CITY OF JOONDALUP

FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2016

LOCAL GOVERNMENT ACT 1995 LOCAL GOVERNMENT (FINANCIAL MANAGEMENT) REGULATIONS 1996

STATEMENT BY CHIEF EXECUTIVE OFFICER

The attached financial report of the City of Joondalup being the annual financial report and supporting notes and other information for the financial year ended 30 June 2016 are in my opinion properly drawn up to present fairly the financial position of the City of Joondalup at 30 June 2016 and the results of the operations for the financial year then ended in accordance with the Australian Accounting Standards and comply with the provisions of the Local Government Act 1995 and the regulations under that Act.

Signed on the 14th day of October 2016.

Garry Hunt Chief Executive Officer

CITY OF JOONDALUP

This Financial Report is a general purpose financial report that consists of Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of Cash Flows, Rate Setting Statement and notes accompanying these financial statements.

1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted in the preparation of the financial report are:

(a) Basis of Accounting

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), other mandatory professional reporting requirements and the Local Government Act 1995 (as amended) and accompanying regulations (as amended).

The report has been prepared on the accrual basis under the convention of historical cost accounting as modified by the accounting treatment relating to the revaluation of financial assets and liabilities at fair value through profit and loss and certain classes of non-current assets, except where explicitly presented on a cash basis to report cash flow.

(b) The Local Government Reporting Entity

The financial statements forming part of this report have been prepared on the basis of a single consolidated fund (Municipal Fund). Monies held in Trust, of which the City has legal custody but is unable to deploy for its purposes, have been excluded from the consolidated financial statements and the cash position at the reporting date.

(c) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables in the Balance Sheet are stated inclusive of applicable GST.

The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as part of current assets or current liabilities, as the case may be.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flow.

(d) Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank, cash on hand and other short-term deposits which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, including bank overdrafts which form an integral part of the City's cash management, and are repayable on demand.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Trade and Other Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost for material uncollectible amounts using the effective interest rate method, less any allowance.

Collectability of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they may not be collectible.

(f) Inventories

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventories comprise consumables held for the City's operations.

(g) Acquisition of Assets

Assets acquired during the year are recorded at the cost of acquisition, being the purchase consideration determined as at the date of acquisition plus costs incidental to the acquisition, subject to a capitalisation threshold applied to specific classes of assets as follows:

Furniture	\$5,000
Office Equipment	\$5,000
Motor Vehicle	\$5,000
Plant & Equipment	\$5,000
Computer Equipment	\$5,000
Computer Software	\$20,000

All other classes of assets are capitalised, regardless of the initial cost of acquisition.

In the event that settlement of all or part of the cash consideration given in the acquisition of an asset is deferred, the fair value of the purchase consideration is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

(h) Property, Plant and Equipment

Recognition

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework prescribed by the Local Government (Financial Management) Regulations 1996. Property, plant and equipments are carried at fair value. Additions since the date of valuation are shown at cost and depreciated and it is considered that for those additions, cost less accumulated depreciation approximates their fair value. Items of property, plant and equipment, including buildings but excluding freehold land and artworks, are depreciated over their estimated useful lives on a straight-line basis. Depreciation has been charged to the Statement of Comprehensive Income. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Property, Plant and Equipment (Continued)

Revaluation

All asset classes are revalued on a regular basis such that the carrying values are not materially different from their fair value. Those assets carried at a revalued amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are revalued with sufficient regularity to ensure that the carrying amount does not differ significantly from that determined using fair value at the reporting date. Local Government (Financial Management) Regulations 1996 mandating the use of Fair Value impose a further minimum requirement that all assets carried at a revalued amount will be revalued at least every 3 years.

(i) Infrastructure Assets

Recognition

Reserves and Engineering infrastructure assets acquired prior to 30 June 1997 were brought to account as non-current assets at their estimated depreciated replacement cost at that time (deemed cost). Additions subsequent to 30 June 1997 are recorded at cost. All infrastructure assets are revalued in accordance with the mandatory measurement framework prescribed by the Local Government (Financial Management) Regulations 1996 and are carried at their fair value. Infrastructure assets acquired by the City from contributions by developers are recorded as additions to assets and the income recorded in the Statement of Comprehensive Income.

Infrastructure assets acquired and constructed during the year are depreciated over their estimated useful lives on a straight-line basis from the commencement of the following financial year.

Revaluation

All infrastructure asset classes are revalued on a regular basis such that the carrying values are not materially different from their fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on a basis to reflect the already consumed or expired future economic benefits. All additions after the date of valuation are shown at cost less accumulated depreciation, where applicable, and it is considered that in those cases their carrying costs approximates the fair value. Depreciation has been charged to the Statement of Comprehensive Income.

Those assets carried at a revalued amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are revalued with sufficient regularity to ensure the carrying amount does not differ significantly from that determined using fair value at reporting date. Local Government (Financial Management) Regulations 1996 mandating the use of Fair Value impose a further minimum requirement that all assets carried at a revalued amount will be revalued at least every 3 years.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Infrastructure Assets (Continued)

Land under Roads

Council has elected not to recognise the value of land under roads acquired before 1 July 2008 in accordance with AASB 1051. In addition, the City of Joondalup is required by Regulation 16 of the Local Government (Financial Management) Regulations 1996 not to recognise a value for land under roads.

(j) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are separately and systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Depreciation rates are:

Property, Plant & Equipment

Freehold Land	Nil	Artwork	Nil
Light Vehicles	7.50%	Buildings	1.0%-10.0%

Certain infrastructure assets listed above include various components with each component depreciated separately.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k) Financial Assets

Classification

The City classifies its financial assets in the categories 'Loans and Receivables', as defined in AASB 139 Financial Instruments Recognition and Measurement, and 'Cash and Cash Equivalents'. The classification reflects the purpose for which the assets were acquired. Management determines the classification of its financial assets at initial recognition.

Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as noncurrent assets. Receivables are included in trade and other receivables in the balance sheet.

Recognition and derecognition

The City recognises its financial assets on the date that the City's right to receive cash flows from these assets has been established. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the City has transferred substantially all the risks and rewards of ownership.

(I) Estimation of Fair Value

The fair value of financial assets and financial liabilities is estimated for recognition and measurement. The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the City for similar financial instruments.

(m) Impairment

In accordance with Australian Accounting Standards the City's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired. Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 'Impairment of Assets' and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or its cashgenerating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Comprehensive Income.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Impairment (Continued)

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

(n) Trade and Other Payables

Trade and other payables are recognised when the City becomes obliged to make future payments resulting from the purchase of goods and services. The amounts are unsecured and are generally settled within 30 days of recognition.

(o) Employee Benefits

The provisions for employee benefits relate to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the City has a present obligation to pay resulting from employees' services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates expected to apply at the time of settlement and includes related on-costs.

(ii) Long Service Leave (Long-term Benefits)

Provisions made in respect of long service leave which is not expected to be settled within 12 months is measured at the present value of the estimated future cash outflows to be made by the City in respect of services provided by employees up to the reporting date.

(p) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. The City currently has fixed-interest borrowings that are settled by fixed payments over the term of the loans. The actual outstanding balances on these loans approximate to the amortised cost of the unpaid loan liabilities.

Borrowings are classified as current liabilities unless the City has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred.

(q) Provisions

Provisions are recognised when the City has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Provisions (Continued)

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

(r) Leases

City do not own any assets under finance leases. Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(s) Rates

The rating and reporting periods coincide. All rates levied for the year are recognised as revenues. All outstanding rates are fully collectable and therefore no allowance has been made for doubtful debts. In accordance with the Rates and Charges (Rebates and Deferments) Act 1992, the City offers eligible pensioners the option to defer the payment of rates or to obtain a rebate from the Western Australian State Government. All eligible pensioners registered under the Rates & Charges (Rebates and Deferments) Act 1992 may obtain a rebate or defer their rates for full payment upon sale of their property. Pensioners who hold a Commonwealth Concession Card and a Pensioner Health Benefit Card, a State Concession Card, Seniors Card or a Commonwealth Seniors Health Card can apply to be eligible for this State scheme. There is no cost to the City under this scheme as interest is received from the State Government for pensioner deferred rates.

(t) Grants, Donations and Other Contributions

All grants, donations and other contributions in respect of which the City is not required to make a reciprocal transfer of economic benefits are recognised as revenue when the City obtains control over the assets comprising the contribution.

After being recognised as revenue, conditional grants and contributions are recognised as an expense and liability when the City fails to meet the specific conditions attached to a grant or contribution and becomes liable for its re-payment or refund.

Capital grants unspent are treated as restricted assets and are deducted from the available funds in the determination of the Opening and Closing Funds for the purpose of the Rate Setting Statement.

(u) Superannuation

The City of Joondalup makes statutory contributions to the WA Local Government Superannuation Plan and other Funds as nominated by its employees. The expense related to these contributions is recognised in the Statement of Comprehensive Income.

(v) Works in Progress

Major buildings, reserves and infrastructure or other assets which have not been completed at the reporting date have been recorded as works in progress.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(w) Rounding Off Figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar.

(x) Comparative Figures

Where required, comparative figures have been adjusted to conform to changes in presentation for the current financial year (Refer Note 36).

