Welcome from the Mayor
Hon. Albert Jacob JP

This major review of the City’s Strategic Community Plan has been a robust process and involved engagement and input from a broad section of our community as well as many key stakeholders.

During the revision process, our community and key stakeholders demonstrated support for the vision and intent of the Joondalup 2022 plan, which will continue to provide strategic direction for all services and activities delivered by the City and guidance towards future aspirations.

The City has renewed its commitment to be a progressive and ambitious local government, driven by a vision we share with our community as a bold, creative and prosperous City that is internationally recognised.

Celebrating our 20th anniversary as a City on 1 July 2018, Joondalup has come a long way in a relatively short period of time and has ambitious plans for the future prosperity and sustainability of our City.

A City where about 40% of our residents were born overseas, we are already widely regarded as a leading local government authority that is internationally recognised for its healthy lifestyle and new economic, cultural, educational and environmental opportunities for our local community.

The City can be proud of the international partnerships it has forged with various stakeholders such as Edith Cowan University – part of the City’s unique Education Learning Precinct – whose global aspiration of being ‘world ready’ aligns with our own vision.

We have enjoyed and continue to bear the fruits of a long and successful sister city relationship with Jinan, in the People’s Republic of China.

As well as being a supporter of local businesses developing trade links and eCommerce activity in the global marketplace, the City’s highly successful international investment attraction campaign continues to drive economic development in our region.

We remain home to a highly active, connected and engaged community and Joondalup 2022 maintains a strong emphasis on enhancing the liveability of our City.

The City, its Council and Staff are dedicated to working on behalf of our community to ensure Joondalup continues its growth as a destination City where people love to live, work and visit.

Our journey has only just begun, and the best is yet to come.

Hon. Albert Jacob JP
Mayor
City of Joondalup
Welcome from the CEO Garry Hunt

Joondalup 2022 outlines the long-term vision for Joondalup as the City continues to grow and develop.

Joondalup is one of the largest local governments in Western Australia by population with 160,995 people now living within the City’s boundaries and this Plan will not only guide how we grow as a City, but also how we grow as a region.

The north-west region of the Perth Metropolitan Area is still one of the fastest growing residential locations in Australia and this regional growth has significant implications on the future planning of Joondalup.

The Strategic Community Plan is the City’s highest level plan and it outlines how the City will address issues like increased pressure on regional transport networks, existing infrastructure and natural assets.

The City completed a comprehensive community engagement process during the original development of the Plan to ensure the Plan aligned with the aspirations, expectations and vision of our community and key stakeholders.

The City continues to be committed to sustainable development and meeting the current and future needs of the community through a range of environmental, social and economic programs and services aimed at giving the local community a range of healthy lifestyle choices and options.

Ensuring the long-term financial sustainability of the City remains a top priority for the City and Joondalup 2022. This Plan is an important part of the City’s future and is central to what Joondalup will strive to achieve in the coming years.

The City has a strong record and a strong future and the annual customer satisfaction survey has consistently delivered strong community satisfaction ratings for the services and facilities provided. We will, however, not rest on our laurels and will continually strive to enhance Joondalup’s reputation as a vibrant and exciting place to live, work and visit that we can all be proud of.

Garry Hunt PSM
CEO
City of Joondalup
Joondalup 2022 is the City of Joondalup’s long-term strategic planning document that outlines its commitment to achieving the vision and aspirations of its community and regional stakeholders.

The document aims to be transformational and drive a bold new vision for the City by expanding upon its historical roots as “the commercial, civic and cultural hub in Perth’s north.” (Sir Charles Court, 1976).

For our community, its future is greater than just servicing the northern region. It is about distinguishing itself through leadership, spirit and energy. It is about obtaining recognition for its achievements and continuously striving for excellence.

Joondalup 2022 recognises that committing to high quality service delivery and good governance practices should be a basic expectation of local governments by their residents and stakeholders.

Building a community of the highest liveable standards and demonstrating leadership in sustainable practices is what will drive the City in the future.
“... our future is greater than just servicing the northern region.”

Our journey

The City has come a long way since Sir Charles Court laid down a vision for the north-west region of Perth in 1976. From a semi-rural district within the City of Wanneroo, the City has undergone significant development around a deliberately planned City Centre and transport network.

The creation of Hillarys Marina in 1987 and the subsequent housing and commercial growth that flourished across the City has supported its journey to becoming the highly liveable and sought-after residential destination that it is today.

In more recent years the growth of the City Centre, extension of the rail network and expansion of premier coastal residential locations, have further strengthened the City’s economic base and diversified the housing, educational and employment options available within the City.

As we reflect on the 40 year-old grand vision set for the City, it is evident that a unique identity has developed over this time and the City is now home to a proud and active community.

Joondalup is known internationally as one of the world’s most liveable cities and Joondalup 2022 is intended to ensure that it reaches its potential as the CBD for the north-west region and the aspiration of becoming a ‘Global City: bold, creative and prosperous’.

We are constantly keeping an eye on the future and working closely with our community and stakeholders to encourage further economic growth and job creation.

This activity is poised to grow in coming years as Joondalup emerges as a truly global city.
Who are we

Today, Joondalup is a successful City with large green spaces and bustling suburbs. It boasts 17 kilometres of pristine coastline to its west and the exceptional Yellagonga Regional Park to its east. The City has more than 372 diverse parklands which incorporate spacious open grassed areas and over 500 hectares of natural bushland. These areas support a range of unique flora and fauna, providing the community with many recreational opportunities.

The City also supports a significant migrant population, compared to the metropolitan average, and has a higher proportion of owner-occupiers and families living across its 22 suburbs.

The City is also home to a vibrant City Centre that, in addition to retail and professional services, contains diverse tertiary educational institutions and a burgeoning health sector that services the broader north-west region.

Joondalup benefits from a unique Learning Precinct, incorporating a five-star rated university with world-class research facilities, a premier large training provider and police academy. These assets are an important link to a highly skilled and productive local labour force and provide an excellent opportunity for industry-research collaboration.
What has been achieved so far

Since Joondalup 2022 was developed, the City has delivered on a number of strategic initiatives, including the following.
# Transformational Projects and Priorities

<table>
<thead>
<tr>
<th>Transformational projects/priorities</th>
<th>Achievements (2012/13 – 2016/17)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Local government reform</strong></td>
<td>• City was not identified as an affected local government on the State Government’s amalgamation agenda, however, engagement with the State Government was pursued throughout the reform process to prepare the City for possible changes to governance arrangements and reporting requirements.</td>
</tr>
<tr>
<td><strong>City representation</strong></td>
<td>• Representation on a number of international, national and state forums, including the Australian Local Government Association, Chief Officers’ Group, Local Government Professionals Australia, Joondalup Learning Precinct Board and the Western Australian Local Government Association.</td>
</tr>
<tr>
<td><strong>Australian Business Excellence Framework</strong></td>
<td>• The City won the 2012 Australian Business Excellence Award for the Category of Strategy and Planning, in recognition of organisational best practice for the City’s planning processes. This award highlighted the City’s ability to incorporate the implementation of strategic priorities through operational projects and programs, a strong community engagement approach, transparent performance reporting and a demonstrated commitment to continuous improvement.</td>
</tr>
<tr>
<td><strong>Regional Governance Framework</strong></td>
<td>• Establishment of the Tri-Cities Alliance with the Cities of Wanneroo and Stirling.</td>
</tr>
<tr>
<td></td>
<td>• Development of a draft Regional Economic Development Strategy with the City of Wanneroo to support advocacy for regional priorities.</td>
</tr>
<tr>
<td><strong>Social media and digital tools</strong></td>
<td>• Development and implementation of a Social Media Strategy with currently over 35,000 online followers across social media platforms.</td>
</tr>
<tr>
<td></td>
<td>• Launch of the City’s mobile website platform understanding the changing nature of how residents access and consume information.</td>
</tr>
<tr>
<td></td>
<td>• Proof of Concept in partnership with Telstra at Tom Simpson Park including a trial across a range of internet connected sensor devices installed at the park, with data from the devices streaming off the park and reporting through a common, jointly designed, purpose built digital dashboard.</td>
</tr>
</tbody>
</table>
## Objectives and Strategic Initiatives

### Effective representation

To have a highly skilled and effective Council that represents the best interests of the community.

