

I am Rebecca Pizzey, a mother of three and nurse of 20 years. I volunteer my time in the local community with Kingsley Junior Football Club and as Secretary at Mullaloo Community Kindy.

As a Registered Nurse I have always advocated for my patients and if elected I will advocate for you and our community to create a transparent and accountable council. I will be fiscally responsible and make decisions for the community's best interests, not for personal gain.

I will protect our green and natural spaces, ensuring the community has access without financial burden and improving those areas with better facilities and lighting where needed. I will protect mature trees and natural spaces, working to phase out chemical weed spraying.

I will advocate for community led initiatives like community gardens or creating spaces for adolescents. I will support the proposed mountain bike trails. The community should be encouraged and supported when endeavouring to create positive change.

I will support a freeze to rates in these inflationary times and support an independent review of spending to ensure there is no administrative or financial waste. Encouraging transparency in all decisions and spending that is made. Council decisions should not be hidden from the public.

I will support small business and advocate for no paid parking anywhere in the City of Joondalup, including to our beautiful beaches.

I do not support the Groynes and will call for a review of the current CHRMAP.

The Venue Hire Fees and Charges Policy needs to be reviewed as it increases the financial burden to clubs and groups that are run by volunteers and ratepayers. These groups should be supported and encouraged by the City.

I will be an energetic, productive, and transparent councillor, who will listen to you. I have a strong moral compass and I will be a sensible voice to advocate for you at council. Let us together build a better, stronger, safer, and connected community.