(y) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on City's intentions to release for sale.

(z) Crown Land

In accordance with Regulation 16 of the Local Government (Financial Management) Regulations 1996 and current accounting standards Crown land set aside as a public road reserve or other public thoroughfare or under the control of a local government under Section 3.53 of the Local Government Act 1995 or vested Crown land under the control of a local government by virtue of the operation of the Land Act or the Town Planning and Development Act has not been brought to account as an asset of the City. Improvements or structures placed upon such land have been accounted for as assets of the City.

(za) Critical Accounting Estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of this experience and other factors combine to form the basis of making judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

(zb) New Accounting Standards and Interpretations

At the date of authorisation of this financial report, there were a number of Standards and Interpretations that were issued but not yet effective. These have not been adopted for the reporting period ended 30 June 2016, and the City's assessment of these new standards and interpretations are provided below.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued) New Accounting Standards and Interpretations (continued)			
Title	Issued / Compiled	Applicable	Impact
(i) AASB 9 Financial Instruments (incorporating AASB 2014-7 and AASB 2014-8)	December 2014	1 January 2018	Nil – The objective of this Standard is to improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. Given the nature of the financial assets of the City, it is not anticipated the Standard will have any material effect.
(ii) AASB 15 Revenue from Contracts with Customers	December 2014	1 January 2017	This Standard establishes principles for entities to apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows from a contract with a customer.
(iii) AASB 16 Leases	February 2016	1 January 2019	Under AASB 16 there is no longer a distinction between finance and operating leases. Lessees will now bring to account a right-to-use asset and lease liability onto their statement of financial position for all leases. Effectively this means the vast majority of operating leases as defined by the current AASB 117 Leases which currently do not impact the statement of financial position once AASB 16 is adopted. Currently, operating lease payments are expensed as incurred. This will cease and will be replaced by both depreciation and interest charges. Based on the current number of operating leases held by the City, the impact is not expected to be significant.
(iv) AASB 2014-3 Amendments to Australian Accounting Standards - Accounting for Acquisitions of Interests in Joint Operations[AASB 1 & AASB 11]	August 2014	1 January 2016	This Standard amends AASB 11: Joint Arrangements to require the acquirer of an interest (both initial and additional) in a joint operation in which the activity constitutes a business, as defined in AASB 3:Business Combinations, to apply all of the principles on business combinations accounting in AASB 3 and other Australian Accounting Standards except for those principles that conflict with the guidance in AASB 11; and disclose the information required by AASB 3 and other Australian Accounting Standards for business combinations. Since adoption of this Standard would impact only acquisitions of interests in joint operations on or after 1 January 2016, management believes it is impracticable at this stage to provide a reasonable estimate of such impact on the City's financial statements.

1. SIGNIFICANT ACC New Accounting Sta			
Title	Issued / Compiled		Impact
(v) AASB 2014-4 Amendments to Australian Accounting Standards - Clarification of Acceptable Methods of Depreciation and Amortisation[AASB 116 & 138]	August 2014	1 January 2016	This Standard amends AASB 116 and AASB 138 to establish the principle for the basis of depreciation and amortisation as being the expected pattern of consumption of the future economic benefits of an asset. It also clarifies the use of revenue-based methods to calculate the depreciation of an asset is not appropriate nor is consumption of the economic benefits embodied in an intangible asset. Given the City currently uses the expected pattern of consumption of the future economic benefits of an asset as the basis of calculation of depreciation, it is not expected to have a significant impact.
(vi) AASB 2014-5 Amendments to Australian Accounting Standards arising from AASB 15	December 2014	1 January 2017	Consequential changes to various Standards arising from the it will require changes to reflect the impact of AASB 15.
(vii) AASB 2015-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to [AASB 7, 101, 134 & 1049]	January 2015	1 January 2016	This Standard amends AASB 101 to provide clarification regarding the disclosure requirements in AASB 101. Specifically, the Standard proposes narrow-focus amendments to address some of the concerns expressed about existing presentation and disclosure requirements and to ensure entities are able to use judgement disclose in their financial statements. This Standard also makes editorial and consequential amendments as a result of amendments to the Standards listed in the title column. It is not anticipated it will have any significant impact on disclosures as they currently exist and any changes will relate to presentation.
(viii) AASB 2015-6 Amendments to Australian Accounting Standards -	March 2015	1 July 2016	Related Party Disclosures to include not-for-profit sector entities. The objective of this Standard is to extend the scope of AASB 124 Related Party Disclosures to include not-for-profit sector entities. The Standard is expected to have a significant disclosure impact on the financial report of the City as both Elected Members and Senior Management will be deemed to be Key Management Personnel and resultant disclosures will be

Title	Issued / Compiled	Applicable	Impact
Extending Related Party Disclosures to Not-for-Profit Public Sector Entities[AASB 10, 124 & 1049]			necessary.
			unting Standards arising from the withdrawal of AASB 1031 Materiality punting Standards - Fair Value Disclosures of Not-for-Profit Public Sector Entities

2. PROGRAM ACTIVITIES

Statements of Comprehensive Income have been provided by program and by nature. Broad definitions of each program are as follows:

(a) Governance

Governance relates to elected members costs and other costs that relate to the tasks of assisting elected members and ratepayers on matters which do not concern specific City services.

(b) General Purpose Funding

Rates income and expenditure, Grants Commission and pensioner deferred rates interest.

(c) Law, Order and Public Safety

Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety.

(d) Health

Prevention and treatment of human illnesses, including inspection of premises/food control, immunisation and child health services.

(e) Education and Welfare

Provision, management and support services for families, children and the aged and disabled within the community, including pre-school playgroups, day and after school care, assistance to schools and senior citizens support groups. Provision of aged persons units and resident funded units

(f) Housing

Provision of housing and leased accommodation where the City acts as landlord.

(g) Community Amenities

Town planning and development, rubbish collection services, stormwater drainage, the provision of public conveniences, bus shelters, roadside furniture and litter control.

(h) Recreation and Culture

Provision of facilities and support for organisations concerned with leisure time activities and sport, support for the performing and creative arts. This includes maintenance of halls, aquatic centres, recreation and community centres, parks, gardens, sports grounds and the operation of libraries.

2. PROGRAM ACTIVITIES (Continued)

(i) Transport

Construction, maintenance and cleaning of streets, roads, bridges, drainage works, footpaths, parking facilities, traffic signs and the City works operation centre, including development, plant purchase and maintenance.

(j) Economic Services

Rural services, pest control and the implementation of building controls.

(k) Other Property and Services

Public works overheads, plant/vehicle operations, sundry and other outlays that cannot be assigned to one of the preceding programs.

3. RATING AND VALUATIONS

(a) Gross Rental Values

The Western Australian Land Information Authority (Landgate) conducts a Triennial Valuation which provides the City with both Gross Rental Values (GRV) and Unimproved Values (UV) for the purpose of calculating Rates. For the vast majority of properties, the values supplied were effective from 1 July 2014 and will continue for 3 years from that date.

(b) Differential Rates

The City of Joondalup has applied differential rates as empowered under Section 6.33 of the Local Government Act 1995. The differential rates are levied on all rateable land within the City according to the predominant purpose for which the land is held or used. Should the predominant land use forming the basis for the imposition of the differential rates change during the year, the City is not required to amend the assessment of rates payable on that land on account of that change.

The rates are set at differential levels that provide, as far as is practically possible, a fair and equitable distribution of the rate burden to each category of land having regard to its demands on the City's services.

None of the differential rates are more than twice the lowest differential rate as applied in the financial year ended 30 June 2016.

The objects and reasons for the imposition of each differential rate are:

Object

The rates-in-the-dollar (\$) are calculated to provide the shortfall in income required to enable the City to provide necessary works and services in the 2015-16 financial year after taking into account all non-rate sources of income.

3. RATING AND VALUATIONS (Continued)

Reason – Gross Rental Value Based Differential Rates

Residential Improved – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from residential property remains consistent with previous years.

Residential Vacant - the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from residential property remains consistent with previous years and is higher than residential improved property to recognise the different valuation method and in an effort to promote development of this category of property thereby stimulating growth and development in the community.

Commercial Improved – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from commercial property remains consistent with previous years and recognises the higher demand on City infrastructure and services from the activity on commercial property.

Commercial Vacant – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from commercial property remains consistent with previous years and is higher than commercial improved property in an effort to promote development of this category of property thereby stimulating growth and development in the community.

Industrial Improved – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from industrial property remains consistent with previous years and recognises the higher demand on City infrastructure and services from the activity on industrial property.

Industrial Vacant – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from industrial property remains consistent with previous years and is higher than industrial improved property in an effort to promote development of this category of property thereby stimulating growth and development in the community.

Reason – Unimproved Value Based Differential Rates

Residential – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from residential property remains consistent with previous years.

Rural – the rate in the dollar has been set to ensure that the proportion of total rate revenue derived from rural property remains consistent with previous years.

(c) Minimum Payments

A minimum payment of \$828 is applied to GRV residential improved and not improved and UV residential and rural rate categories in recognition that every property receives some minimum level of benefit from works and services provided.

