6C	5 tonne
7	Posi track skid steer loader (wet hire)
8	Site Spotter

ATTACHMENT 2

SUMMARY OF TENDER SUBMISSIONS

	Is it Compliant? Yes or No	Comment Against Criteria						
Tenderer & Description of Response		Capacity	Demonstrated experience in providing similar services	Demonstrated understanding of the required tasks	Social and economic effects on the local community	Evaluation Score	Estimated Contract Value	Rank
Redline Civil Australia Pty Ltd (Remote Civils Australia Pty Ltd) All requirements have been met.	Yes	It was established in 2011 and currently has 45 staff. Its structure of business and details of key personnel including their qualifications and years of industry experience were provided. It indicated the company has additional staff and resources available, if required. The response time needed for non-programmed requests is a 24 hours minimum notice from the City. A list of plant and equipment and afterhours contacts for emergency requirements were supplied. It operates with its own quality management system and has a safety policy in place. Its Submission included copies of its safety procedures and statistics.	It has been undertaking civil site works for private and public sector including local governments. It provides a range of services including wet plant hire, drainage, concrete works, subdivisions, road construction, asphalt and kerbing. Examples of works were provided and these were for plant and machinery – wet hire for the City of Mandurah (five-year contract from 2016) and hire of plant and road construction machinery for the City of Fremantle. Other examples included construction of concrete footpaths and crossovers for the City of Gosnells (duration 41 months from 2016).	It demonstrated a sound understanding of the required tasks. Its proposed methodology and approach in providing the services included an outline of tasks to be carried out to complete the works, from allocation of machinery/personnel and ensuring staff have appropriate PPE to mobilisation of plant and personnel to site for works as directed by the City. It also addressed safety management in details, its associated risks and concerns (i.e., integrating with traffic and the public or heavy volume of traffic on the road during works) and its proposal to reduce and eliminate these risks.	Its head office is based in Byford and has a depot located in Wanneroo. It stated if awarded the Contract, the company will endeavour to source Joondalup based subcontractors to be included in the works and will utilise local suppliers for goods and services.	59.4%	\$1,637,213	n/a

TENDER 035/17 PROVISION OF PLANT HIRE

	Is it Compliant? Yes or No		Comment Ag	ainst Criteria		Evaluation Score	Estimated Contract Value	Rank
Tenderer & Description of Response		Capacity	Demonstrated experience in providing similar services	Demonstrated understanding of the required tasks	Social and economic effects on the local community			
Oldridge Investments Pty Ltd trading as Dalco Earthmoving All requirements have not been met. It proposed amendments to the conditions of Contract.	Yes	It did not fully address this criterion, in particular, brief history, afterhours contacts, the ability to provide additional personnel and the response time needed for non-programmed requests. However, an organisational profile and details of key personnel including their years of industry experience were provided. It operates with its own quality management system and has a safety policy in place. Though its safety statistics were not provided, a copy of its safety management plan was supplied.	It did not sufficiently address this criterion other than providing three referees, of which two are from the City of Joondalup. However, it has in the past successfully completed similar services for the City and is the incumbent supplier for plant hire.	It did not sufficiently address this criterion, however, it indicated elsewhere in its response that it has provided plant hire services for the Cities of Wanneroo and Joondalup.	It is located in Wangara. It did not submit a response.	49.6%	\$1,738,901	n/a

TENDER 035/17 PROVISION OF PLANT HIRE

	Is it Compliant? Yes or No	Comment Against Criteria						
Tenderer & Description of Response		Capacity	Demonstrated experience in providing similar services	Demonstrated understanding of the required tasks	Social and economic effects on the local community	Evaluation Score	Estimated Contract Value	Rank
The Trustee for Certa Civil Works Unit Trust (Certa Civil Works) All requirements have not been met. It proposed amendments to the conditions of Contract.	Yes	It has been in operations since 2012. Details of key personnel including their years of industry experience were provided. Its Submission included a list of major plant and equipment. However, it submitted insufficient information on its structure of business and did not address the number of full-time employees, afterhours contacts for emergency requirements, safety statistics, response time needed for non-programmed requests and the ability to provide additional personnel. It operates with its own quality management system and has a safety policy in place. A copy of its safety policy was provided.	It has been providing plant and labour hire for various local governments including the Cities of Wanneroo, Stirling, Rockingham and Nedlands. Examples of works were provided and these involved plant/labour hire, kerb removal, reticulation repairs, kerb backfill and drainage works. Period and dates of these works were not supplied. A list of current commitments was provided and this included creative street subdivision for Westbury Investments, Whiteman Park roadworks for the Department of Finance, street scape and drainage works for the City of Wanneroo/Road 2000 and drainage works for the Town of Claremont.	It demonstrated some understanding of the required tasks. It did not provide a response or proposed methodology to undertake the works, specifically. It mentioned elsewhere in its Submission that the projects it carried out for its clients involved in varying degrees of plant and labour hire, earthworks, underground services, concrete works and roadworks with most of them involving other aspects of civil construction. It indicated all its projects have complex interfaces where success is dependent on planning and executing works in a logically sequential manner.	It is located in Wangara. It did not submit a response.	46.7%	\$1,532,602	n/a