- Established the Tri-Cities Alliance with the Cities of Wanneroo and Stirling to advocate to the Federal and State Government for priorities to support the goals of the three Cities.
- Utilised the outcomes from the local government reform process to inform improvement opportunities.
- Continued representations on external boards and committees including:
  - Community Board of Advice (Joondalup Health Campus);
  - Joondalup Learning Precinct;
  - Development Assessment Panel;
  - Joondalup Lotteries House Inc.;
  - Local Government Professionals;
  - Mindarie Regional Council;
  - North West District Planning Committee;
  - North West Metropolitan Regional Road Sub-Group;
  - Tamala Park Regional Council;
  - WA Local Government Association North Metropolitan Zone;
  - Wanneroo/Joondalup Local Emergency Management Committee; and
  - Yallagonga Regional Park Community Advisory Committee.
- Establishment of a number of Council Committees and Reference Groups, including:
  - Audit Committee;
  - Finance Committee;
  - Joondalup Design Reference Panel;
  - Major Projects Committee;
  - Ocean Reef Marina Community Reference Group;
  - Policy Committee; and
  - Strategic Community Reference Group.

### Active democracy

To have a community that actively engages with the City to achieve consensus and legitimacy in decision-making.

- Major community engagement projects undertaken each year, including Community Wellbeing Survey, Bulk Waste Perception Survey, Performing Arts and Cultural Facility Business Case, as well as feedback on various strategic planning documents, capital works projects and park development projects.
- Strategic Community Reference Group — in 2012 Council adopted a new participation mechanism for the external provision of advice to Council, namely, a City of Joondalup Strategic Community Reference Group with the objective of providing advice to the Council on matters of significant community interest and strategic initiatives. Membership of the Group includes Council-appointed community representatives from each ward, Elected Members and professionals to provide expert advice and information on specific matters to be discussed at meetings.

The Group has proven to be an innovative and effective mechanism for providing commentary and advice on a range of matters and has provided advice on the following:

- Community Safety and Crime Prevention Plan;
- Environment Plan;
- Community Development Plan;
- Waste Management Plan;
- Volunteer Recognition;
- Strategic Community Plan — major review;
- Volunteer Program; and
- Community Engagement and Consultation.
Corporate capacity
For the community to have confidence and trust in the City that it can deliver services effectively and transparently.

- Maintained high customer satisfaction ratings through the annual Customer Satisfaction Survey, which is conducted annually to measure the City’s performance in delivering specific services and facilities.
- Conducted the City’s Policy Manual review.
- Developed the Workforce Plan 2013–2017 to determine the workforce requirements necessary to resource and deliver the City’s Corporate Business Plan.
- Achieved the 2012 Australian Business Excellence Award for the Category of Strategy and Planning.
- Undertook service reviews to improve efficiencies in service delivery resulting in significant savings through the implementation of efficiency measures.
- Provided regular reports to the community on progress against key projects and priorities through the Annual Report and quarterly reports against the Corporate Business Plan.

Strong leadership
For the City to demonstrate advocacy in promoting the needs and ambitions of the City and the advancement of local government.

- Participation in the Joondalup Learning Precinct Board. The Precinct comprises of the City of Joondalup and the three co-located education campuses of Edith Cowan University, North Metropolitan TAFE and the Western Australian Police Academy.
- Participation in the Joondalup–Jinan Sister City relationship, including inbound and outbound delegations. The City’s most recent delegation to China in mid-2015 celebrated the 10-year anniversary of the Sister City Relationship between Joondalup and Jinan. The visit enabled the City to explore opportunities for partnerships and investment from local stakeholders in the Chinese market, particularly in the education, health, aged care, tourism and digital sectors.
- Strong external partnerships with the Australian Local Government Association, the Western Australian Local Government Association North Zone and the International Council for Local Environmental Initiatives.
- Provided submissions to 94% of State and Federal policy positions affecting local government.
### Transformational Projects and Priorities

</thead>
<tbody>
<tr>
<td>Local government reform</td>
<td>• The City continued to seek opportunities to improve service delivery and economic sustainability through the Service Efficiency and Review Program and partnership opportunities with stakeholders to make better use of shared resources.</td>
</tr>
</tbody>
</table>
| Strategic Planning Framework        | • Development of the Strategic Financial Plan which projects the City’s financial position over a 20 year period enabling the City to assess necessary funding requirements to afford capital replacement programs and new capital projects as well as the City’s capacity to maintain overall financial sustainability into the long term.  
• Development of a Property Management Framework to guide the management of all property under the City’s ownership, care and control. |
| Asset Management Review             | • Conducted a series of Asset Management Planning reviews with the aim to ensure all assets are funded appropriately. |
| Income diversification review       | • Delivery of the City’s first multi-storey car park to cater for City centre growth. The Reid Promenade multi-storey car park was one of the City’s largest construction projects, providing over 500 undercover bays to meet the ever increasing demand for City Centre car parking. The car park utilises new technologies including number plate recognition.  
• Cash Surplus in Year 20 of the 20-Year Strategic Financial Plan shows a strong long term position for the City, notwithstanding the short-term pressures.  
• The current financial position of the City is sound with reasonable surpluses being generated, significant reserves and low debt. |
<table>
<thead>
<tr>
<th>Objectives and Strategic Initiatives</th>
<th>Achievements (2012/13 – 2016/17)</th>

</thead>
</table>
| **Financial diversity**             | • Adopted the 20-Year Strategic Financial Plan and continued to monitor for updates to major funding projects.  
• Continued investigating diversity through Service Efficiency and Review Program.  
• Reviewed the Facility Hire Subsidy Policy. |
| **Effective management**            | • Adopted the 20-Year Strategic Financial Plan and continued to be monitored for updates to major funding projects.  
• Established the Asset Management Strategy.  
• Developed the Property Management Framework.  
• Continued to implement and review of Asset Management Plans including finalising the Building Asset Management Plan. |
| **Major project delivery**          | • Construction of the Marmion Foreshore Parking Facility.  
• Construction of the Bramston Park Sporting Facility.  
• Construction of the Currambine Community Centre which is an award-winning facility and a welcome addition to the City’s northern suburbs. The City won the 2015 Western Australian Project Management Achievement Award in the Sustainable Projects Category for the construction of the Centre.  
• Construction of the Reid Promenade multi-storey car park. The car park was one of the City’s largest construction projects, providing over 500 undercover bays to meet the ever increasing demand for City Centre car parking. The car park utilises new technologies including number plate recognition and ticketless parking and was constructed using ecologically sustainable means, whilst ensuring the operations minimise emissions and costs through measures such as solar paneling and LED lighting.  
• Delivery of a number of major road construction programs.  
• Delivery of a number of park development projects.  
• Warwick Hockey Centre Project — the development includes a clubroom facility, one synthetic and two grass hockey pitches, parking, irrigation, landscaping and floodlighting. |
# Transformational Projects and Priorities