A minimum payment of \$846 is applied to GRV commercial and industrial both improved and not improved rate categories in recognition that every property receives some minimum level of benefit from works and services provided and the higher minimum compared to other rate categories recognises the higher demand on City infrastructure and services from the activity on commercial and industrial property.

(d) Concessions and waivers

No concessions were provided for in the 2015-16 financial year.

3. RATING AND VALUATIONS (Continued)

(e) Rates Early Payment Incentive Scheme

Council, in accordance with the provisions of Section 6.46 of the Local Government Act 1995, offered the following early payment incentives for the payment of rates and charges:

- Full payment of all current and arrears of rates (including specified area rates), Emergency Services Levy, domestic refuse charge and private swimming pool inspection fees within 28 days of the issue date on the annual rate notice:
- Eligibility to enter the early payment incentive draw which included a range of prizes sponsored by a number of organisations and thus at no cost to the City, as well as a vehicle purchased by the City.
- A pool of prize winners was chosen by a computerised random selection process, the integrity of which has been authenticated by the City's internal auditor. The winners were invited to attend a prize draw function during which the prizes were allocated in a secondary draw process.

The total cost of the rates early payment incentives was as follows:

2016	2016	2015
Actual	Budget	Actual
\$	\$	\$
39,934	40,000	31,194
39,934	40,000	31,194
	Actual \$	Actual Budget \$ \$ 39,934 40,000

(f) Rates Payment Options

The City, in accordance with the provisions of Section 6.45 of the Local Government Act 1995, offered the following payment options for the payment of rates (including specified area rates), Emergency Services Levy, domestic refuse charges, private swimming pool inspection fees and property surveillance & security charge.

• One Instalment

Payment in full within 28 days of the issue date of the annual rate notice and eligibility to enter the rates incentive scheme for prizes.

Payment in full within 35 days of the issue date of the annual rate notice.

• Two Instalments

The first instalment of 50% of the total current rates (including specified area rates), domestic refuse charge, private swimming pool inspection fee, instalment charge, plus the total outstanding arrears payable within 35 days of date of issue of the annual rate notice.

3. RATING AND VALUATIONS (Continued)

The second instalment of 50% of the total current rates (including specified area rates), Emergency Services Levy, domestic refuse charge, private swimming pool inspection fee, instalment charge, payable 63 days after due date of first rate instalment.

• Four Instalments

The first instalment of 25% of the total current rates (including specified area rates), Emergency Services Levy, domestic refuse charge, private swimming pool inspection fee, instalment charge plus the outstanding arrears payable within 35 days of the issue of the annual rate notice.

The second, third and fourth instalment, each of 25% of the total current rates (including specified area rates), Emergency Services Levy, domestic refuse charge, private swimming pool inspection fee, instalment charge payable as follows:

- 2nd instalment 63 days after due date of 1st instalment
- 3rd instalment 63 days after due date of 2nd instalment
- 4th instalment 63 days after due date of 3rd instalment

Instalment Charges and Interest

The instalment options were subject to an administration fee of \$12.00 for each of instalments two, three and four, together with an interest charge at 5.5% per annum, calculated on a simple interest basis on the unpaid balance of rates and refuse charges.

Special Payment Arrangements

Special monthly or fortnightly payment arrangements were made with the City for those ratepayers who were unable to pay in full or according to the instalment plans offered. An administration fee of \$34.00 per assessment was charged on all payment arrangements paid by Direct Debit (bank account only) or \$52.00 if paid by another method. Penalty interest of 11.00% pa was applied to the outstanding balance until the account was paid in full.

Details of interest and administrative charges on rates were as follows:-

	2016	2016	2015
	Actual	Budget	Actual
	\$	\$	\$
Interest on Outstanding Rates	638,919	650,800	674,207
Instalment Administration Charges	615,982	623,600	616,413
	1,254,901	1,274,400	1,290,620

Ratepayers had the option of paying rates in four equal instalments, due on 21 August 2015, 23 October 2015, 25 December 2015 and 26 February 2016. An administration fee of \$12 and interest of 5.5% per annum applied for the final three instalments. Rates not paid by due date or by instalment incurred a penalty interest of 11.00% on outstanding amounts.

(g) Late Payment Interest

The Council, in accordance with the provisions of Section 6.13 and Section 6.51 of the Local Government Act 1995, imposed interest on all current and arrears general rates (including specified area rate), current and arrears domestic refuse charges, current and arrears

3. RATING AND VALUATIONS (Continued)

(g) Late Payment Interest (Continued)

private swimming pool inspection fees and arrears property surveillance & security charge at a rate of 11.00% per annum, calculated on a simple interest basis on arrears amounts that remain unpaid and current amounts that remain unpaid 35 days from the issue date of the original rate notice, or the due date of the instalment and continues until the instalment is paid. Excluded are deferred rates, instalment amounts not due under the four-payment option, registered pensioner portions and current government pensioner rebate amounts. Such interest was charged once per month on the outstanding balance on the day of calculation for the number of days as previously detailed.

(h) Emergency Services Levy Interest Charged

In accordance with the provisions of section 36S of the Fire and Emergency Services Authority of Western Australia Act 1998, the City imposed interest on all current and arrears amounts of emergency services levy at a rate of 11.00% per annum, calculated on a simple interest basis, on amounts which remain unpaid after 35 days from the issue date of the original rate notice, or the due date of the instalment, and continues until the instalment is paid. Excluded are instalment current amounts not yet due under the two or four-payment option, registered pensioner and current government pensioner rebate amounts. Such interest is charged once per month on the outstanding balance on the day of calculation for the number of days.

(i) Emergency Services Remittance Option B

The City elected to remit the current year Emergency Services Levy to the Department of Fire and Emergency Services (DFES) under Option B. Under Option B the City acquired the current year ESL when the annual rates were levied. The City remitted the ESL to DFES in quarterly payments – September 2015 (30%), December 2015 (30%), March 2016 (30%) and June 2016 (10%). The City invests the Emergency Services Levy receipts as part of its municipal funds investments. The ESL levies received and the ESL liability to DFES are reflected in the City's Balance Sheet and the cash flow impacts are included in the Cash Flow Statement.

(j) Domestic Refuse Charges

The Council, BY AN ABSOLUTE MAJORITY in accordance with the provisions of the Waste Avoidance and Resource Recovery Act 2007 imposed the following domestic refuse charges for the 2015-16 financial year, including a charge for a recycling service to be provided to all ratepayers:

- \$346.00 per existing unit serviced, and
- Collection from within the property boundary: Additional cost \$56.00 (inclusive of GST).
- New service \$346.00 plus cost of bin and bin delivery \$66.00 (inclusive of GST).

(k) Private Swimming Pool Inspection Fees

The Council, in accordance with the provisions of the Building Act 2011 imposed for the 2015-2016 financial year, a Private Swimming Pool Inspection Fee of \$34.43 on those properties owning a private swimming pool.

3. RATING AND VALUATIONS (Continued)

(I) Specified Area Rating Iluka

The Council, BY AN ABSOLUTE MAJORITY in accordance with the provisions of Section 6.32 and 6.37 of the Local Government Act 1995 imposed for the 2015-16 financial year, a specified area rate for the area of Iluka for maintaining enhanced landscaping services.

A rate in the dollar of 0.49046¢ was charged on the Gross Rental Value on each property with a total rateable value which levied income of \$280,881.43.

(m) Specified Area Rating Woodvale Waters

The Council, BY AN ABSOLUTE MAJORITY in accordance with the provisions of Section 6.32 and 6.37 of the Local Government Act 1995 imposed for the 2015-16 financial year, a specified area rate for the area of Woodvale Waters for maintaining enhanced landscaping services.

A rate in the dollar of 0.53238¢ was charged on the Gross Rental Value on each property with a total rateable value which levied income of \$19,815.38

(n) Specified Area Rating Harbour Rise

The Council, BY AN ABSOLUTE MAJORITY in accordance with the provisions of Section 6.32 and 6.37 of the Local Government Act 1995 imposed for the 2015-16 financial year, a specified area rate for the area of Harbour Rise for maintaining enhanced landscaping services.

A rate in the dollar of 0.53069¢ was charged on the Gross Rental Value on each property with a total rateable value which levied income of \$115,271.19.

(o) Write Off of Rates and Charges

The total value of rates and charges from previous years written off during the year was \$10,456.00 (2015 - \$11,284.00).

(p) Schedule of Valuations and Rate Revenue

The schedule of valuations and rate revenue is shown on the Statement of Rating Information included in this report.

Local Government House	29,616	29,616
	8,861,001	8,628,975

• The Mindarie Regional Council (MRC), of which the City is an equity holder, has developed a Resource Recovery Facility (RRF). In this process, the MRC borrowed \$3.5m to acquire the land on which the RRF has been developed. Due to the time lag between the loan repayment and the RRF operation and charges, the MRC Council approved that its equity holders be charged for the repayment obligations under the land purchase loan. The methodology adopted for this charge was to treat the interest component of the repayment amount as an additional expense in substitution of an increase in the gate fee chargeable and to treat the principal repayment component as an additional equity contribution to the capital of the MRC.

