Tenderer & Description of Response	Is it Compliant? Yes or No	Comment Against Criteria				Evaluation Score	Price	Price Rank
		Capacity	Demonstrated experience in completing similar projects	Demonstrated understanding of the required tasks	Social and economic effects on the local community			
<p>Stiles Electrical and Communication Services</p> <p>All requirements have been met.</p>	Yes	<p>It has been in operation since 1999. The company has 25 employees. An organisational chart was supplied and supported by the role, experience and qualifications of five staff nominated to oversee the City's project. It has accounts with a range of labour hire and plant hire companies, if additional resources are required.</p> <p>Stiles Electrical and Communication Services has its own quality management system and a safety policy in place. The index of its occupational safety and health management plan was submitted with the Offer. The plan appears comprehensive, however actual documentation was not supplied. The company's safety record of the past two years was not provided.</p>	<p>It demonstrated extensive experience completing works of a similar nature. Eighteen project examples were provided as evidence of the company's experience and included design, supply and installation of 140 custom and standard City of Perth specification Multipole light poles for Elizabeth Quay project, procurement, supply and installation of 300 series Multipole for Kings Square Subdivision project for Broad Construction, installation of a range of 300-Series and 201-Series Multipole poles for Perth City Link (Stage 2 and 3) project for Downer Infrastructure. This was further supported by an extensive list of other completed projects.</p>	<p>It demonstrated a thorough understanding and appreciation of the City's requirements. The work break down addressed all the scope items with detailed methodology and approach. Lead-times for the light poles, caged ragbolts and light fittings were also supplied. The company stated that a full project program will be developed with the City on award of Contract. It envisaged a project delivery of 26 weeks from award of the Contract.</p>	<p>It is located in Joondalup.</p> <p>The company employs local residents and uses local suppliers. It is providing training and mentoring for 15 apprentices through National Electrical and Communications Association.</p>	77.9%	\$1,968,886	3

		Capacity	Demonstrated experience in completing similar projects	Demonstrated understanding of the required tasks	Social and economic effects on the local community			
Gillmore Electrical Services Pty Ltd	Yes	It has been providing electrical lighting and engineering services in WA for more than 11 years. The company is located in Malaga and has six staff and one casual electrician. An organisation chart and details of all seven staff including their qualifications and experience were provided. The company sub-contracts most civil works to specialised sub-contractors and has access to a list of equipment from its sub-contractors. It has the ability to source additional electricians from Niles Electrical, if required.	It has considerable experience in completing street lighting projects for various organisations including local governments. Numerous examples of works were provided including City link street lighting and Barrack Street lighting upgrade (from St Georges Terrace to Wellington Street) for CIVCON, St Georges Terrace street lighting upgrade (from William Street to King Street) and Wellington Street lighting upgrade for the City of Perth and installation of multi-function poles at St Georges Terrace for Broad Construction.	It demonstrated an understanding of the required tasks. Its step wise methodology set out the work process and allocated timeframes to each stage of the works. It proposed to complete the works within six weeks from order of required materials, site survey, supply and installation of light poles and commissioning of the system.	It is located in Malaga.  The company supports local sporting clubs and suppliers.	60%	\$1,790,283	2
All requirements have been met.		Gillmore Electrical Services operates its own quality management system and has a safety policy in place. A copy of its safety policy was supplied. The company has had no safety incidents reported over the past two years.

Gilmore Global Pty Ltd t/as Happy Excavations All requirements have been met	Yes	It has been in operation for an unknown period of time. It is located in Malaga and currently employs 15 staff. No information was supplied on the company structure and its ability to provide additional personnel or resources. Details of four key personnel were provided but none of them has any experience in electrical works. OHS plan and safety records were supplied.	It demonstrated experience in completing street lighting projects. Two project examples were provided: installation of all traffic signals, street lights and heavy duty artistic street lights on Reid Highway and Malaga Drive for Downer Mouchel and installation of Christmas lights and decorations in the CBD for the City of Perth.	It did not demonstrate sufficient understanding of the City requirements. It proposed to carry out the project in 25 days which appears insufficient. A brief methodology was supplied.	The company is based in Malaga.  This criterion was not addressed.	46.4%	\$1,907,081	NA

Hender Lee Electrical Contractors Pty Ltd	Yes	It has been in business since 2002. It is located in Bibra Lake and has 23 staff. An organisation chart and details of seven staff including their qualifications and experience were provided. An organisation chart with the proposed project personnel for this project was also supplied. It has the ability to source additional personnel and resources, if required. Hender Lee Electrical operates an accredited quality management system to ISO 9001:2008 and has a safety policy in place. Copies of its safety policy and safety records were provided.	It demonstrated experience in completing street lighting projects for various local governments and Department of Finance. Numerous project examples were submitted including LED track lighting in Cannington Greyhound Racing Venue for Department of Finance, Kings Park Road street lighting for the City of Perth and Lake Monger S2 Pathway lighting for the City of Vincent.	It did not demonstrate sufficient understanding of the City requirements. The methodology of works in the proposed program did not reflect an efficient flow of works and a good understanding of the project. The company proposed to remove old poles once all the new poles have been installed which is likely to create traffic management issues on a busy road. The submitted program reflected site mobilisation to start five months, footings installations to commence nine months and ordering of major materials three months after award of contract.	The company is located in Bibra Lake.  This criterion was not specifically addressed.	43%	\$1,934,710	NA
All requirements have been met.