<table>
<thead>
<tr>
<th>Transformational projects/priorities</th>
<th>Achievements (2012/13 – 2016/17)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Local Planning Scheme No. 3</td>
<td>• Finalised the Local Housing Strategy to determine future housing needs for the City as well as recommended appropriate policy measures for the provision of a range of housing types and densities.</td>
</tr>
</tbody>
</table>
| Integrated transport planning       | • Development of a *Walkability Plan* and new *Bike Plan* review advocating alternative transport methods and delivery of a number of key initiatives in both Plans.  
• Dualling of east–west arterial roads to provide more efficient and quicker access to the major highways and freeways. |
| Asset management review             | • Conducted a series of Asset Management Planning reviews with the aim to ensure assets are funded appropriately and meet the community’s needs. |
| City Centre commercial development  | • The City progressed a project to deliver a mixed-use development in the heart of the Joondalup City Centre. The proposed development is seen as a priority to stimulate growth and enhance the vibrancy of the City Centre.  
• Advocacy from the City, successful in the attraction of State Government agencies to Joondalup which will provide economic stimulus for the City Centre. |
| Joondalup Performing Arts and Cultural Facility | • The City continued to seek opportunities for capital funding through a variety of channels.  
• Council endorsement of the Joondalup Performing Arts and Cultural Facility Business Case for the purpose of advertising for public comment.  
• The City advertised the Joondalup Performing Arts and Cultural Facility Business Case for public comment for a period of 42 days from 16 February 2017 to 30 March 2017.  
• After receiving the results of the community consultation Council resolved, in June 2017, not to initiate the Design Development phase of the Joondalup Performing Arts and Cultural Facility at this time. |

<thead>
<tr>
<th>Transformational projects/priorities</th>
<th>Achievements (2012/13 – 2016/17)</th>
</tr>
</thead>
</table>
| **Joondalup Performing Arts and Cultural Facility** | • The City continued to seek opportunities for capital funding for the project through a variety of channels.  
• Council endorsement of the Joondalup Performing Arts and Cultural Facility Business Case for the purpose of advertising for public comment.  
• The City advertised the Joondalup Performing Arts and Cultural Facility Business Case for public comment for a period of 42 days from 16 February 2017 to 30 March 2017. Council resolved, in June 2017, not to initiate the Design Development phase of the project at this time. |
| **Hosting a significant event** | • Appointed consultants to develop and deliver the City’s significant event for a three year period.  
• In November 2016, the City hosted Kaleidoscope, a large-scale lighting projection festival incorporating music, food and beverages.  
• Continuing investigation of ways to broaden the appeal and presence of significant events. |
| **Access to service reviews** | • Established the Community Development Plan, which identifies a wide range of services and programs that can help build a happy, healthy and well-connected community.  
• Investigation of use of new technologies or digital tools with more traditional information approaches like print material or face to face service delivery. |
| **Community Wellbeing Survey** | • Community Wellbeing Survey undertaken to gain an understanding of the overall level of wellbeing those living and working within the City.  
• Data used to inform and enhance services to meet current and future needs of the community.  
• Currently exploring alternative avenues to conduct the Community Wellbeing Survey on a more frequent basis. |
## Objectives and Strategic Initiatives

</table>
| **Quality facilities**               | • Refurbishment of Sorrento Community Hall.  
    To provide facilities of the highest quality which reflect the needs of the community now and into the future.  
    • $8 million expansion of Warwick Leisure Centre into Warwick Stadium.  
    • Construction of Mirror Park Skate Park completed.  
    • 2015 Western Australian Project Management Achievement Award in the Sustainable Projects Category for the construction of the Currambine Community Centre.  
    • Delivery of the Warwick Hockey Centre Project.  
    • Delivery of a number of refurbishment projects including: State Emergency Services Building, Kingsley Clubrooms Facility, Undercroft Bridge Clubroom, Percy Doyle Reserve, and Timberlane Clubrooms, Woodvale. |
| **Cultural development**             | • Installation of a mural at Sorrento Beach Changerooms.  
    For the community to have access to world-class cultural and artistic events and facilities.  
    • Delivery of Significant Lighting Event — Kaleidoscope.  
    • Delivery of the annual Valentines Concert.  
    • Supported the delivery of art programs through the City’s Arts Development Scheme.  
    • Delivery of the Annual Joondalup Festival featuring international artists. |
| **Community spirit**                 | • Provided support and funding to the Joondalup Volunteer Resource Centre to assist with volunteer recruitment.  
    To have proud and active residents who participate in local activities and services for the betterment of the community.  
    • Delivery of the Community Funding, Clubs in-Focus Program and Cultural Program.  
    • Delivered annual program of civic events which included ANZAC Dawn Services, and Citizenship Ceremonies.  
    • Review and implementation of the Community Development Plan. |
| **Community safety**                 | • Development of the Community Safety and Crime Prevention Plan.  
    For residents to feel safe and confident in their ability to travel and socialise within the community.  
    • Deployment and analysis of the Community Wellbeing Survey.  
    • City Ranger Services launched combining the former separate services of City Watch and Ranger Services. |
“... regional growth has significant implications on the future planning of the City. . .”
Challenges we face

The north-west region of the Perth Metropolitan Area is one of the fastest growing residential locations in Australia. Such regional growth has significant implications on the future planning of the City of Joondalup, where increased pressure on regional transport networks, existing infrastructure and natural assets is anticipated in the short- to medium-term.

Under the Western Australian Department of Planning’s Directions 2031 and Beyond, the City of Joondalup is expected to grow by up to 19,200 residents by 2022. To cater for this growing population, the number of dwellings in the City is expected to rise by between 11,800 and 12,300 by 2031. Greater growth is expected within the North West Corridor, which will drive infrastructure and service delivery within the City. As such, there is likely to be greater focus on Joondalup as a service, employment and entertainment hub for the north in the future.

With both a growing regional and metropolitan population, the City will need to plan for and deliver effective responses to these regional challenges.

The following challenges were identified during the development of Joondalup 2022:

- Climate change
- Transport congestion
- Ageing infrastructure
- Financial sustainability
- Competition for investment attraction
- Ageing population
- Sustainable tourism.

These challenges remain relevant today and Joondalup 2022 provides a strategic response to these challenges.