9. EQUITY CONTRIBUTIONS IN OTHER UNLISTED ENTITIES (Continued)

The Tamala Park Regional Council (TPRC) was established in January 2006 for the purpose of the development of the Tamala Park land jointly owned by seven local governments, including the City of Joondalup, which has one-sixth equity in the land. The West Australia Planning Commission (WAPC) requested that a portion of this land be retained as "Bush Forever", which the Commission was prepared to acquire and pay for. The "Bush Forever" land was disposed of by the joint owners to the WAPC in November 2006. The City of Joondalup's share of the proceeds of disposal was \$2,703,573 which was subsequently contributed to the TPRC as equity investment to be used for TPRC purposes.

The current fair value of equity is estimated at \$8,202,933. TPRC had subdivided and sold 137 lots measuring an area of 41,465m² of land during the year with a total sales value of \$38,539,493. The City's share of sales proceeds after deducting development and selling costs was \$3,214,137. The City made a profit of \$2,730,383 from the sale of land.

The City has received the audited financial statements of Tamala Park Regional Council for the year ended 30 June 2016. The City's share of Net Result of operations of Tamala Park Regional Council was \$83,114. This amount was credited to the Statement of Comprehensive Income in accordance with the equity method of accounting.

The City's interest in other unlisted entities has been recognised in the financial statements at cost of contributed equity.

10. PROPERTY, PLANT & EQUIPMENT (Continued)

(a) Valuation of Property, Plant and Equipment:

AASB 13 Fair Value Measurement sets out the framework for measurement of fair value. This Standard requires fair value to be measured according to the following hierarchy.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The City's buildings were revalued at 30 June 2016 by management. All the buildings were classified under the 'Current Use' type assets, which cannot be traded in the open market. These assets were valued on the basis of their existing use, utilising the cost approach with both observable and unobservable inputs. The designated fair value hierarchy level of inputs for current use (non-market) type assets is Level 3.

The revaluation resulted in an overall increase of \$36,941,250 in the net value of the City's buildings. This increase in net value has been credited directly to the Revaluation Reserve in Equity.

As per the statutory requirement of regulation 17A of the Local Government (Financial Management) Regulations 1996 the City has revalued its Plant and Equipment as at 30 June 2016. Valuation of the City's fleet of motor vehicles was done by the management based on market-based evidence by appraisal and the valuation was completed using depreciated replacement cost (Level 3 inputs in the fair value measurement hierarchy as set out in AASB 13 Fair Value Measurement). Management assessed that for other items of plant and equipment, which do not have any observable market value, the carrying value of those items materially reflected their fair value as at 30 June 2016.

10. PROPERTY, PLANT & EQUIPMENT (Continued)

(b) Historical details of Property, Plant and Equipment Fair Value Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of last valuation	Inputs Used
Land - Freehold	2	Market approach using recent observable market data for similar properties	Independent registered valuer	June 2013	Price per hectare
Buildings	3	Improvements to land valued using cost approach using depreciated replacement cost	Management valuation	June 2016	Improvements to land using construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3) inputs
Easements	3	Cost approach	Management valuation	June 2013	Unit count (Level 3)
Artworks	3	Valuer inspection and appraisal	Independent registered valuer	June 2015	Market based evidence, Current Replacement Cost (Level 3)
Furniture, Computer Equipments and Computer	3	Cost approach using depreciated replacement cost	Management valuation	June 2015	Purchase costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3) inputs
Fleet, Plant and Equipment	3	Cost approach using depreciated replacement cost	Management valuation	June 2016	Purchase costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3) inputs

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the City to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs.

11. INFRASTRUCTURE ASSETS

Movement in Carrying Amounts

The following represents the movement in the carrying amounts of each class of Infrastructure Assets between the beginning and the end of the current financial year.

11. INFRASTRUCTURE ASSETS (Continued)

(a) Valuation of Infrastructure Assets:

As part of the implementation of an Integrated Asset Management System, the City has, during the year, brought all its infrastructure assets into an operating asset register integrated with its core financial system. The implementation process involved extensive analysis and review of existing repository data sets and inventory. The implementation process also involved reclassification of some of the asset classes to facilitate better control and more accurate reporting. This has resulted in a high level of confidence in the data relating to these assets.

The above implementation process required some changes in the value of some of the asset classes as reported in the financial statements for the year ended 30 June 2015. The resultant changes in opening balance of these asset classes (Net increase in opening infrastructure asset value of \$9,851,434) are shown in Note 11 under separate headings 'Classification adjustments' and 'other adjustments' to reflect the true nature of these changes. The corresponding changes for these adjustments are debited/credited to the respective Revaluation Reserves in Equity. The valuation methodology and assumptions used in the valuation of those assets involved are the same as were used for the assets in the same class to which they were moved to when those asset classes were earlier revalued.

AASB 13 Fair Value Measurement sets out the framework for measurement of fair value. This Standard requires fair value to be measured according to the following hierarchy.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Other than the adjustments made to the Revaluation Reserves as noted above, the City has not revalued any of its infrastructure assets during the year.

11. INFRASTRUCTURE ASSETS (Continued)

(b) Historical details of Infrastructure Assets Fair Value Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of last valuation	Inputs Used
Roads	3	Cost approach using depreciated replacement cost	Management valuation	June 2014	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Footpaths	3	Cost approach using depreciated replacement cost	Management valuation	June 2014	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Car Park	3	Cost approach using depreciated replacement cost	Management valuation	June 2014	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Drainage	3	Cost approach using depreciated replacement cost	Management valuation	June 2014	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Bridges and Underpasses	3	Cost approach using depreciated replacement cost	Independent valuation	June 2014	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Parks and Reserves	3	Cost approach using depreciated replacement cost	Management valuation	June 2015	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Lighting	3	Cost approach using depreciated replacement cost	Management valuation	June 2015	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)
Other Infrastructure Assets	3	Cost approach using depreciated replacement cost	Management valuation	June 2015	Construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3)

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the City to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs.

12. TRADE AND OTHER PAYABLES	Note	2016 \$	2015 \$
Current			
Trade Payables		3,264,140	3,310,018
Sundry Payables		540,402	416,785
Accrued Expenses		5,061,026	7,155,658
Other Payables		1,946,216	1,920,608
		10,811,784	12,803,069

13. BORROWINGS

Current - Loan Borrowings		2,126,295	1,823,565
Non-Current Loan Borrowings		12,155,655	12,512,950
Total Borrowings	23(a)	14,281,950	14,336,515

Current loan borrowings represent the current portion of existing long-term liabilities as detailed in Note 23.

The City does not include outstanding bank overdraft balances as current borrowings, as overdrafts represent a normal banking arrangement and are included as part of cash and cash equivalents.

14. PROVISIONS	2016	2015

15. RESERVES – CASH BACKED

	2016 Actual \$	2016 Budget \$	2015 Actual \$
(a) Non-Current Long Service Leave			
Opening Balance	1,845,280	2,203,126	2,083,126
Amount Set Aside / Transfer to Reserve	-	125,000	-
Amount Used / Transfer from Reserve	(215,444)	-	(237,846)
	1,629,836	2,328,126	1,845,280

Created in 2012-13 to facilitate the funding of the non-current portion of long service leave liabilities to City employees.

(b) Capital Expenditure Carried Forward Reserve			
Opening Balance	7,753,319	3,227,638	2,651,824
Amount Set Aside / Transfer to Reserve	4,992,179	-	7,650,788
Amount Used / Transfer from Reserve	(6,841,992)	(3,062,810)	(2,549,293)
	5,903,506	164,828	7,753,319

Created in 2006-07 to hold unspent capital works funds carried forward to subsequent financial year(s). The transfer to accumulated surplus is to fund capital works previously carried forward.

(c) Cash in Lieu of Parking Reserve

- /				
	Opening Balance	1,207,832	1,205,780	1,166,052
	Amount Set Aside / Transfer to Reserve	172,923	34,117	41,780
	Amount Used / Transfer from Reserve	-	-	-
		1,380,755	1,239,897	1,207,832

Created in 1993-94 with funds previously held in the Trust Fund. Represents funds received from developers in lieu of providing car parking. Funds transferred from the reserve will be utilised to fund future car parking requirements. Funds transferred to the reserve from accumulated surplus includes interest.

(d)	Cash in Lieu of City Centre Parking Reserve			
	Opening Balance	-	-	646,740
	Amount Set Aside / Transfer to Reserve	-	-	-
	Amount Used / Transfer from Reserve	-		(646,740)
		-	-	-

Renamed in 2010-11 with an updated purpose. The reserve is to hold funds received from developers as cash in lieu of providing car parking for developments within the Joondalup City Centre, and is to be used to fund future car parking requirements in the City Centre.

15. RESERVES – CASH BACKED (Continued)

	2016 Actual \$	2016 Budget \$	2015 Actual \$
(e) Joondalup Performing Arts and Cultural Faci	lity Reserve		
Opening Balance	11,327,438	11,257,320	11,084,101
Amount Set Aside / Transfer to Reserve	2,229,567	5,423,662	394,443
Amount Used / Transfer from Reserve	(1,298,021)	(1,609,489)	(151,106)
	12,258,984	15,071,493	11,327,438

Created in 2000-01 to assist with the design and development of a regional performing arts facility in the Joondalup City Centre. The reserve was renamed in 2005-06 and again in 2009-10 to more appropriately reflect its intent.

