MURPHY, Hunter

I present myself for the role of councillor in order to represent the Joondalup community, residents, clubs and businesses. I have lived in the South Ward for 20 years and have many years of management experience and 10 years working in and supporting the Local Government sector in Western Australia.

My objectives in representing the community include supporting job creation opportunities, sustainable development, maintenance and protection of natural areas, beautification of street-scapes and the built environment and sustainable development.

I support sustainable development and believe the City of Joondalup is in a position to show leadership in areas such as energy and water efficiency in building codes, healthy and sustainable material requirements in community assets and facilities and support and encouragement of removal of hazardous materials like asbestos.

I believe the City of Joondalup can become the healthiest Local Government area in Australia through confident leadership.