New challenges identified in 2016/17

In addition to the challenges outlined in the development of the Strategic Community Plan in 2012, additional challenges raised by the City’s Elected Members, the community and stakeholders during the major review include:

- A reduction in the availability of grants given the economic climate. Greater advocacy will be required to attract funding from the State and Federal Governments as well as establishment of partnerships with key stakeholders to align effort and resources to attracting funding opportunities;

- Enhancing City Centre vibrancy through additional focus on economic development and investment attraction activities as well as the activation of key areas in the City Centre;

- Developing a realistic and sustainable financial model for asset management;

- Enhancing regional economic development, particularly with regard to international activities;

- Positioning the City as an Innovation Precinct to reap the benefits of growth in the digital economy implementing the Digital Strategy to reap the benefits of growth in the digital economy;

- Coastal vulnerability and its ongoing management and communication with the community; and

- Providing appropriate services and infrastructure for an ageing population.
What did the community say

After engaging the community and stakeholders in the development of Joondalup 2022, they sent the following clear messages to the City:

We want:

- Improved transport and connectivity;
- To celebrate and maintain our natural assets;
- Increased local job opportunities;
- A vibrant City Centre;
- Quality public open spaces;
- Strong community spirit with a village atmosphere;
- Increased opportunities for culture and the arts;
- Engaged and active youth;
- Increased housing and commercial density within appropriate areas;
- Greater tourism opportunities; and
- An appropriate interface between the built and natural environments.

The City is ready and keen to face these challenges to deliver an exciting new future for its residents and the broader community.

It is prepared to play the role of leader, advocate, facilitator, partner and service provider to influence and direct positive outcomes for current residents and the generations to come. This will involve some forms of direct action, as well as building resilience and capability within the community to help deliver its vision in partnership with the City.
Artist’s impression of the future City of Joondalup, generated during discussions at “A Vision for Joondalup” Business Forum.
How we heard the community

During the development of the Strategic Community Plan in 2012, the City wanted to hear what people had to say about where they live, how they felt about their community and what they wanted for their community in the future. This involved a number of engagement opportunities spread over two years to inform the development of Joondalup 2022, including:

- Youth Community Forum
- Seniors’ Interests Community Forum
- Conservation Community Forum
- Business Forum
- Stakeholder Round Table Sessions
- Survey Forms
- Online Surveys.

Consultation on a Draft Plan

After listening to what people had to say, the City developed the draft Joondalup 2022 and asked the community whether it reflected their vision for the future.

The City asked the views of:

- 3,000 randomly selected residents
- 694 active community members and organisations
- 39 government and regional stakeholders

A total of 348 people provided their valuable feedback, indicating overwhelming support for the City’s proposed 10-Year aspirational outcomes and objectives within the Plan.

An average of 89% of respondents either supported or strongly supported the contents of the draft Joondalup 2022 document.

In total, over 1,000 residents, community groups and stakeholders provided input into the development and finalisation of Joondalup 2022.

Key Consultation and Engagement Facts

- Forum Participants: 278
- Roundtable Session Participants: 113
- Engagement Surveys: 466
- Consultation Surveys: 348
- Total participation: 1,205
2016/17 Major Review

The major review has been heavily informed through multiple forms of engagement, as illustrated in the diagram below.

The City sought feedback from community members and stakeholders to assess whether the shared vision and priorities originally developed for Joondalup 2022 remained relevant to community aspirations. While the consultation was promoted various print and online mediums for the general resident/ratepayer community, consultation information was also sent to random sample of 3,000 City residents/ratepayers in order to attract statistically significant response rate.

Consultation was conducted for a period of 21 days from 14 August to 4 September 2017, in accordance with the City's Community Consultation and Engagement Policy. The City collected 414 responses throughout the 21-day consultation period with the majority of respondents rating the Plan's aspirational outcomes and objectives under each key theme as considered ‘moderately’ or ‘extremely’ relevant.

ELECTED MEMBERS

Elected Members reviewed previous amendments to Joondalup 2022, discussed relevance of City's vision and strategic priorities and evaluated the City's progression since the Plan's implementation.

STRATEGIC COMMUNITY REFERENCE GROUP

Community representatives and City's key stakeholders identified new priorities and emerging challenges and provided comment on the City's progression towards its objectives.

COMMUNITY CONSULTATION

The City conducted consultation for a period of 21 days and collected 414 valid responses. The majority of respondents rated the Plan's vision, aspirational outcomes and objectives under each key theme as ‘moderately’ or ‘extremely’ relevant.
“A global City: bold, creative and prosperous.”

In alignment with the City’s bold vision, the City believes the following primary values should be inherent within any well-functioning and community-driven organisation.

**PRIMARY VALUES:** Transparent, Accountable, Honest, Ethical, Respectful, Sustainable, Professional.
In order to drive strategic improvement and the re-positioning of the City and its community as leaders in excellence, Joondalup 2022 requires the adoption of distinguishing values to guide the direction and operations of the City in the future. They include:

**Bold**
We will make courageous decisions for the benefit of the community and future generations.

**Ambitious**
We will lead with strength and conviction to achieve our vision for the City.

**Innovative**
We will learn and adapt to changing circumstances to ensure we are always one step ahead.

**Enterprising**
We will undertake ventures that forge new directions for business and the local economy.

**Prosperous**
We will ensure our City benefits from a thriving economy built on local commercial success.

**Compassionate**
We will act with empathy and understanding of our community’s needs and ambitions.
Strategic alignment

The City acknowledges that Joondalup 2022 does not sit in isolation. The 10-year Plan fits within a State and Federal planning context that must be aligned with the broader strategic priorities that impact the community at large. The following diagram depicts the relationship between key external planning documents and Joondalup 2022.

Please note: some key external planning documents are currently in a draft format.
Integrated planning

In addition to the broader planning context, the City also works to an internal, Integrated Planning Framework. This Framework ensures that the City’s strategic priorities align to its planned activities and resourcing requirements.

The Framework also builds in reporting requirements to ensure transparency and the demonstration of planned achievements.

Whilst the Framework aligns to the Department of Local Government’s Integrated Planning and Reporting Framework, the City’s strategic planning and reporting structure is quite detailed and sophisticated, incorporating comprehensive informing strategies into the Framework. As a result, Joondalup 2022 becomes a very high-level document, whilst specific details on discrete service delivery areas are provided within the subsequent informing strategies.
Joondalup 2022 is divided into six Key Themes. Each Key Theme is defined by an Aspirational Outcome and within each are Objectives and Strategic Initiatives. This structure is shown below.

- **Governance and Leadership**
  - Effective Representation
  - Active Democracy
  - Corporate Capacity
  - Strong Leadership

- **Financial Sustainability**
  - Financial Diversity
  - Effective Management
  - Major Project Delivery

- **Quality Urban Environment**
  - Quality Built Outcomes
  - Integrated Spaces
  - Quality Open Spaces
  - City Centre Development

Effective representation
Active democracy
Corporate capacity
Strong leadership
“The City is recognised for its outstanding governance practices, which are achieved through strong leadership and fully-integrated community engagement systems.”

### Effective representation
To have a highly skilled and effective Council that represents the best interests of the community.

**Strategic initiatives**
- Attract a diverse elected body that represents, promotes and reflects the composition of the community.
- Ensure the elected body has a comprehensive understanding of its roles and responsibilities.
- Develop and deliver training initiatives that will foster a skilled and confident elected body.

### Active democracy
To have a community that actively engages with the City to achieve consensus and legitimacy in decision-making.

**Strategic initiatives**
- Fully integrate community consultation practices into City activities.
- Optimise opportunities for the community to access and participate in decision-making processes.
- Adapt to community preferences for engagement formats.
Corporate capacity

For the community to have confidence and trust in the City that it can deliver services effectively and transparently.