Transfer from accumulated surplus represents ithe net proceeds from the disposal of surplus land holdings and interest. The transfer to accumulated surplus was to fund the progression of the development of a Performing Arts and Cultural Facility, including the incorporation of a Jinan Garden at Lot 1001, Teakle Court.

(f) Marmion Car Park Reserve

Opening Balance	1,839,205	1,690,598	1,890,598
Amount Set Aside / Transfer to Reserve	29,554	-	65,645
Amount Used / Transfer from Reserve	(1,690,598)	(1,690,598)	(117,038)
	178,161	-	1,839,205

Created in 2013-14 to hold the State Government's contribution and the unspent portion of City of Joondalup funds for the future construction of a car park next to the Marmion Angling and Aquatic Club. The transfer from accumulated surplus represents interest and the transfer to accumulated surplus is to fund the car park construction project.

(g) Ocean Reef Marina Project Reserve

Opening Balance	161,701	468,938	656,671
Amount Set Aside / Transfer to Reserve	-	-	14,403
Amount Used / Transfer from Reserve	(161,701)	(468,938)	(509,373)
	-	-	161,701

Created in 1998-99. The City renamed this reserve in 2009-10 and updated its purpose to the planning, development and management of the Ocean Reef Marina Project. Transfer from reserve to accumulated surplus was to partly fund the progression of the Local Structure Plan and Business Case for the Ocean Reef Marina Development Project.

15. RESERVES – CASH BACKED (Continued)

	2016 Actual \$	2016 Budget \$	2015 Actual \$
(h) Parking Facility Reserve			
Opening Balance	5,046,252	3,106,594	6,798,791
Amount Set Aside / Transfer to Reserve	1,309,331	1,102,882	1,461,490
Amount Used / Transfer from Reserve	(5,112,601)	(3,059,304)	(3,214,029)
	1,242,982	1,150,172	5,046,252

Created in 2008-09 to hold the operating surpluses arising from paid parking in the Joondalup City Centre. The reserve is to be applied in the development and provision of facilities and services, both parking and non parking, in the Joondalup City Centre. The transfer from accumulated surplus represents the parking operating surplus and interest. Transfer to accumulated surplus is for partly funding the construction of Reid Promenade Multi Storey Car Park and to fund repayments on the \$8,500,000 loan taken in 2014-15 to construct the Multi Storey Car Park.

(i)	Public Art Reserve			
	Opening Balance	124,323	61,104	155,941
	Amount Set Aside / Transfer to Reserve	53,428	-	4,933
	Amount Used / Transfer from Reserve	(68,064)	(50,000)	(36,551)
		109,687	11,104	124,323

Created in 2012-13 for the purpose of providing for the commissioning and purchase of public art works. The transfer from Accumulated Surplus represents interest. Transfer to accumulated surplus was to fund the permanent installation of public art work in the City Centre.

(j) Section 20A Land Reserve

Opening Balance	50,494	50,408	48,747
Amount Set Aside / Transfer to Reserve	1,501	1,426	1,747
Amount Used / Transfer from Reserve	-	-	-
	51,995	51,834	50,494

Created in 1993-94 by the former City of Wanneroo to comply with the Department of Land Administration guidelines on the sale of unwanted Section 20A "Public Recreation' reserve land that requires that the proceeds be applied to capital improvements on other recreation reserves in the general locality. The transfer to the reserve represents interest.

15. RESERVES – CASH BACKED (Continued)

		2016 Actual \$	2016 Budget \$	2015 Actual \$
(k)	Specified Area Rating - Harbour Rise Reserve			
	Opening Balance	7,265	-	3,861
	Amount Set Aside / Transfer to Reserve	7,319	-	3,404
	Amount Used / Transfer from Reserve	-	-	-
		14,584	-	7,265

Created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Harbour Rise specified area. Transfer from accumulated surplus represents unspent funds levied during the year and interest.

(I) Specified Area Rating - Iluka Reserve			
Opening Balance	9,845	-	4,035
Amount Set Aside / Transfer to Reserve	723	-	5,810
Amount Used / Transfer from Reserve	-	-	-
	10,568	-	9,845

Created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Iluka specified area. Transfer from accumulated surplus represents unspent funds levied during the year and interest.

(m) Specified Area Rating - Woodvale Reserve

	51,461	51,772	50,174
Amount Used / Transfer from Reserve	(202)	-	(254)
Amount Set Aside / Transfer to Reserve	1,489	1,425	1,740
Opening Balance	50,174	50,347	48,688

Created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Woodvale specified area. Transfers from the reserve are to fund works undertaken in the specified area Woodvale. Transfer to reserve represents interest.

(n) Strategic Asset Management Reserve			
Opening Balance	21,784,045	21,678,720	20,005,617
Amount Set Aside / Transfer to Reserve	3,726,947	1,127,994	1,836,441
Amount Used / Transfer from Reserve	(3,611,877)	(8,019,298)	(58,013)
	21,899,115	14,787,416	21,784,045

The reserve was created in 2010-11 from the merger of the old Strategic Asset Management and Asset Replacement Reserves, and is intended to fund the acquisition and development of new and renewal of existing City infrastructure and building assets. The transfer from accumulated surplus represents funds transferred and interest.

15. RESERVES – CASH BACKED (Continued)

	2016 Actual \$	2016 Budget \$	2015 Actual \$
(o) Tamala Park Land Sales Reserve			
Opening Balance	7,019,586	7,012,050	1,699,465
Amount Set Aside / Transfer to Reserve	2,745,902	3,578,895	5,320,121
Amount Used / Transfer from Reserve	-	-	-
	9,765,488	10,590,945	7,019,586

This reserve was created in 2013-14 to hold the City's share of the dividends received from the proceeds of the sales of Tamala Park land to be held and subsequently applied for investing in income producing facilities, to build significant one-off community facilities and to assist with the cash flow requirements of developing significant infrastructure assets aligned to the 20 Year Strategic Financial Plan. The transfer from accumulated surplus represents dividends received and interest.

(p)	Vehicle, Plant and Equipment Reserve			
	Opening Balance	2,495,894	2,347,659	2,165,145
	Amount Set Aside / Transfer to Reserve	479,503	236,803	330,749
	Amount Used / Transfer from Reserve	-	-	-
		2,975,397	2,584,462	2,495,894

Created in 2008-09 by consolidating the Heavy Vehicle, Light Vehicle and Plant Replacement reserves with the purpose of supporting the funding of vehicle, plant and equipment purchases. The transfer from accumulated surplus represents surplus municipal funding of the fleet replacement program as recommended in the Fleet Asset Management Plan, and interest.

(q)	Waste Management Reserve			
	Opening Balance	4,958,142	3,629,566	2,762,646
	Amount Set Aside / Transfer to Reserve	2,910,239	387,085	2,195,496
	Amount Used / Transfer from Reserve	(198,161)	(283,000)	-
		7,670,220	3,733,651	4,958,142

Renamed in 2009-10 and its purpose updated. The reserve is to fund and support waste management services including but not limited to refuse collection, waste management initiatives and programs, infrastructure buildings and legal expenses associated with waste management but excluding vehicles, plant and equipment. Transfer from Accumulated Surplus represents the waste management services operating surplus and interest. The transfer to accumulated surplus was to partly fund the cost of Better Bins trial.

15. RESERVES – CASH BACKED (Continued)

		2016 Actual \$	2016 Budget \$	2015 Actual \$
Total Reserves - Cash Backed	Note			
Opening Balance		65,680,795	57,989,848	53,872,048

Balance adjustment relates to changes in the value of some of the infrastructure asset classes as reported in the financial statements for the year ended 30 June 2015. (Refer Note 11). These changes were made necessary due to reclassification of some infrastructure assets and other adjustments to asset values that were required in the process of implementation of the City's Integrated Asset Management System.

17. NOTES TO THE CASH FLOW STATEMENT

Reconciliation of Net Cash Provided by Operating Activities to Net Result

	2016 \$	2015 \$
Net Result from Operating Activities	(844,669)	1,916,828

Regional Council using Equity Method	(83,114)	(84,279)
Movement in Non-current items	11,318	(1,036)
Net Cash from Operating Activities	24,562,442	30,015,980

18. CONTINGENT LIABILITIES

At its meeting held on September 2007 Council resolved to acknowledge and accept the contingent liability resulting from the provision of an irrevocable financial guarantee on behalf of Mindarie Regional Council (MRC) for its contractual liability to the Contractor undertaking the development of the Resource Recovery Facility. The extent of the City's contingent liability is proportional and several (not joint and several) and is limited to 1/6 of any subsequent payment to the Contractor. The maximum amount that may be payable by the City under the Guarantee is 1/6 of \$88.2m amounting to \$14.7m. The term of the guarantee is 20 years unless the MRC liability under the agreement with the contractor is fully extinguished earlier.

19. COMMITMENTS FOR MAJOR EXPENDITURE AND OPERATING LEASES

		2016 \$	2015 \$
(a)	Capital Expenditure Commitments	·	·
	At the reporting date, the City is committed to the follo commitments which are due for payment within one	U D D	ture
	Major Expenditure Commitments	12,812,446	12,715,179
(b)	Projected Operating Lease Income		
	Future Minimum Lease Income Expected		
	Up to 1 yr	608,762	593,591

Other Specified Expenses	18,524	14,830	21,376
	764,974	747,115	705,547

29. MAJOR LAND TRANSACTIONS

(a) Reid Promenade Car Park.

