## KINGSTON, Daniel

I respectfully ask your vote to be your local councillor.

I am an active resident who for several years has attended council meetings advocating for accountability and transparency. As Secretary of Friends of Yellagonga Regional Park, I volunteer to preserve our unique environment by planting trees with community and schools.

With my commerce background I will keep rates affordable and oppose any paid public parking at Ocean Reef Marina or along the coast.

I will promote better planning that will protect nature, improve streetscapes, and keep apartments out of cul-de-sacs. I will support sport clubs and families by improving parks and facilities and stop the use of pesticides near children's playgrounds.

I will be an energetic representative and listen to you before making decisions.
