

As a long-term resident of Duncraig, a mum of 4 school aged children, an Education Assistant and Disability services support worker, I understand the importance of community and recognise that families are under pressure right now with the cost-of-living crisis.

We need a serious representative who understands our community and will support the provision of services that are needed most! A councillor who has our back and follows through in the best interests of ALL.

Our community and council are best served when we have a diverse range of voices and experiences representing our community.

The City of Joondalup lacks female representation and that's why I'm running to be your new councillor. I have been an active member of our community for many years. I've been involved on my local P&C, football club committees and have volunteered for several community organisation including Cycling without Age, Feed it Forward and Telethon Community Cinema.

My vision for the City of Joondalup is for it to be a hub for the Arts. I'm an active consumer and supporter of the Arts and know the value that it brings to our community.

I'm passionate about our natural environment including our local parks and beaches. As your local Councillor, I will be strongly in favour of protecting our environment and promoting sustainability while still having a vision for growth and expanded facilities.

I will fight to increase support from the Council to our sporting clubs and community groups – which form the backbone of our community. Including advocating for City of Joondalup Community facilities to be more accessible to all.

If elected, I commit to open and transparent representation. I will be accessible to all, and ensure residents have a genuine voice on our council.