The Council had approved the construction of a multi storey car park at the land owned by the City between Boas Avenue and Reid Promenade. The Project started in June 2014 and was completed in December 2015. The Project was partly funded by a bank loan of \$8,500,000 and the balance from Reserves.

Capital Expenditure as at 30 June 2016

Architects fee/ Consultancy costs	734,827
Additional land purchases and settlement costs	42,475
Quantity surveying costs	79,100
Design Costs	34,987
Project management costs	487,360
Construction Costs	15,290,928
Communication Infrastructure	80,812
Parking Machines	288,836
Administration costs	24,799
Total Expenditure	17,064,124

(b) Tamala Park Land Sales

The Tamala Park Regional Council (TPRC) was established in January 2006 for the purpose of the development of the Tamala Park land jointly owned by seven local governments, including the City of Joondalup. TPRC has developed and sold 748 lots of land to date. The City's share of Sales Proceeds of land to date is \$32,357,941.

Current year transactions:

Sale proceeds \$6,423,249

Development and Selling costs \$3,209,112

30. TRADING UNDERTAKINGS AND MAJOR TRADING UNDERTAKINGS

The City did not participate in any trading undertakings during the 2015-16 financial year.

31. FINANCIAL RISK MANAGEMENT

The City's activities expose it to a variety of financial risks including price risk, credit risk, liquidity risk and interest rate risk. The City's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the City. The City does not engage in any material transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance area under policies approved by the Council.

The City held the following financial instruments at balance date:

		Carrying Value Fair Va			/alue
	Note	2016	2015	2016	2015
		\$	\$	\$	\$
Financial Assets					
Cash and cash equivalents	7	86,595,746	89,170,901	86,595,746	89,170,901
Receivables	8	6,227,744	6,239,088	6,227,744	6,239,088
Equity Investments	9	8,861,001	8,628,975	8,861,001	8,628,975
		101,684,491	104,038,964	101,684,491	104,038,964
Financial Liabilities					
Payables	12	10,811,784	12,803,069	10,811,784	12,803,069
Borrowings	23 (a)	14,281,950	14,336,515	14,324,728	15,257,015
		25,093,734	27,139,584	25,136,512	28,060,084

Fair value is determined as follows:

Cash and Cash Equivalents, Receivables, Payables – estimated to the carrying value which approximates net market value.

Equity investments - estimated to the carrying value which approximates net realisable value.

Borrowings – estimated future cash flows discounted by the current market interest rates applicable to assets and liabilities with similar risk profiles.

31. FINANCIAL RISK MANAGEMENT (Continued)

(a) Cash and Cash Equivalents

The City's objective is to maximise its return on cash and cash equivalents whilst maintaining an adequate level of liquidity and preserving capital. The finance area manages the cash and investments portfolio with the assistance of independent advisers (where applicable). The City has an investment policy which is subject to review by Council. An Investment Report is provided to Council on a monthly basis setting out the make-up and performance of the portfolio.

Cash and investments are also subject to interest rate risk – the risk that movements in interest rates could affect returns.

Another risk associated with cash and cash equivalents is credit risk – the risk that a contracting entity will not complete its obligations under a financial instrument resulting in a financial loss to the City.

The City manages these risks by diversifying its portfolio and only places surplus cash with banking institutions with high credit ratings. The City may also seek advice from independent advisers (where applicable) before placing any cash and investments.

(b) Receivables

The City's major receivables comprise rates and annual charges and user charges and fees. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The City manages this risk by monitoring outstanding debt and employing debt recovery policies. It also encourages ratepayers to pay rates by the due date through various incentives.

Credit risk on rates and annual charges is minimised by the ability of the City to recover these debts as a secured charge over the land – that is, the land can be sold to recover the debt. The City is also able to charge interest on overdue rates and annual charges at higher than market rates, which further encourages payment.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

The City makes suitable provision for doubtful receivables as required and carries out credit checks on most non-rate debtors.

There are no material receivables that have been subject to a re-negotiation of repayment terms.

31. FINANCIAL RISK MANAGEMENT (Continued)

(c) Interest rate risk

The following table details the City's exposure to interest rate risks as at the reporting date as well as the previous reporting date (30 June 2015).

			Fixed Interest Rate Maturity

31. FINANCIAL RISK MANAGEMENT (Continued)

(c) Interest rate risk continued

Money market investments are held to maturity which negates any risk associated with movements in interest rates.

(d) Payables and Borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The City manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required.

The contractual undiscounted cash flows of the City's Payables and Borrowings are set out in the Liquidity Sensitivity Table below:

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying values
	\$	\$	\$	\$	\$
<u>2016</u>					
Payables	10,811,784	-	-	10,811,784	10,811,784

	15,191,278	10,347,041	4,899,374	30,437,694	27,139,584

32. EVENTS AFTER THE REPORTING DATE

There were no material events after 30 June 2016 that require inclusion in the notes to the financial statements.

33. TOWN PLANNING AND LAND DEVELOPMENT SCHEME - MINDARIE

In June 1978 Lot 17 Marmion Avenue, Mindarie, a 432 hectare property situated approximately 2 kilometres north of Burns Beach and 30 kilometres north of the Perth City Centre was purchased jointly by the former City of Wanneroo, the former City of Perth and the City of Stirling as tenants in common in equal shares to provide for a future sanitary disposal site.

Subsequently, the Mindarie Regional Council was established by the three Councils and in 1990 leased approximately 251 hectares for this purpose. The lease provides for an initial term of 21 years, with an option for renewal for a further 21 years.

On 1 July 1998 the former City of Wanneroo's one third share was split equally between the City of Joondalup and the City of Wanneroo, in accordance with the Joondalup and Wanneroo Order 1998, with the assets and liabilities allocated by determination of the Joint Commissioners.

It is envisaged that the southern portion of Lot 17 encompassing the leased area will eventually be used for regional open space/recreational purposes. The north and western portions are being subdivided and developed for residential purposes by the Tamala Park Regional Council (Note 10).

34. JOONDALUP NORMALISATION AGREEMENT

During 2004, the City of Joondalup and the Western Australia Land Authority (LandCorp) entered into a Memorandum of Agreement to complete the normalisation of the City of Joondalup. The Memorandum of Agreement (MOA) recognises the historical evolution and contemporary position of Joondalup in terms of the Western Australia Land Authority Act 1992 (as amended) and the "Joondalup Centre Plan – Completion 2001 Modification". The process of "normalisation" is a transitional process through which the strategic regional centre would become operationally and perceptionally transformed from a development project to an established centre.

The Memorandum of Agreement (MOA) required LandCorp to make a contribution of \$5.24m to the City of Joondalup for works previously completed by the City and to be carried out by the City in the future. The terms of settlement are not specified in the agreement however the City received \$1.9m in June 2004 and brought this revenue to account in 2003-04. The City received \$2.8m during 2005-06 as further settlement and this was recognised as revenue during 2005-06. The final payment of \$540,000 was conditional on LandCorp receiving possession of Lot 701 at the corner of Collier Pass and Joondalup Drive, which was leased to the City until December 2007. The lease has now expired and the City is still in possession of the land on holdover provisions, subject to further negotiation and agreement with LandCorp.

35. Net Current Assets / Closing Funds

Add back:		
Borrowings	2,126,295	1,823,565
Less:		
Cash Backed Reserves	65,142,739	65,680,795
Surplus/(Deficit)	3,083,830	3,139,002

36. Changes to Comparative Figures

Following adjustments have been made to the comparative figures to conform to changes in presentation in the current financial year.

1. Cash at Bank (Note 7) has been adjusted to correctly represent trust fund transfers with corresponding adjustment in the Sundry Debtors (Note 8) and Sundry Payables (Note 12) balances.

2. GST Payable (Note 12) balance of \$194,830 has been set off against GST Receivable (Note 8)

3. Buildings Capital Works in Progress, previously shown under Infrastructure Assets (Note 11) has been transferred to Property, Plant and Equipment (Note 10) to better represent the asset class to which it belongs.

4. Further adjustments have been made to the Infrastructure Asset balances (Note 11) in the process of implementing the City's Integrated Asset Management System with corresponding changes made to the Reserves – Asset Revaluation balances (Note 16)

5. Non-current Long Service Leave Reserve, being a restricted reserve, is reflected under Reserve Accounts (Note 15). The balance in this Reserve was previously included as part of Retained Surplus.

37. STATUTORY FINANCIAL RATIOS

INDEPENDENT AUDITOR'S REPORT TO THE ELECTORS OF THE CITY OF JOONDALUP

REPORT ON THE FINANCIAL REPORT

T +61 (0)8 9225 5355 F +61 (0)8 9225 6181

www.moorestephenswa.com.au

We have audited the accompanying financial report of the City of Joondalup, which comprises the statement of financial position as at 30 June 2016, statement of comprehensive income by nature or type, statement of comprehensive income by program, statement of changes in equity, statement of cash flows and the rate setting statement for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the statement by Chief Executive Officer.

