<p>A 101 signature petition requesting that the Council complete the Marri Park Play Ground Precinct by the installation of shade sails over the play equipment and BBQs to further enhance the area.</p> <p>RIS02774</p>	<p>11 December 2012</p>	<p>Completed</p>	<p><u>Update as at August 2013</u></p> <p>A report was presented to Council at its meeting held on 25 June 2013. (CJ104-06/13 refers).</p> <p><u>Update as at February 2013</u></p> <p>It is anticipated that a report will be presented to Council at its meeting to be held on 16 April 2013.</p>

Petition details	Date of presentation to Council	Status	Comment
<p>A 41 signature petition requesting the removal of the 13 metre light poles installed within the small roundabout at the intersection of Iluka Avenue and Oceanside Promenade, Mullaloo.</p> <p>RIS02962</p>	19 March 2013	Completed	<p><u>Update as at August 2013</u></p> <p>A report was presented to Council at its meeting held on 25 June 2013. (CJ096-06/13 refers).</p> <p><u>Update as at May 2013</u></p> <p>The existing street lights on Oceanside Promenade have been maintained for the majority of the road upgrades works between Mullaloo Drive and Warren Way. To further enhance the traffic treatments for night time operations, four 12.5m streetlights were installed by Western Power within the central roundabout island at the intersection with Iluka Avenue in early January 2013.</p> <p>Upon review and at the City's request, Western Power removed two of the streetlight poles to reduce the number of structures within the central island. The two remaining streetlights are considered appropriate for the operation of the single land roundabout and have been located outside potential roundabout vehicle conflict points and road clear zones for the 50km/h speed environment. With the focus on road safety, Western Power has also confirmed that the street light poles installed within the central island are classified as frangible and are designed to be impact absorbing.</p> <p>The single Norfolk Island Pine has been planted within the central island to highlight the presence of the roundabout especially during night time operations and low visibility situations. The tree planting is consistent with many other roundabouts within the City and has previously been included as part of the Oceanside Promenade concept plan of May 2011. The Norfolk Island Pine is also considered the preferred species for the area and is consistent with similar tree species in Tom Simpson Park. The pine tree foliage is conical in shape and sparse in nature and when mature would limit any negative impact on residents' ocean views.</p>
