Corporate Business Plan Quarterly Report

INTRODUCTION

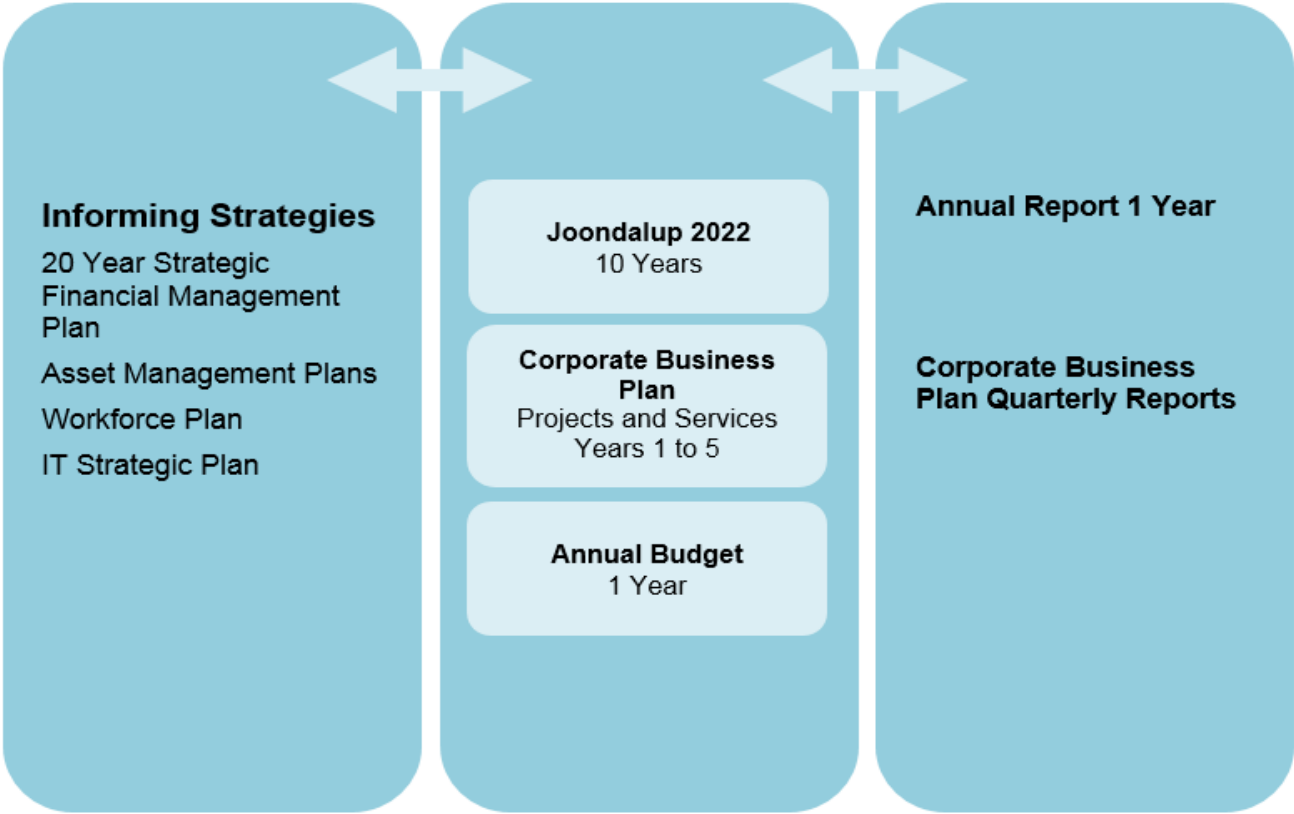

The *Corporate Business Plan* is the City of Joondalup’s 5-year service and project delivery program. It is aligned to the strategic direction and priorities set within the 10-year *Strategic Community Plan 2012–2022 — Joondalup 2022* and reflects actions in the City’s forward *Capital Works Program* and informing strategies.

The purpose of the Plan is to demonstrate the operational capacity of the City to achieve its aspirational outcomes and objectives over the medium-term. All operational planning and reporting is driven by the *Corporate Business Plan*, which is reviewed annually to ensure priorities are achievable and effectively timed.

Flexibility is built into the City’s corporate business planning model to ensure the organisation is able to adjust to external influences as they arise. The annual review process enables the City to frequently assess its progress and realign actions and tasks against the most currently available information. Quarterly progress against services and programs is reported through the key themes of:

- Governance and Leadership
- Financial Sustainability
- Quality Urban Environment
- Economic Prosperity, Vibrancy and Growth
- The Natural Environment
- Community Wellbeing
