Those who know me, know how dedicated I am to representing our community. I've worked with many of you, fighting against poor quality flats, and inappropriate day care centers built next to your homes, advocating for fairer planning outcomes at our shops and in our suburb, seeking better traffic management on Woodvale Dr, and representing locals in the Smart Freeways project. I regularly attend Council and keep residents updated.

My family and I made Woodvale our home 7 years ago. We are part of the community, volunteering with Mullaloo Surf Lifesaving, coaching junior sports, running the local toy library, and much more. I'm running to:

- Keep rates and fees affordable, to support struggling families
- Deliver sensible, future-focused planning
- Promote strategies that support small business
- Ensure residents are included in decision-making
- Find alternatives to the "Mullaloo Groynes"

Joondalup is a great place to live, With your Vote,  
I promise to safeguard the lifestyle it provides
