## 1) **Executive Summary**

For a number of years, the City of Joondalup has been able to deliver modest rate increases as well as a significant reduction in rates revenue in 2020-21 whilst still being able to deliver services and provide facilities that have consistently met the expectations of residents. This has been achieved by prudent financial management.

The 2020-21 Budget incorporated significant measures taken to mitigate the impact of COVID-19 on the wider community, including the local economy. The main measure during 2020-21 was the reduction of rates revenue by \$5.3 million. In 2022-23 an increase of 4.09% to rates revenue from 2021-22 is proposed, with no adjustment to minimum rates, but rates revenue will still be only marginally above 2019-20 rates levels. Of total residential properties, which comprise 95% of all properties in the City, 67% will still receive a general rates levy in 2022-23 below that levied in 2019-20, in spite of the proposed increase.

The City's *Strategic Community Plan* has been reviewed and the City's 2022-23 Budget continues to deliver the vision of "A global City: bold, creative and prosperous". The City's draft *10 Year Strategic Financial Plan* guides the development of the 2022-23 Budget.

As has been the case since the 2008-09 financial year, differential rating will be applied for 2022-23. The differential rates proposed for residential, commercial and industrial property, both improved and unimproved, have been reviewed ensuring that the City is able to equitably spread the rates levy burden across the community.

The 2022-23 Budget general rate revenue will be \$104.6 million excluding Specified Area Rates. Rates are the City's largest single, source of funds without which the City could not deliver many of its services, facilities or undertake planned works and projects.

The 2022-23 expenditure program includes a number of significant projects and programs including:

Chichester Park Clubroom Redevelopment	\$4,175,614
Craigie Leisure Centre Upgrades	\$3,916,965
Ocean Reef Marina Club & Commercial Development	\$3,500,000

Popular beaches with excellent facilities are located at Marmion, Sorrento, Hillarys, Pinnaroo, Whitfords, Mullaloo, Ocean Reef, Beaumaris and Burns Beach. Beachside leisure activities include boating, water skiing, snorkelling, fishing, windsurfing, animal exercise and dual use paths ideal for walking and cycling.

The City provides a wide range of community services and some of the best leisure and sporting facilities available, catering for junior and senior sporting and recreational pursuits.

## **8) Borrowings**

The City is not proposing any new borrowings during the 2022-23 financial year.

Existing borrowings will require principal and interest repayments of \$909,513 and \$88,500 respectively. Loan principal outstanding is expected to decrease from \$2.8 million at 30 June 2022 to \$1.9 million at 30 June 2023 where the full amount outstanding is for the Reid Promenade Multi Storey Car Park which is funded from paid parking revenue.

## **9) Conclusion**

The City of Joondalup's 2022-23 Budget continues to be influenced by the prevailing economic environment with inflationary pressures impacting the City's costs. The City continues to maximise Federal and State grant opportunities when they present.

This budget is a marginal improvement from the significant impact on the City's operating position in the previous year's budget. This is the result of measures taken by the City in 2020-21 as once-offs to mitigate the expected negative impact of COVID-19 on the wider economy and community, the effects of which continue into the 2022-23 financial year.

The City will strive to deliver on the 2022-23 Budget whilst maintaining alignment to the *City's Strategic Community Plan, Joondalup 2022*, to ensure the City is delivering on the vision of "A global City: bold, creative and prosperous" and will be guided by the City's Draft *10 Year Strategic Financial Plan*.

# CITY OF JOONDALUP

## FOR THE YEAR ENDED 30 JUNE 2023

### BASIS OF PREPARATION

The budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

### THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City of Joondalup controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 16 to the budget.

### 2021/22 FORECAST BALANCES

Balances shown in this budget for 2021/22 forecast are estimates at the time of budget preparation.

All land (other than exempt land) in the City of Joondalup is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the City of Joondalup.

The general rates detailed for the 2022/23 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

**2 (d) NET CURRENT ASSETS (CONTINUED)**

**SIGNIFICANT ACCOUNTING POLICIES**

**CURRENT AND NON-CURRENT CLASSIFICATION**

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

**TRADE AND OTHER PAYABLES**

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City of Joondalup becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

**PREPAID RATES**

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises revenue for the prepaid rates that have not been refunded.

**INVENTORIES**

**General**

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**Superannuation**

The City of Joondalup contributes to a number of superannuation funds on behalf of employees.

All funds to which the City of Joondalup contributes are defined contribution plans.

**LAND HELD FOR RESALE**

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

**CONTRACT ASSETS**

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

**TRADE AND OTHER RECEIVABLES**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

**PROVISIONS**

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**EMPLOYEE BENEFITS**

**Short-term employee benefits**

Provision is made for the City's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

**CONTRACT LIABILITIES**

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the City are recognised as a liability until such time as the City satisfies its obligations under the agreement.

### 3. RECONCILIATION OF CASH

#### SIGNIFICANT ACCOUNTING POLICES

##### CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 2 - Net Current Assets.

##### FINANCIAL ASSETS AT AMORTISED COST

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

### SIGNIFICANT ACCOUNTING POLICIES

#### LEASES

At the inception of a contract, the City assesses whether the contract is, or contains, a lease.

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability, at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

#### LEASE LIABILITIES

The present value of future lease payments not paid at the reporting date discounted using the incremental borrowing rate where the implicit interest rate in the lease is not readily determined.
