## DOUST, Philip

*I have lived in Sorrento with my wife and two children since 1980.*

*I am the Managing Director of Doust Plumbing Products, a local manufacturing company I founded in 1998, which has become a market leader throughout Australia and now exports our locally made products globally.*

*I am passionate about the community I live in and over the years have volunteered wherever my skills and experience were needed. I was asked to become the President of the Northern Districts Gymnastics Club when the club was experiencing financial difficulty and successfully ensured the club was financially viable again within two years.*

*If we want to see our quality of life continue to improve then Joondalup needs experienced and capable representatives on Council.*

*Given my experience in business, and my community work, I believe that I am in an excellent position to further serve you and our community as your local Councillor.*
