequently returned by the owners thereby indicating that Council's cash offer was not accepted. The cheque did, in due course, become out of date and cancelled and is now held by Council's solicitors.

Numerous discussions have taken place since December 1994 and full and final settlement of the claim by the transfer of six Scheme lots and a cash payment of \$20,000 has been agreed to.

The City's original offer to settle, which was reiterated in December 1993, was on the basis of a transfer of the same six lots plus a cash payment of \$2,977.01 representing the value of 0.43% of a seventh lot less development cost adjustments.

The owners' original claim was for a transfer of ten new lots plus \$75,877 for value and cost adjustments plus interest.

A plan showing the six lots in question is attached to Report H21215.

MOVED Cr Wood, **SECONDED** Cr Ewen-Chappell that Council:

1 rescinds Resolution H21215, viz:

"... that Council authorises payment of an amount of \$190,000 to Setiawin Barin and Harry Christopher Wynaden from Town Planning Scheme No 7A Part B Special Overdraft Account in compensation for land resumed from them for the purpose of that Scheme"

- 2 agrees to settle the compensation claim of Setiawin Barin and Harry Christopher Wynaden in Town Planning Scheme No 7A Part B Marangaroo by the following:
- (a) the transfer, free of cost, of six Scheme lots, being Lot 2 Dymchurch Court, Lots 10, 11 and 50 Aylesford Drive and Lots 34 and 52 Wrotham Place, Marangaroo;
 - (b) the payment of \$20,000 to be made from Account No 63130 (Town Planning Scheme No 7A Part B Compensation).

**C319-06/95 NOMINATION FOR WANNEROO GROUNDWATER ADVISORY
COMMITTEE -[322-18-1]**

The term of appointment of Messrs Nick Trandos and Murray Hamilton as landowner representatives to the Wanneroo Groundwater Advisory Committee expires on 30 June, 1995.

To permit the selection of replacement members for a three year period, Council has been invited to nominate a panel, preferably of three names, for consideration by the Water Authority.

Currently the private membership to the Committee represents a number of diverse industries including market gardening, poultry production and pasture irrigators. In order that the balance of industry representation is maintained on the Committee, it is suggested that nominees are representatives from the market gardening and poultry industries.

Apart from an age limit of 70 years the Water Authority does not have any strict criteria for eligibility for membership. However it is highly desirable that members be groundwater users within the Wanneroo Groundwater Area. It is also considered advantageous if the members have a personal commitment to the protection and good management of the groundwater resource, and good local knowledge.

Mr Murray Hamilton is not seeking renomination to the committee, however Mr Nick Trandos is eligible for a further term.

MOVED Cr Waters, **SECONDED** Cr Cooper that Council nominates Mr Nick Trandos, Mr Hugh Wallace and Mr Russell Anderson for consideration by the Water Authority of WA for appointment as representatives to the Wanneroo Groundwater Advisory Committee.

**REDUCTION IN FUNDING - FINANCIAL COUNSELLING
SERVICE - [880-2]**

The Minister for Community Development; The Family, Roger Nicholls, MLA has advised that the current level of funding for the City's Financial Counselling Service will be reduced from 1 October 1995. Further advice from the Whitford office of the Department for Community Development has indicated that this will mean a reduction from two workers to one worker or in funding terms a reduction from \$75,970 per annum to \$37,985 per annum.

This proposed reduction in service will have serious implications for residents particularly in the new suburbs in the northern region as it was intended to establish a Financial Counsellor Service at the Jenolan Way Community Centre using one of the existing counsellors. Should funding be reduced the following areas of the service will possibly be discontinued or significantly reduced:

- . sessional service at Yanchep;
- . sessional service at Merriwa;
- . sessional service at Joondalup Law Courts;
- . home visits by Counsellors;
- . community education to high schools

The proposed permanent base at Merriwa and sessional service for Neerabup will also be in serious doubt.

MOVED Cr Cooper, **SECONDED** Cr Hall that:

- 1 an urgent deputation be sought with the Minister for Community Development seeking a reassessment of his decision to reduce funding to the service on the basis of the proposed establishment of a permanent Financial Counselling Service at the Jenolan Way Community Centre;
- 2 the local State Government members of Parliament be asked to support Council's request;
- 3 Council, in this instance, sets aside its policy in respect of "Communication of Council Resolutions" to allow for immediate action on this matter.

**CONTROL OF TRAFFIC SPEEDS ON LOCAL ROADS -
[312-2]**

The topical matters of traffic calming and speeding traffic have been the subject of a recent Ministerial Task Force with one of the issues being the enforcement of traffic regulations through the use of speed cameras in local streets.

The Technical Services Committee, at its meeting on 14 June 1995, recommended that Council seeks a deputation with the Premier to discuss the feasibility of Council taking over the control of traffic speeds (with the use of Multanovas) in the City of Wanneroo.

The Western Australian Municipal Association has recently advised of the Local Government Association's Annual General Meeting and requested motions for this meeting's agenda prior to 23 June 1995.

To support the City's position the following motion has been submitted for consideration at the Annual General Meeting:

"That the Local Government Association requests the State Government to amend the Road Traffic Act to allow Councils (Local Government Authorities) to operate Multanova Cameras in the local road system".

MOVED Cr Cooper, **SECONDED** Cr O'Grady that:

- 1 the information regarding matters of traffic calming, speeding traffic and the feasibility of Council taking over the control of traffic speeds (with the use of Multanovas) in the City of Wanneroo be received;