**Strategic initiatives**

- Demonstrate accountability through robust reporting that is relevant and easily accessible by the community.
- Maintain a highly-skilled and effective workforce.
- Apply a work ethic of confident and responsive action.
- Continuously strive to improve performance and service delivery across all corporate functions.
- Adopt citizen-centric digital services as opportunities arise that support improved service delivery and accessibility by residents.

Strong leadership

For the City to demonstrate advocacy in promoting the needs and ambitions of the City and the advancement of local government.

**Strategic initiatives**

- Advocate and influence political direction to achieve local and regional development.
- Seek out City representation on key external and strategic bodies.
- Participate in State and Federal policy development processes affecting local government.
- Foster strategic alliances to deliver key transformational projects and initiatives in partnership with key stakeholders.
Major priorities for the City in achieving its Governance and Leadership aspirations are included over the following pages.
City representation

The City capitalises on many opportunities for local, State, Federal and international representation on significant, external strategic bodies. If the City is to demonstrate strong leadership to its community and stakeholders, it is important that opportunities for knowledge sharing and influence are leveraged throughout the tenure of these positions for the benefit of the City and the broader Western Australian local government community.
Australian Business Excellence Framework

The City’s continued commitment to implementing the principles and practices under the Australian Business Excellence Framework is important to identifying areas for improvement that are comparable on a national and global scale.

If the City is to be recognised for its outstanding governance practices, it is important that it seeks out opportunities to be involved in independent benchmarking exercises in order to drive a culture of continuous improvement. This extends to participating in awards and knowledge sharing events to compare and grow as an organisation.

Social media and digital tools

As a part of the City’s Digital Strategy, the Social Media Strategy and enhanced digital tools allow greater access to communication for our community and stakeholders. The introduction of the City’s social media platforms has allowed the City to actively engage with its residents and customers and has proved to be a beneficial additional communication tool.

With the emergence of the digital age and the discovery of new forms of communication, the City aims to become more aware and equipped with the appropriate technological infrastructure to manage and embrace increased digital connectivity.

<tr>
<td><strong>Active democracy</strong></td>
<td>The City continually responded to requests for submissions on proposed major plans, strategies and policies affecting local governments by State and Federal Government departments and agencies. For strategic matters affecting the community at large, the City often uses sample sizes as a cost-effective methodology for large consultation processes. If the City can obtain a statistically reliable response for City-wide consultations, it is a reflection of an actively engaged community, effective encouragement for participation and an elected body that can make decisions with confidence. Of the four major sample sized consultations undertaken by the City since 2009, 75% have produced a statistically reliable result. To achieve statistical reliability with a confidence rating of 95% and +/-5% error margin for City-wide consultations, a minimum of 384 survey responses is required.</td>
<td>Since 2016/17, the City has conducted three major sample sized consultations undertaken by the City, with 100% producing a statistically reliable result. At the 2015 local government election, the average voter turnout rate for the City was 20.17%, compared to the State average of 27.5%. To meet or exceed the State average for voter turnout at local government elections.</td>
<td>100% of City-wide sample sized community consultations achieve a statistically reliable response rate based on a confidence rating of 95% and +/-5% margin for error. Measure: % City-wide sample sized consultations that receive &gt;384 returned surveys. <strong>Source:</strong> City of Joondalup Corporate Business Plan Quarterly Report</td>
</tr>
<tr>
<td><strong>Corporate proficiency</strong></td>
<td>In 2011/2012 the City achieved an overall community satisfaction rating of 83%, which is consistent with its average rating since 2008/2009. Due to the unique characteristics of community surveys undertaken by each local government, data is not validly comparable on a State-wide basis. As such, benchmarking will need to be against the City’s own performance.</td>
<td>In the most recent Community Satisfaction Survey, the City achieved an overall satisfaction rating of 83.8%, which is consistent with its average rating since 2008.</td>
<td>To maintain or exceed the average annual customer satisfaction rating since 2008. <strong>Measure:</strong> % overall community satisfaction rating. <strong>Source:</strong> City of Joondalup annual Community Satisfaction Survey results.</td>

Financial Sustainability

Financial diversity
Effective management
Major project delivery
ASPIRATIONAL OUTCOME

“The City is a financially diverse local government that uses innovative solutions to achieve long-term financial sustainability. Its rates revenue is moderated through the adoption of ongoing service efficiencies and alternative income streams.”

OBJECTIVES

Financial diversity
To be less reliant on rates as the primary basis for revenue by leveraging alternative income streams.

Strategic initiatives
• Identify opportunities for new income streams that are financially sound and equitable.
• Position the City to align with State and Federal Government priorities to increase eligibility for grant funding.

Effective management
To conduct business in a financially sustainable manner.

Strategic initiatives
• Manage liabilities and assets through a planned, long-term approach.
• Balance service levels for assets against long-term funding capacity.
• Seek out efficiencies and regional collaborations to reduce service delivery costs.

Major project delivery
To effectively plan for the funding and delivery of major projects.

Strategic initiatives
• Effectively prioritise major capital projects to facilitate long-term financial sustainability.
• Optimise funding options for new projects that take advantage of favourable economic conditions.
• Support new projects that balance identified financial risks against effective management approaches.
Major priorities for the City in achieving its Financial Sustainability aspirations are included over the following pages.

Strategic Planning Framework

In order to increase the City’s eligibility for future grant funding arrangements, it is important that its Strategic Planning Framework demonstrates clear alignment to State and Federal Government priorities. The City periodically reviews all strategic planning documents to ensure their effective integration and reflection of broader strategic outcomes, with the view of increasing its potential grant eligibility.
Income diversification review

The City acknowledges that a continued heavy reliance on property rates as the major source of income is a long-term risk to the City. Further opportunities for revenue, for example diversified parking management systems, will need to be considered by the City in the form of a full review of potential income options in the future.
## Measuring success

In order to assess the City’s achievement of Aspirational Outcomes, the following strategic performance indicators provide a basis for evaluation.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Financial ratios</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Balanced cash budget ratio:</td>
<td>In accordance with good financial management practices, the City aims to generate enough annual surplus to allow it to meet: • Additional financial costs for new capital expenditure; • Any deficit from new facilities that are now operational; and • Projected annual operational costs.</td>
<td>In 2016/17, the City’s balanced cash budget ratio was 0.05%; achieving a surplus of $84,016. These figures indicates that the City’s funds match expenses and is indicative of sound financial management.</td>
<td>To maintain an annual net closing position of between 0% and 1%. Measure: City of Joondalup annual net closing position. Source: City of Joondalup Annual Budget.</td>
</tr>
<tr>
<td>Operating surplus ratio:</td>
<td>In 2011/12, the City’s operating surplus ratio was -0.4%. The Department of Local Government’s Advanced Standards require an annual operating surplus ratio of &gt;15%. The current advanced standard ratio is considered inconsistent with the City’s ambition of maintaining an appropriate surplus and rate affordability level that reflects planned activities on an annual basis.</td>
<td>In 2016/17, the City’s Operating surplus ratio was negative (5%). This figure is below the City’s target, which is caused by factors such as undertaking additional infrastructure projects. Improvements to the operating position will be made to ensure the City returns to a positive operating surplus.</td>
<td>To maintain a positive operating surplus ratio of between 2%-8% over a 5-year average. Measure: City of Joondalup annual operating surplus ratio. Source: City of Joondalup Annual Report.</td>
</tr>
<tr>
<td>Debt service cover ratio:</td>
<td>In 2011-12, the City’s debt service cover ratio was 10.8. The Department of Local Government’s Advanced Standards require a debt coverage ratio greater than five. The current advanced standard ratio is considered inconsistent with the City’s ambition of optimising funding options according to favourable economic conditions. Whilst the capacity to service debt is considered imperative, capitalising on opportunities for debt affordability is also important.</td>
<td>In 2016/17, the City’s debt service cover ratio was 8.72.</td>
<td>Not to exceed five consecutive years with an annual debt service cover ratio of between 2 and 5, with all other periods exceeding a ratio of 5. Measure: City of Joondalup annual debt service cover ratio. Source: City of Joondalup Annual Report.</td>

