Stage plan

Please clearly indicate on the stage plan below how you/your group will appear.

Please note that the City will provide a backline drum kit that will remain set up at the back of the stage for the evening due to time that it takes to set up. Hip Hop or other groups involving dancing may need to use the main floor instead of the stage due to stage size restrictions.

Groups will need to provide instruments and any other special equipment. The City will provide other basic backline requirements including amps and microphones. It is recommended that performers provide their own cymbals and snare if they have a preference as the drum kit will be standard.

Show clearly where vocal microphones, instruments and amps will be placed/required.

If you have any other special requirements, please provide information here:
