---

## **RIBBONS, Allan**

Allan Ribbons has lived in Hillarys for over ten years. He is a young 60 years old, a school teacher and technology learning facilitator, married with three young adult children and is a proud granddad. Allan enjoys the outdoors, particularly the ocean. You'll often find him out paddling his ski around Hillarys, racing downwind to Ocean Reef or enjoying the local parks, concerts, festivals and markets with his family and neighbours. The City of Joondalup is a great environment and Allan is keen to represent the diverse needs of the community and be involved in the continued development of the facilities and features provided by the Council. Allan is mindful of the challenges faced by people in uncertain financial times so is keen to promote the maximum return to the community for the funds invested through their rates. He is also keen to promote activities for seniors and families.