| **Asset renewal funding ratio:**     | **Asset renewal funding ratio:** to be determined.  
This ratio indicates the financial capacity to fund asset renewals as required.                                                                                                                                   | In 2016/17, the City's asset renewal funding ratio was 0.62.  
The development of detailed asset class management plans now inform the City’s long-term renewal requirements, commencing with the Building Asset Management Plan.  
Progress towards the completion of these plans, in addition to planned capital expenditure, will ensure a high confidence in the calculation of the Asset Renewal Funding Ratio. | To be able to identify the City’s asset renewal ratio with a high confidence level by 2018.  
**Measure:** City of Joondalup asset renewal funding ratio.  
**Source:** City of Joondalup Annual Report.                                                                                                                                                                                                 |
Quality Urban Environment

Quality built outcomes
Integrated spaces
Quality open spaces
City Centre development
Quality open spaces
To have urban and green spaces which are attractive, well-utilised and enrich the lives of the community.

**Strategic initiatives**
- Apply a strategic approach to the planning and development of public open spaces.
- Employ quality and enduring infrastructure designs that encourage high utilisation and increased outdoor activity.
- Adopt consistent principles in the management and provision of urban community infrastructure.
- Establish landscapes that are unique to the City and provide statements within prominent network areas.

Integrated spaces
To have integrated land use and transport planning that provides convenient and efficient movement across the City.

**Strategic initiatives**
- Understand issues arising from the interaction between current transport modes.
- Provide for diverse transport options that promote enhanced connectivity.
- Improve the interface between the urban and natural environments.
- Enable safe, logical and accessible pedestrian movements throughout public spaces.
Quality built outcomes

For the City’s commercial and residential areas to be filled with quality buildings and appealing streetscapes.

**Strategic initiatives**

- Planning frameworks promote and support adaptive, mixed-use developments with active ground floor uses on appropriately zoned sites.
- Housing infill and densification is encouraged and enabled through a strategic, planned approach in appropriate locations.
- Environmentally sensitive building designs are showcased, promoted and encouraged.
- Buildings and landscaping is suitable for the immediate environment and reflect community values.
- The community is able to effectively age-in-place through a diverse mix of facilities and appropriate urban landscapes.

City Centre development

To have quality and diverse landmark buildings within the Joondalup City Centre that enhance the vitality and vibrancy of the urban space.

**Strategic initiatives**

- Promote and support bold and iconic private building developments within strategic City Centre land locations.
- Encourage ground level retail activities to support a growing and dynamic City Centre.
- Pursue the development of commercial office buildings within the Joondalup City Centre.
- Pursue the development of a Joondalup Performing Arts and Cultural Centre within the Joondalup City Centre.
Major priorities for the City in achieving its Quality Urban Environment aspirations are included over the following pages.

Local Planning Scheme No. 3

The City’s new Local Planning Scheme No. 3 will continue to support future housing and commercial development across the City, based on recently adopted informing strategies. The subsequent implementation of the new planning framework will increase flexibility to achieve built outcomes that meet the strategic objectives of the City and the future needs of its community.
Integrated transport planning

Understanding the interaction and use of current transport modes is required to plan for future people movements.

Developing a plan that identifies gaps in the current transport network will be necessary as a basis for successful funding and resource requests in the future.
Joondalup City Centre development

The development of Boas Place, a mixed-use development in the heart of the Joondalup City Centre, is seen as a priority to stimulate commercial growth and to enhance City Centre vibrancy.

The City will also welcome an additional 800 State Government officers to the City Centre in close proximity to Boas Place, who will contribute to growth by increasing the customer base for the potential commercial and retail tenants.

Joondalup Performing Arts and Cultural Facility

The construction of a Performing Arts and Cultural Facility within the Joondalup City Centre is critical to achieving the City’s aspirations of establishing a thriving cultural scene within the City. It will also aid in encouraging greater activity within the City Centre to improve economic growth and investment.

Leafy City Program

To reduce the environmental impact of climate change and rapid urban growth, the City’s Leafy City Program aims to increase its overall canopy cover by planting trees within the City’s suburban streetscapes. Increasing canopy cover throughout the City will create cooler, inviting green urban spaces that will improve the comfort of pedestrian movement and reduce the “urban heat island” effect generated by existing hardstand surfaces.
## Measuring success

In order to assess the City’s achievement of Aspirational Outcomes, the following strategic performance indicators provide a basis for evaluation.

|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Housing infill  | In 2011, the total number of residential dwellings within the City was 58,305 (excluding caravans etc.). The Department of Planning’s Outer Metropolitan Perth and Peel Sub-Regional Strategy provides a target of 12,300 additional greenfill and infill redevelopment lots by 2031. The City’s draft Local Housing Strategy provides a target of 18,898 new dwellings in identified housing opportunity areas by 2031. Up-take trends in these areas are expected to be identifiable from 2017 when the Local Housing Strategy will be implementable. | In 2016/17, the total number of residential dwellings within the City was 59,354 (excluding caravans etc.), which equates to 1,049 new dwellings. In addition, the following progression towards the additional dwelling targets are as follows:  
• 220 new dwellings in the City Centre.  
• 138 new dwellings in housing opportunities areas.  
• 911 new dwellings in Burns Beach and Iluka. | Additional dwelling targets for 2031 are as follows:  
• 1,500 number of new dwellings in the City Centre.  
• 18,898 new dwellings in housing opportunity areas.  
• 1,014 new dwellings in Burns Beach and Iluka.  
**Measure:** New “residential improved” rate qualifiers per annum within identified areas.  
**Source:** City of Joondalup property and rating database. |
| Landscaping     | City’s Landscape Master Plan guides the coordinated and holistic approach to public open space planning with sustainable water management outcomes. Implementation of the Plan demonstrates the City’s commitment to public open space renewal and water reduction targets. | Since 2012, the City has continued to undertake at least one Landscape Master Plan projects per annum. These have included:  
• Mawson Park, Hillarys;  
• Hillarys Park, Hillarys;  
• Warrandyte Park, Craige;  
• Broadbeach Park and Flinders Parks, Hillarys;  
• James Cook Park and Nash Park, Hillarys; and  
• MacDonald Park, Padbury. | The City undertakes one Landscape Master Plan projects per annum.  
**Measure:** Number of Landscape Master Plan projects completed per annum.  
**Source:** City of Joondalup Corporate Business Plan Quarterly Report. |
Economic Prosperity, Vibrancy and Growth

CBD of the North
Activity Centre development
Destination City
Regional collaboration
Business capacity
CBD of the North

For the Joondalup City Centre to be recognised as Perth’s second CBD, functioning as the primary commercial centre of the North West Metropolitan Perth Region.

