

Picnic Basket Template

Materials:

Card or paper—coloured, patterned or white

Glue, sticky tape or stapler

Scissors

Textas, Pencils or Crayons

Instructions:

1. Decorate basket

2. Cut out square basket and rectangle handle shapes.

(You can use a bigger piece of paper than the template to make your basket bigger. Just make sure you keep the basket a square)

3. Cut in from the corners of the square along the solid line. Each cut should be the same length. The longer the cut, the deeper the basket will be.

4. Fold the sides up and staple, glue, or sticky tape them together

5. Attach the handle with sticky tape or glue

6. On a separate piece of paper, draw some yummy picnic food, or colour in and cut out the food we've included in this guide.

7. Set up a picnic with your favourite teddy or special toy and have fun!

Picnic Basket Template

This template will make a basket the perfect size for a little teddy bear or special toy. If you have a bigger toy—with a bigger appetite—use this as a guide and use a bigger piece of square paper as the base of your basket.

Picnic Foods Template

Colour in and cut out some of this yummy food to add to your picnic;
or draw and colour your own tasty treats!
