CREATIVE PLACE TO BE

The City of Joondalup is proud to present the 2022-23 cultural program celebrating all the visual and performing arts activities on offer throughout this upcoming season.

The City's cultural program provides an opportunity for the community to access world-class events, exhibitions, workshops and programs across every art form.

After two seasons of COVID-19 impacting programming and disrupting public event delivery, the 2022-23 season endeavours to represent a new chapter and return to adventurous artistic programming and hosting local, national and international artists in Joondalup. What underpins the artistic program is our intention to present work by our local community, produce performances and exhibitions for the community and co-design work with the community.

Still the region's largest cultural event, the Festival is the finale to the summer events program.

After a three-year break during COVID-19, the Joondalup Festival returned in 2022 with an exciting new format. The revitalised program is now held over a three-week period across various locations throughout the City.

The Festival aims to enrich the culture of the Joondalup community by creating a range of artistic opportunities for audiences and artists within the City and to deliver an iconic event in metropolitan Perth attracting attendance from far and wide.

In 2023 the Festival seeks to return to featuring local, national and international artists presenting work for the community, by the community and with the community.

Public Art

The defining principle of public art is that the work has been designed by an artist for enhancement of a public realm. Public art can be of any art form, from traditional media such as sculpture to contemporary works, or functional objects and multimedia installations. It may be a permanent or temporary artwork or ephemeral art and has a broad scope with many possibilities for the form, function and materials.

The City's current Public Art Collection comprises of 36 works including mosaics, murals, sculptures, street bollards, architectural details and street furniture. Much of the works are in and around the Joondalup City Centre. To guide the delivery of public art projects that contribute to creating a sense of place, promote the expression of local identity, and reflect on the shared values of the community, the City adopted a Public Art Policy on all refurbishments of City-owned properties or new developments where the overall project costs are over \$1,000,000.

Refer to the City's website for further details or call **9400 4924**.

Inside-Out Billboard

Upcoming cycle

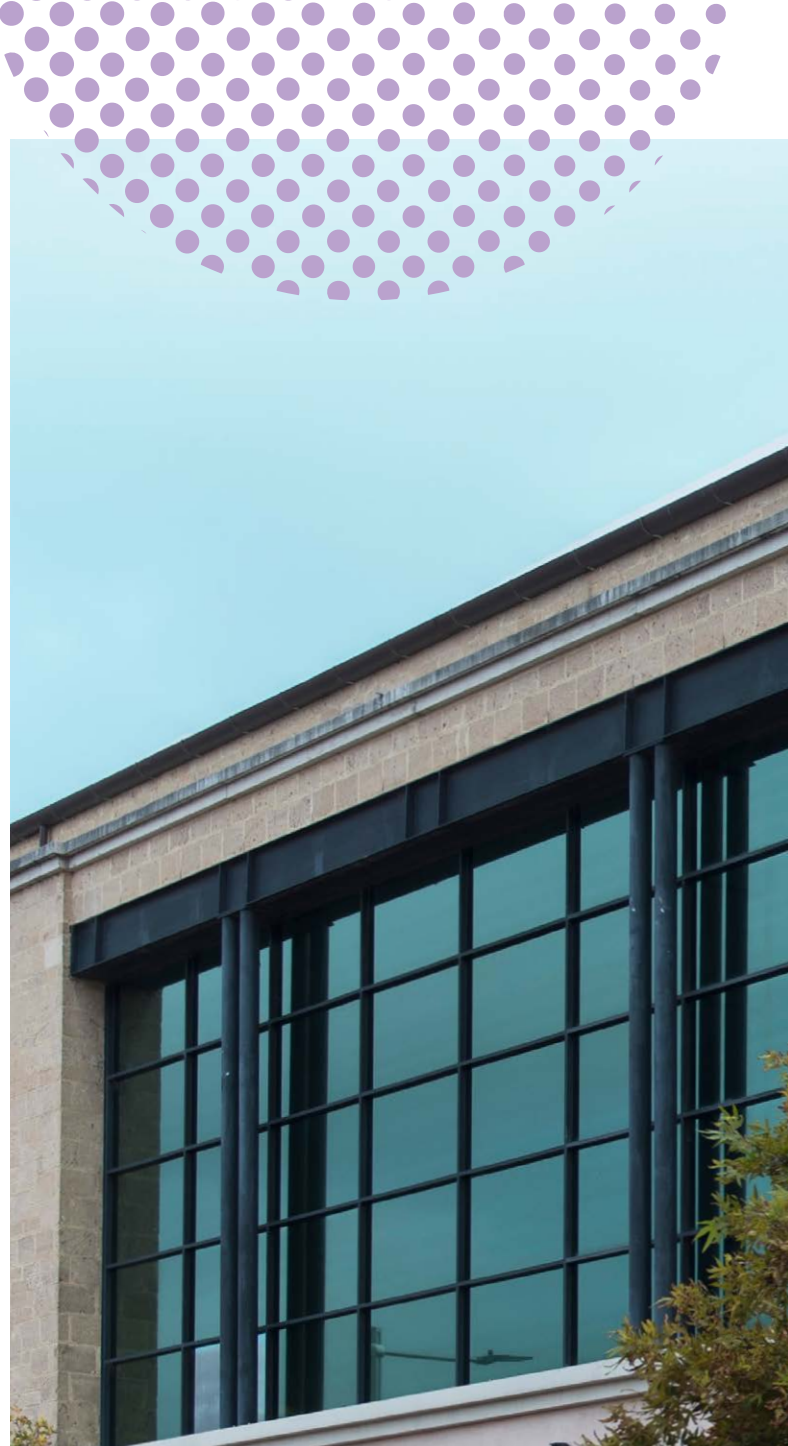

The Inside-Out Billboard project provides the community with an opportunity to view contemporary artworks by Western Australian artists commissioned by the City of Joondalup.

These artists are selected from the Community Art Exhibition and Invitation Art Prize to have their work displayed in large format in the public realm. Each artwork is installed on the facade of the Joondalup Library for six months and then later re-installed at the Joondalup Courthouse.

In October 2022 a new work by Britt Mikkelsen will be installed on the Joondalup Library billboard, following her selection from the Invitation Art Prize in 2021.

Refer to the City's website for further details or call **9400 4924**.

Arts in Focus

Arts in Focus is a community cultural development initiative that aims to provide information, advice and advocacy for local artists and cultural groups, and build their capacity to create and participate in cultural activities within the City. The program aims to provide development and networking opportunities for interested individuals and organisations.

Keep up to date with workshops and networking events by subscribing to the arts in focus e-newsletter.

Mural Arts

The City's Mural Arts Program aims to introduce a range of mural styles that reflect the diversity of the community's aspirations and tastes.

It builds on and promotes the character and identity of the Joondalup region by running two annual programs:

Artist-driven mural programs, whereby an artist is commissioned to install a mural in reference to the location and the surrounding community. This is through a curated shortlisting process.

Community-driven murals involve engaging the community through programs such as the City's Schools Connections Program in the design and installation of the mural.

The most recent commission was *Rhythm on the Lake*, completed by Jack Brommell in Central Park, Joondalup. This work depicts local flora and fauna, promoting environmental awareness and celebrating the diverse wildlife of the region.