Strategic initiatives

• Develop and promote a recognised industry niche that builds on existing strengths.

• Provide an efficient and integrated transport network that can support the needs of a high-functioning City Centre.

• Support advanced technology opportunities that will foster a thriving business environment.

• Proactively target and engage industries and businesses to drive City Centre development, including large government departments and agencies.

• Pursue the construction of multi-storey car park facilities within the Joondalup City Centre to facilitate greater accessibility.

Activity Centre development

To have revitalised Activity Centres that are multi-purpose and provide for housing diversity and enhanced liveability.

Strategic initiatives

• Understand local commercial needs and opportunities.

• Support the development of fresh and exciting de-centralised areas of activity.

• Facilitate increased housing density in Activity Centres.

• Promote the primacy of the Joondalup City Centre in the application of the Activity Centres Hierarchy.

“The City is lively and thriving across its commercial centres. It is a global City, home to diversified industries that generate a wide-range of local job opportunities, achieving employment self-sufficiency.”

ASPIRATIONAL OUTCOME

OBJECTIVES
Destination City

To become a “Destination City” where unique tourism opportunities and activities provide drawcards for visitors and high amenity for residents.

**Strategic initiatives**
- Actively promote and sponsor significant events and activities.
- Facilitate the establishment of major tourism infrastructure.
- Encourage diverse accommodation options.

Regional collaboration

For the City to collaborate with regional partners and stakeholders in order to maximise opportunities for the future economic growth of the North West Metropolitan Perth Region.

**Strategic initiatives**
- Undertake planning within a regional context.
- Foster strategic regional partnerships.
- Drive new employment and infrastructure opportunities on a regional scale.

Business capacity

For the City’s business community to have the technology and communication capability necessary to thrive within a competitive environment.

**Strategic initiatives**
- Actively seek opportunities for improving local communication network infrastructure.
- Facilitate knowledge sharing and learning opportunities.
Major priorities for the City in achieving its Economic Prosperity and Growth aspirations are included over the following pages.

Local Planning Scheme No. 3

The City’s new Local Planning Scheme No. 3 will continue to support future housing and commercial development across the City, based on recently adopted informing strategies. The subsequent implementation of the new planning framework will increase flexibility to achieve built outcomes that meet the strategic objectives of the City and the future needs of its community.
Investment attraction

Establishing a culture of proactive engagement with potential investors is imperative to the successful attraction of significant built and social infrastructure within the City. The City is now well-placed to position itself as the preferred location for activity and business investment in the future at a state, federal and international level.
Regional Economic Development Approach

The City must be aware of the regional context within which it resides if it is to mature to a level that supports regional growth and increased opportunities for employment. A regional approach will identify areas for potential collaboration between the Cities of Joondalup and Wanneroo to facilitate the future economic prosperity of the region. A regional approach will be integral for strengthening the City’s position to lobby for increased funding and support for large-scale infrastructure projects, due to their demonstrated regional implications.

Communication technology infrastructure

If the City is to effectively support business growth, investment attraction and employment self-sufficiency targets, advanced communication technology infrastructure will become a necessary resource in the future.

The City should apply strong leadership and influence to seek the early adoption and implementation of technologies through leveraging smart city technology options and regularly engaging with key stakeholders to identify opportunities for Smart City projects.

Ocean Reef Marina

Developing the Ocean Reef Marina site will be an essential catalyst for regional tourism development and the provision of diverse housing and accommodation options across the City in the future.

Constructing a facility that is environmentally responsible, unique and complementary to existing nearby infrastructure will be a challenge; however, its significance as a key transformational project is acknowledged.

Understanding the benefits that it will bring socially, economically and environmentally to the local and regional community is what will drive the City to continue pursuing the project into the future.
### Measuring success

In order to assess the City’s achievement of Aspirational Outcomes, the following strategic performance indicators provide a basis for evaluation.

Joondalup 2022 Economic Prosperity, Vibrancy and Growth
The Natural Environment

Environmental resilience
Community involvement
Accessible environments
Environmental leadership
ASPIRATIONAL OUTCOME

“The City is a global leader in adaptive environmental management. It works closely with the community to protect and enhance the natural environment, while celebrating and showcasing its natural assets to the world.”

OBJECTIVES

Environmental resilience
To continually adapt to changing local environmental conditions.

Strategic initiatives
- Understand the local environmental context.
- Identify and respond to environmental risks and vulnerabilities.
- Demonstrate current best practice in environmental management for local water, waste, biodiversity and energy resources.

Community involvement
To build a community that takes ownership of its natural assets and supports their ongoing preservation and conservation.

Strategic initiatives
- Elevate community awareness regarding its impact on the natural environment.
- Ensure that community behaviours and attitudes are continually adapting to achieve global and local environmental targets.
- Facilitate active involvement from the community in preserving and enhancing the natural environment.
Accessible environments

To develop an appreciation for local natural assets by providing appropriate access to natural areas.

**Strategic initiatives**
- Promote significant local natural areas.
- Build an effective interface between humans and the natural environment.
- Immerse learning opportunities within the natural environment.
- Obtain appropriate recognition for our natural areas.

Environmental leadership

To embrace learning opportunities on an international scale and continuously lead by example in our application of new knowledge.

**Strategic initiatives**
- Demonstrate leadership in environmental enhancement and protection initiatives.
- Promote environmental scholarship and effective environmental management practices to a global audience.
- Actively support local environmental research initiatives.
Major priorities for the City in achieving its Natural Environment aspirations are included over the following pages.
Natural areas management planning

Environmental threats have the potential to degrade natural areas and reduce biodiversity values.

The development of Natural Areas Management Plans will inform maintenance schedules and Capital Works Programs by providing prioritised management recommendations.

They will also increase funding opportunities for the City by detailing a schedule of projects that aim to improve City responses to identified environmental risks.
Climate Change Strategy

Climate change affects many local government management areas including infrastructure, health services, water and emergency management and the natural environment. Due to the complexity and uncertainty of climate change scenarios, it is essential that their associated risks are assessed in order to inform appropriate local planning responses. The City’s Climate Change Strategy provides mechanisms for greenhouse gas mitigation and recommends strategies for building a resilient environment and community.

Coastal Adaptation Plans

The City’s coastline is highly valued by the City and its community for its natural assets. There are significant infrastructure assets along the coast such as roads, car parks, dual use paths, playgrounds, park infrastructure and buildings that are either owned or managed by the City. Increasing erosion and inundation and potential sea level rise has the potential to impact on these natural and built assets and may alter the way these areas can be accessed and enjoyed. The City will develop site specific coastal infrastructure adaptation plans to respond to such challenges.

Native vegetation mapping

Understanding the extent of native vegetation that exists within the City of Joondalup can lead to greater protection of environmental assets. In order to establish the current level of native vegetation that is protected within the City a mapping project is required. Mapping of individual vegetation complexes and the current percentage of protected areas will result in greater understanding the types of floristic communities that exist within the City and will enable targets to be established to increase the level of protection.

Waste management

New State Government diversion targets and an increasing landfill levy will impact the City’s costs associated with disposing of waste to landfill. The City’s Waste Management Plan will continue to guide its waste management practices to ensure increased diversion from landfill and to inform long-term planning for waste management.

