STUDENT ACTIVITY - YEARS FOUR TO SEVEN

SO YOU WANT TO BE A TWITCHER?

'A what?' you say. A twitcher is someone who watches birds.

Equipment that is useful for watching birds includes: binoculars; a hat; something to sit on (mat or chair); and patience. Twitchers are often happy to see unusual or uncommon birds.

Using the *Birds of the City of Joondalup* publication, see how many birds you can identify. Write your observations in the table below.

Bird	Count (Number)	Resident, Nomadic or Migratory?	Location Sighted