Management's Responsibility for the Financial Report

Management is responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards, the Local Government Act 1995 (as amended) and the Local Government (Financial Management) Regulations 1996 (as amended) and for such internal control as Management determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Council, as well as evaluating the overall presentation of the financial report.

We believe the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial report of the City of Joondalup is in accordance with the Local Government Act 1995 (as amended) and the Local Government (Financial Management) Regulations 1996 (as amended), including:

- giving a true and fair view of the City's financial position as at 30 June 2016 and of its financial a) performance and its cash flows for the year ended on that date; and
- complying with Australian Accounting Standards (including Australian Accounting Interpretations). b)

INDEPENDENT AUDITOR'S REPORT TO THE ELECTORS OF THE CITY OF JOONDALUP (CONTINUED)

Report on Other Legal and Regulatory Requirements

In accordance with the Local Government (Audit) Regulations 1996, we also report that:

- a) There are no matters that in our opinion indicate significant adverse trends in the financial position or the financial management practices of the City.
- b) No matters indicating non-compliance with Part 6 of the Local Government Act 1995 (as amended), the Local Government (Financial Management) Regulations 1996 (as amended) or applicable financial controls of any other written law were noted during the course of our audit.
- c) In relation to the Supplementary Ratio Information presented at page 63 of this report, we have reviewed the calculations as presented and nothing has come to our attention to suggest it is not:
 - i. reasonably calculated; and
 - ii. based on verifiable information.
- d) All necessary information and explanations were obtained by us.
- e) All audit procedures were satisfactorily completed in conducting our audit

Dear Garry

MANAGEMENT REPORT FOR THE YEAR ENDED 30 JUNE 2016

We advise that we have completed our audit procedures for the year ended 30 June 2016 and enclose our Audit Report.

We are required under the Local Government Audit Regulations to report certain compliance matters in our audit report. Other matters which arise during the course of our audit that we wish to bring to the Council's attention are raised in this management report.

It should be appreciated that our audit procedures are designed primarily to enable us to form an opinion on the financial statements and therefore may not bring to light all weaknesses in systems and procedures which may exist. However, we aim to use our knowledge of the City's organisation gained during our work to make comments and suggestions which, we hope, will be useful to you.

COMMENT ON RATIOS

Since the arrival of the new statutory ratios in 2013 (which included the requirement to calculate for 2012), we have endeavoured to provide Council and audit committees with a comparison of these ratios.

Ratios provide useful information when compared to industry and internal benchmarks and assist in identifying trends.

By providing this overview, we aim to improve the understanding of the trends and how they interact. This is beneficial for the allocation of scare resources and planning for the future.

Information relating to the statutory ratios disclosed in the financial report is summarised in the table below and our commentary is provided on the following pages.

	Target		City's Actual Ratios				Council's 5 Year	4 Year Average ³	
	Ratio 1	2016	2015	2014	2013	2012	Trend ²	Regional	State
Current Ratio	≥ 1	1.04	1.05	0.99	0.97	1.19		1.42	2.29
Asset Sustainability Ratio	≥ 1.1	0.45	0.48	0.54	0.69	N/A	*	1.06	1.23
Debt Service Cover Ratio	≥ 15	11.93	17.23	10.84	9.81	10.05	÷	22.23	14.01
Operating Surplus Ratio	≥ 0.15	(0.01)	0.01	(0.04)	(0.04)	(0.01)	1	0.07	(0.02)
Own Source Revenue Coverage Ratio	≥ 0.9	0.98	0.97	0.95	0.93	0.95	1	0.94	0.68
Asset Consumption Ratio	≥ 0.75	0.64	0.64	0.63	0.58	N/A	T	0.69	1.16
Asset Renewal Funding Ratio	≥ 1.05	0.54	0.58	0.57	N/A	N/A	Ψ	0.99	1.00

¹ Target ratios per Department of Local Government and Communities (DLGC) Guidelines except the Debt Service Ratio which is a target devised by Moore Stephens (and based on experience of City's with similar size of operations). For information, DLGC Guidelines indicate a target Debt Service Cover Ratio of 5.

² The 5 year trend compares the 2016 ratio to the average of the ratios for the last 5 years (except for the Asset Consumption and Asset Renewal Funding Ratios which are the 4 year trend).

³ The average in relation to the Regional and State comparisons is a 4 year average of 2012, 2013, 2014 and 2015.

MOORE STEPHENS

COMMENT ON RATIOS (CONTINUED)

Regional and State 4 Year Averages

Regional and State 4 year averages are based on the statutory ratios which have been reported in published financial reports. They provide a useful reference point as they are indicative of trend.

Commentary on Specific Ratios

• Asset Sustainability Ratio

The Asset Sustainability ratio expresses capital expenditure on renewal and replacement of existing assets as a percentage of depreciation costs. This ratio is used to identify any potential decline or improvement in asset conditions. A percentage of less than 100% on an ongoing basis indicates assets may be deteriorating at a greater rate than spending on renewal or replacement.

This ratio is below the target level and both Regional/State 4 year averages as well as trending downwards against the average over the last five years.

Analysis of the City's Statement of Comprehensive Income indicates a reason for the deterioration of this ratio is an increase in the amount of depreciation expense. Total depreciation increased from \$27,315,622 in 2014 to \$29,580,398 in 2015 and \$29,624,959 in 2016.

The increase in depreciation is attributable to the revaluation of infrastructure assets conducted during the year ended 30 June 2015 which resulted in a higher depreciable asset base.

Further analysis of replacement expenditure levels and depreciation expenditure, (particularly with respect to remaining useful life assessments) may provide greater insights to this ratio.

Interpretation of this ratio should be considered together with the Asset Consumption Ratio (slightly below target at 0.64) although appears to be trending upwards and the Asset Renewal Funding Ratio (which is below target and trending downwards).

Operating Surplus Ratio

The Operating Surplus Ratio represents the percentage by which the operating surplus (or deficit) differs from the City's own source revenue which includes rates and operating grants.

This ratio has declined slightly from the previous year although it is trending marginally upwards over the last five years. Whilst it is currently below the target level and the Regional average it compares relatively well to the State average.

Analysis of the City's Statement of Comprehensive Income indicates the main reason for the deterioration of the ratio to be the increase in operating expenditure associated mainly with an increase in employee costs and depreciation (as detailed in the comments above).

Further analysis of the increase in salary costs may provide greater insight as to the reason (for example, greater allocation of internal staff costs to maintenance works rather than capital projects).

Asset Renewal Funding Ratio

This ratio is a measure of asset renewal. It has declined slightly on last year and does appear to be trending downwards. At 0.54 as measured, it is 0.21 below the basic standard of 0.75.

Whilst this appears to be an area to which some attention may need to be paid (given the other asset ratios are also below targets) it may be a short to medium term asset management approach based on condition assessments. Due to the nature of the calculation and this ratio, it is difficult for us to comment further on it.

COMMENT ON RATIOS (CONTINUED)

MOORE STEPHENS

Summary

Overall, as a general comment, the City's ratio position, appears consistent with prior years.

Whilst some ratios are below the accepted industry benchmark, given the relative strength of the other ratios and the City's balance sheet and own source revenue capability, lower ratios may be expected and acceptable in the short term, provided other measures/strategies are maximised.

Notwithstanding this, three of the ratios do appear to be trending downwards over the longer term and this should be considered moving forward.

In particular, some attention should be paid to the asset ratios to determine if changes are required or if the ratios are reflective of the current short to medium term asset management approach of the City (based on condition assessments).

We would also like to take this opportunity to stress one-off assessments of ratios at a particular point in time can only provide a snapshot of the financial position and operating situation of the City. As is the case with all ratios and indicators, their interpretation is much improved if they are calculated as an average over time with the relevant trends being considered.

We will continue to monitor the financial position and ratios in future financial years and suggest it is prudent for Council and management to do so also as they strive to manage the scarce resources of the City.

If the City requires, we have a report available which is able to compare your ratios against other Local Governments across the State and by Region. The report is also able to incorporate a selection of your peer Local Governments, whether they be of near neighbours or similar type in nature. This may be of particular relevance in your case as you are included in the Metropolitan region when comparison to other, more similar local governments, may be more relevant.

If you are interested in such an expanded report, please contact us.

We noted no other matters we wish to bring to your attention.

We take this opportunity to thank all staff for the assistance provided during the audit. Should you wish to discuss any matter relating to the audit or any other matter, please do not hesitate to contact us.

Yours faithfully

David Tomasi Partner Moore Stephens

1.0 Summary

Mr Mike Tidy Director of Corporate Services City of Joondalup 80 Boas Drive JOONDALUP WA 6027

Dear Mr Tidy,

We have set out in this document the audit findings from our audit of the City of Joondalup for the year ended 30 June 2016.

Audit status

Our audit of the City of Joondalup for the year ended 30 June 2016 is complete.

Audit Report

We have issued an unmodified audit opinion on the financial statements of the City of Joondalup for the year ended 30 June 2016.

Systems and Internal Controls

ASA 265 Communicating Deficiencies in Internal Control to Those Charged with Governance and Management,

Audit Standards require us to identify significant audit areas of potential misstatement based on risk. Our findings in relation to these significant audit areas are detailed in Section 2 – Key accounting and audit matters.

