Western Irrigation Pty Ltd All requirements have been met.	Yes	<p>Elliotts Irrigation has been operating for 37 years with the company being purchased by Western Irrigation Pty Ltd in 1996. It stores a comprehensive range of irrigation and has a well-stocked shop backed by three warehouse facilities in Greenwood totalling approximately 500m². Whilst the number of employees was not specifically stated, it was noted elsewhere in the submission that 11 out of 17 Western Irrigation Pty Ltd employees reside within the City of Joondalup. Information for eight employees was submitted highlighting their relevant qualifications, business / professional associations, length of service and similar industry experience. The Director was noted as having a Bachelor of Civil Engineering.</p>	<p>The company demonstrated extensive experience in supplying similar goods citing three contracts it holds with local governments being City of Stirling 2020-2023 (plus two-year extension option) for the supply of irrigation equipment, City of Wanneroo 2021-2024 (plus one-year extension option) for the supply and delivery of irrigation pipe, fittings, electrical controls and sprinklers, and City of Vincent 2021-2024 for the supply and delivery of sprinklers, controllers, solenoid valves, PVC pressure pipes / fittings and associated products. A full description of the scope of works undertaken was included with similarities between those contracts and the City's requirements clearly articulated. Volumes of products supplied were not included for the Evaluation Panel undertake a comparison of the size of each contract with the City's proposed contract. Three references were submitted for all three local governments.</p>	<p>Western Irrigation Pty Ltd demonstrated a thorough understanding of the required tasks. It has the ability to expedite urgent deliveries and can supply parts outside of hours in emergency situations with the store available from 5.30am if necessary. It outlined the ordering process, supported by a supply and delivery methodology chart, stating that it will deliver products within one-two days from date of order. Details for how the company manages risks were sighted which included having access to back up delivery vehicles, two back up staff in the supply and delivery team, and a multi-skilled workforce, with each team member cross trained enabling the employee to undertake any role. It holds a vast stock level in the warehouse to ensure any breakdown parts required can be supplied with a fast turnaround (including parts that can only be purchased overseas). It has a well-stocked shop and facilities which store a large variety and volume of pipes, pumps, sprinklers, fittings and spare parts for City staff to collect products if required. Photographs were included of the warehouses, shop and products offered.</p>	<p>The company is located in Greenwood and employs key personnel who live within the City of Joondalup. It utilises the services of many nominated suppliers for maintenance of its fleet and drilling. It is a supporter of Joondalup Wolves.</p>	82.8%	\$940,492	1

Total Eden Pty Ltd (Nutrien Water) All requirements have not been met.	Partially	Nutrien Water is a national business wholly owned by Nutrien Ag Solutions, founded in 1973 and registered in 1980. The company currently employs 64 staff in Western Australia and has two directors. It submitted an organisation chart showing the relationship between the management team who are located within branches in Balcatta, Bibra Lake, Bunbury, Busselton, Byford, Canning Vale, Greenwood, Joondalup, Malaga, Neerabup, Mandurah, Midland, Myaree, Osborne Park and Rockingham. Each branch has between three and four full time employees. High level information was submitted for the four key personnel who would be servicing the City's proposed contract being their years of industry experience and associated role. Qualifications, professional associations and the like were omitted.	The company demonstrated substantial experience in supplying similar goods submitting details for two contracts it holds with local governments City of Rockingham from July 2021 to June 2022 (\$225,000 p.a.) and City of Gosnells from July 2021 to June 2022 (\$217,000) whereby it has supplied similar goods. Material descriptions, quantities purchased, and outcomes of both contracts were noted. Similarities to the City's proposed contract were noted with similar product mixes supplied such as Bermad solenoid valves, Hunter (gear driven sprinklers, popup sprinklers, MP rotator nozzles), PVC pipes and fittings, polyethylene pipes and fittings, Rain Bird valve boxes, and Toro popup sprinklers and nozzles. Three references were included for local governments.	Nutrien Water demonstrated a sound understanding of the required tasks. Its submitted methodology included how each order will be received and processed with deliveries supplied within 24 to 48 hours. It provided an explanation for what will be contained within each delivery docket, and stated that all goods will meet Australian Standards, with deliveries free and freight costs incurred by Nutrien Water. It specified that the warranties will be subject to manufacturer assessment and included guarantee information. Nutrien Water will provide replacements based upon goodwill until an assessment has been conducted. It will supply all brands of goods as specified with no substitutions and will engage core suppliers to perform training for the City's irrigation team members to keep them up to date with all new innovations if required. Nutrien Water Joondalup holds four weeks' worth of stock at the warehouse at any one time with many suppliers having warehouses in WA (Hunter, Rain Bird, Toro, Bermad, Vinidex, Acu-Tech) allowing for easy procurement of extra stock if needed. It included a list of the stock items and quantities held as of 4 October 2022.	Nutrien Water is located in Winton Road, Joondalup.	70.5%	\$1,187,190	2

<p>Reece Australia Pty Ltd</p> <p>All requirements have not been met.</p>	Partially	<p>Reece Australia Pty Ltd was founded in 1920 and employs 6,350 staff across 630 locations in Australia and New Zealand (5,640 FTE). It has nominated the servicing branch located in Malaga for the City's proposed contract. It submitted an organisation chart headed by a Group CEO and an Australian and New Zealand CEO supported by 14 executive positions. The company will allocate a team of five positions to administer the City's account comprising a Regional Leader, Branch Manager, Assistant Branch Manager and two branch staff. Brief details were included for each position being the length of service, a description of the proposed role, and overall responsibilities. Qualifications, years of industry experience, professional / business associations and scope of previous positions were omitted.</p>	<p>The company demonstrated reasonable experience in supplying similar goods. It provided high level summary information for three contracts it holds for the Cities of Swan, Vincent and Melville whereby it supplies and delivers irrigation products including PVC pipes and fittings. The duration of each contract was noted as being nine, five and 14 years respectively. Minimal information was included to ascertain the size and complexity of each contract. Three references were provided for contracts where there the scope of works was unknown. It has 120,000 active accounts.</p>	<p>Reece Australia Pty Ltd demonstrated a good understanding of the required tasks. It provided an explanation of its distribution and warehousing arrangements with Malaga being the dedicated branch assisted by an additional 50 branches (440 personnel) across Western Australia. Photos were sighted for the Malaga branch. The warehouse is able to store 20 pallets across two levels. A supply chain flowchart was noted indicating proposed timeframes from the placement of order to goods being delivered to the City's Works Operation Centre. Delivery hours were noted as being 8.30am to 3.00pm Monday to Friday which accords with the City's requirements. All emergency breakdowns will be arranged upon request. It uses Rapid Delivery Services, a smartphone application which enables fast and efficient deliveries.