Bushfire risk management planning

Bushfires have the potential to cause injury and threaten lives, property and assets, significantly degrade bushland areas and harm wildlife. Planning for fire management and the implementation of prevention, preparedness and recovery strategies can minimise the risk to people, property and the environment.

The development of the City’s Bushfire Risk Management Plan will provide an ongoing strategic approach to the management of bushfire risk within the City of Joondalup. The proposed mitigation strategies included within the Plan will aim to reduce the risk of fire occurrence within the City.
### Measuring success

Community Wellbeing

Quality facilities
Cultural development
Community spirit
Community safety
“The City has world-class facilities and a thriving cultural scene. It encourages and supports local organisations and community groups. Community spirit is felt by all residents and visitors, who live in safe and friendly neighbourhoods.”

**Quality facilities**

To provide facilities of the highest quality which reflect the needs of the community now and into the future.

**Strategic initiatives**

- Support a long-term approach to significant facility upgrades and improvements.
- Understand the demographic context of local communities to support effective facility planning.
- Employ facility design principles that will provide for longevity, diversity and inclusiveness and where appropriate, support decentralising the delivery of City services.

**Cultural development**

For the community to have access to world-class cultural and artistic events and facilities.

**Strategic initiatives**

- Establish a significant cultural facility with the capacity to attract world-class visual and performing arts events.
- Invest in publicly accessible visual art that will present a culturally-enriched environment.
- Actively engage event promoters to host iconic, cultural and sporting events within the City.
- Promote local opportunities for arts development.
Community spirit
To have proud and active residents who participate in local activities and services for the betterment of the community.

**Strategic initiatives**
- Support and encourage opportunities for local volunteering.
- Promote the sustainable management of local organisations and community groups.
- Deliver a program of community-based events and education that encourage social interaction within local neighbourhoods.
- Promote and support the needs of disadvantaged communities.
- Support and facilitate the development of community leaders.

Community safety
For residents to feel safe and confident in their ability to travel and socialise within the community.

**Strategic initiatives**
- Imbed safety principles into asset management and design.
- Build a community that works in partnership with government and non-government organisations to achieve real and long lasting improvements in safety and wellbeing.
- Build a healthy community that is aware of and responsive to current public health risks.
Major priorities for the City in achieving its Community Wellbeing aspirations are included over the following pages.

Joondalup Performing Arts and Cultural Facility

The construction of a Performing Arts and Cultural Facility within the Joondalup City Centre is critical to achieving the City’s aspirations of establishing a thriving cultural scene within the City. It will also aid in encouraging greater activity within the City Centre to improve economic growth and investment.
Hosting a significant event

Hosting a significant event provides an opportunity to enhance tourism activity and stimulate the local economy, whilst attracting national and international media coverage, promoting and strengthening Joondalup’s reputation and image as an attractive destination City.

Kaleidoscope, a family-friendly event, is a large-scale lighting projection festival, incorporating music, food and beverages. This event will provide participation opportunities for the community, including emerging performers, local organisations, schools and the general public.

If the City is to effectively lift its broader appeal and identity to a national scale, the presence of significant events within the City is essential for its reputational aspirations.
Improving access to services

The City will continuously review its service delivery methodologies to ensure that services remain relevant and tailored to community needs. Consideration of digital technologies and opportunities to increase accessibility are required to improve the City’s current service efficiencies in order to help build a happy, healthy and well-connected community.

Community wellbeing survey

To identify and analyse community perceptions, the City’s Community Wellbeing Survey provides information on the overall level of wellbeing experienced by the community. Data will be used to inform and enhance services to meet current and future needs of the community.

Glossary of Terms

Terms used within Joondalup 2022:

Activity Centres

Activity Centres are defined within the Western Australian Department of Planning’s, Directions 2031 and Beyond document. The Centres are “attraction hubs” that have a concentration of commercial uses and other associated activities.

Activity Centres are listed in the following order:

1. Capital City
2. Primary Centre
3. Strategic Metropolitan Centre
4. Secondary Centre
5. District Centre
6. Neighbourhood Centre
7. Local Centre

The Joondalup City Centre is currently categorised as a Strategic Metropolitan Centre.

adaptive management

Adaptive management is a decision-making process that takes into account future uncertainty. It achieves this via consistent system monitoring to inform and improve future management needs before they become urgent.

ageing-in-place

Ageing-in-place is the ability for a person to live in their own home or community safely, independently and comfortably, regardless of age, income, or ability level. It promotes the need for an ageing population to have the option to remain in a home or community throughout their life.

asset consumption ratio

An asset consumption ratio shows the written-down current value of a local government’s depreciable assets relative to their “as new” value in up-to-date prices. It highlights the aged condition of the local government’s stock of physical assets.

The ratio is calculated by dividing the organisation’s depreciated replacement cost of assets (written down value) with its current replacement costs of depreciable assets.

asset management ratios

Asset management ratios are used to identify asset sustainability levels.

asset renewal funding ratio

An asset renewal funding ratio measures whether a local government has the financial capacity to fund asset renewal as required, and can continue to provide existing levels of services in future, without:

- additional operating income; or
- reductions in operating expenses; or
- an increase in net financial liabilities above that currently projected.

It is calculated by dividing the net present value of the organisation’s planned capital expenditure over 10 years with its net present value of required capital expenditure on renewals over the same period.

asset sustainability ratio

An asset sustainability ratio measures the extent to which assets managed by a local government are being replaced as they reach the end of their useful lives. It is calculated by dividing an organisation’s capital expenditure on replacement or renewal of assets with its depreciation expense.

Australian Business Excellence Framework

The Australian Business Excellence Framework is an international business management system owned by SAI Global, which sets out the components of a high performing organisation. The City utilises this Framework to assess and inform its organisational performance.

current ratio.
A current ratio is a measure of a local government's liquidity that is calculated by dividing the organisation's current assets by its current liabilities.

**debt service cover ratio**

A debt service cover ratio measures the available cash within a local government to service the interest, principle and lease payments of a debt. It is calculated by dividing an organisation's annual operating surplus (before interest and depreciation) with its annual debt service payments.

**employment self-sufficiency**

Employment self-sufficiency is defined as the percentage of the workforce employed in the area or region that also lives within the area or region.

**environmental resilience**

Environmental resilience refers to the capacity of the environment to respond to a disturbance by resisting damage and recovering quickly.

**financial ratios**

Financial ratios are calculations based on reporting information that allow the overall financial condition and performance of an organisation to be evaluated. The specific financial ratios used by local government are legislated under the Local Government (Financial Management) Regulations 1996.

**housing infill**

Housing infill refers to the insertion of additional dwellings into existing lots. For example, an existing home may be demolished and replaced with multiple units.

**Local Gross Regional Product**

Local Gross Regional Product shows the value of the economy, generated by the workers within the area, regardless of where they live, after taxes and dividends leave the area.

**operating surplus ratio**

An operating surplus ratio indicates the extent to which a local government's raised revenues are able to cover operational expenses. It is calculated by dividing the organisation's net operating surplus with its own source operating revenue.

**Primary Centre**

(See “Activity Centres”.)

**Strategic Metropolitan Centre**

(See “Activity Centres”.)

**governance**

The City's Governance Framework defines governance as:

“...the process by which decisions are taken and implemented, the process by which organisations go about achieving their goals and producing their outputs and the process by which organisations are directed, controlled and held to account.”