Summary of misstatements

There were no uncorrected misstatements above trivial amount noted during the audit.

Independence

We confirm we have complied with the ethical requirements regarding our independence as auditor of City of Joondalup.

Non-compliance with laws and regulations and fraud

We confirm no matters have come to our attention that indicate material misstatement in the financial statements due to non-compliance with laws and regulations or fraudulent activity. Management has confirmed that they are unaware of any fraudulent activity. Please refer to Appendix 1 for more details.

2.0 Systems and Internal Control

Current year

In accordance with ASA 265 Communicating Deficiencies in Internal Control to Those Charged with Governance and Management, we are required to communicate in writing, significant deficiencies in internal control identified during the audit to those charged with governance on a timely basis.

The standard defines a deficiency in internal control as follows:

- 1. A control is designed, implemented or operated in such a way that it is unable to prevent, or detect and correct, misstatements in the financial report on a timely basis; or
- 2. A control necessary to prevent, or detect and correct, misstatements in the financial report on a timely basis is missing.

Significant deficiency in internal control means a deficiency or combination of deficiencies in internal control that, in the auditor's professional judgement, is of sufficient importance to merit the attention of those charged with governance.

In this instance, we did not note any significant deficiencies we wish to bring to the attention of those charged with governance.

We did note during the course of our audit, all of which have been previously discussed with you and /or your staff.

We have detailed these on the following pages.

Current year end audit issues

Findings

1. Provision for Workers Compensation

The City has included a provision for workers' compensation in the financial statements as at 30 June 2016. The provision totalled \$2,700,765 (2015 \$3,305,383). A reduction in the provision from 2015 is largely attributable to two years, 2011/12 and 2012/13 and were thus closed for claims being removed from the calculation.

This provision represents the difference between the amount payable to LGIS for worker's compensation insurance and the total exposure to the City in terms of possible worker's compensation amounts payable under the worker's compensation policy.

It is understood in recent years there have not been many claims against the City. Under Accounting Standards, the provision should be an estimate of expected outgoings and not 100% of the total amount, unless that is what is expected to be paid.

2. Long Service Leave Provision

On review of the long service leave provision, it was *noted inflation rates and discount rates* had not been applied in accordance with Accounting Standard AASB 119 *Employee Benefits*.

The provision for worker's compensation should be an estimate of what is expected to be paid out, based on historical claims. This provision should be reviewed each year for determining the estimate of provision required.

Our comments / suggestions

We are suggesting the provision for workers' compensation may be overstated and an opportunity exists to review the amounts provided for. The decline in claims in the past two years reverses the trend in years prior. While the City considers it prudent to maintain the current practice as it stands, the provision will be reviewed at least annually

Management comments

Whilst inclusion in the calculation of these factors for the current and previous year would not have resulted in a material effect to the provision, the provision should be calculated in accordance with the requirements of AASB 119. This will help ensure:

nis will help ensure:

- a) The provision is correctly calculated in accordance with AASB 119; and
- b) The calculation methodology allows for future changes to the inflation and discount rates in case they do result in a material difference.

As noted, current discount factors applied to long service leave provision calculations do not result in any material misstatement of the provision; however, the requirements of AASB 119 are noted and the City will review the calculation methodology in 2016-17 to fully comply with the standard

2.0 Systems and Internal Control (continued)

Current year end audit issues (continued)

Findings	Our comments / suggestions	Management comments
3. Rates in Advance		
Within the Other Payables balance of the financial statements are 'amounts received in excess of rateable amounts' of \$1,946,216 at 30 June 2016 and \$1,862,888 at 30 June 2015.	We acknowledge there has been a different interpretation of this Accounting Standard by the City.	As discussed, the City does not automatically refund these credit balances to ratepayers, but adjusts these against future rates when these are levied, unless a ratepayer requests a refund
These balances represent amounts received from customers identified as ratepayers in the City's records in excess of amounts that were due as levies payable in the current year.		in which case the excess amount is immediately refunded. The City notes that these amounts are more accurately disclosed as "Credit balances in rates account" to reflect
Under Accounting Standards, AASB 1004, Contributions, paragraph 30 makes reference to recognising income from rates received in advance the earlier of the receipt date or the levy date.		the underlying reality that these are not revenue on receipt but remain a liability to the City if received prior to levy. There are several occasions when such credits arise due to
The City contends these amounts do not relate to rates levied and, if the excess amounts were to be refunded, the City has no right of deferral and would need to return them.		ratepayers inadvertently overpaying. Generally, the ratepayer promptly requests a refund. The City does not consider that the standard requires such errors to be recognised as
We were not able to find any evidence, anecdotal or otherwise, which suggest these excess amounts paid were notified to the ratepayer, nor were they advised they were able to request a refund		revenue if the ratepayer omits to request a refund. Revenue will arise only once an actual levy is issued.
Notwithstanding this, an adjustment to the amounts received in excess of rateable amounts to income would affect both 30 June 2016 and 30 June 2015 balances, the net effect of the adjustment would have been \$83,358. Based on materiality no amendment was requested and the City's treatment was		

accepted

2.0 Systems and Internal Control (continued)

Current year end audit issues (continued)

Findings	Our comments / suggestions	Management comments
4. Building Valuations		
During the year ended 30 June 2016, the City engaged a valuer to provide replacement values for the City's buildings at a 100% condition rating.	When componentisation and therefore depreciation of the components occurs at a low level, there is a tendency to over depreciate	Noted. The City will take cognisance of this when reviewing components, useful lives and depreciation rates annually.
Staff within Infrastructure services have reviewed these values and adjusted the valuation to reflect the current condition of the buildings based on the age of the buildings and any improvements or modifications made during this time.	buildings. For financial reporting purposes, depreciation levels of buildings should be reviewed to reflect the useful life of the overall building or only a few components of the building, depending	
The valued buildings have been split into components and each component has a useful life applied and is being depreciated over the useful life.	on the type of building being valued.	

Appendix 1: Other Communications

Ethics and independence matters

In conducting our audit, we have complied with the independence requirements of s290 of APES 110 Code of Ethics for Professional Accountants.

We have obtained independence declarations from all staff engaged in the audit. We also have policies and procedures in place to identify any threats to our independence, and to appropriately deal with and if relevant mitigate those risks.

We have not become aware of any issue that would cause any member of the engagement team, Moore Stephens or any Moore Stephens network firm to contravene any ethical requirement or any regulatory requirement that applies to the audit engagement.

Non-compliance with laws and regulations

We have made enquiry in relation to non-compliance with laws and regulations during the course of our audit. We have not identified any instances of non-compliance with laws and regulations as a result of our enquiries.

Fraud

Management have confirmed that there were no matters of fraud identified for the period under audit, or subsequently. It should be noted that our audit is not designed to detect fraud however should instances of fraud come to our attention we will report them to you.

We have not identified any instances of fraud during the course of our audit.

Appendix 2: New Accounting Standards

New accounting standards and issues

We have provided a brief overview of the new accounting standards that may impact you in future periods and the major changes as follows:

AASB 124 – Related Party Transactions

In March 2015 the Scope of AASB 124 has been extended to include not-for-profit entities.

The operative date for Local Government is 1 July 2016 (effective for the year ended 30 June 2017 in the City's case).

This accounting standard will require that if a local government has had a related party transactions during the periods covered by the financial statements, it shall disclose the nature of the related party relationship as well as information about those transactions and outstanding balances. However, it should be noted for the initial year of application of this accounting standard, comparative information will not be required.

The Related Party Accounting Standard will require:

- The identification of the related party transactions and relationships.
- The identification of the outstanding balances including commitments between an entity and its related parties;
- The identification of the circumstances in which disclosure of the above items are required;
- Determination as to the disclosures to be made about these items.

Related party transactions also include compensation of key management personnel and directors.

A local government shall disclose key management personnel compensation in total and for each of the following categories;

- a) Short term employee benefits
- b) Post employment benefits
- c) Other long term benefits
- d) Termination benefits
- e) Share based payments

Additional guidance on the requirements of this accounting standard is available on request.

Appendix 2: New Accounting Standards (continued)

ED 260 Income for not-for-profit entities

This accounting standard has been issued as a 'fatal flaw' version and it is likely to be made final if no fatal flaws are identified.

It is hoped it will result in better matching of income and expenditure than is currently provided by AASB 1004.

Provides for the deferral of income from grants and donations where the conditions attached regarding the delivery of goods or services are enforceable and sufficiently specific, regardless of whether the ultimate beneficiary is the grantor or a third party.

This differs from the current interpretation of AASB 1004 which requires the income to be recognised immediately if the ultimate beneficiary is not the grantor.

There are a number of other changes relating to the treatment of peppercorn leases and additional guidance is available upon request.

AASB 16 – Leases

Under AASB 16 there is no longer a distinction between finance and operating leases. Lessees will now bring to account a right –to-use asset and lease liability onto their balance sheets for all leases. Effectively this means the vast majority of operating leases as defined by the current AASB 117 Leases which do not currently impact the balance sheet will be required to be capitalised on the balance sheet once AASB 16 is adopted.

This accounting standard is effective for reporting periods beginning on or after 1 January 2019 (effective for year ended 30 June 2020 in the City's case).
